HAMILTON COLLEGE.

Admission.

It is required that the candidates for admission to the Freshman Class should not be less than fifteen years of age, with a corresponding increase for an advanced standing; that they furnish evidence of good moral character; and if from another College, a regular dismissal; and that they sustain a satisfactory examination on the PREPARATORY STUDIES, or for an advanced class, on the several studies to which the class they propose to enter has attended. None can be admitted into the Senior Class after the winter vacation.

Preparatory Studies.

IN GREEK: Xenophon's Anabasis, two books; Homer's Iliad, one book with prosody and the rules for pronunciation according to the Continental method.

IN LATIN: Cæsar's Commentaries, four books; Virgil's Æneid, six books with prosody; Cicero, six Select Orations; Sallust's Catiline; and either Sallust's Jugurthine War, or the Eclogues of Virgil; Arnold's Latin Prose Composition, twelve chapters.

IN MATHEMATICS: Arithmetic, Algebra to Equations of the second degree; Plane Geometry.

Candidates will also be examined in English, Latin and Greek Grammar, Ancient and Modern Geography, History of the United States, and in Greek and Roman Antiquities.

The ENTRANCE EXAMINATIONS are held at 9 o'clock A. M., on Monday and Tuesday preceding Commencement, and on the last day of the ensuing vacation.

Candidates for Admission to College should bring with them, to the Senior Class Room, pencils for writing, and a copy of each Greek and Latin Author in which they propose to be examined.

Course of Instruction.

The whole course of Instruction occupies four years, and the Students, in all the classes, are usually required to attend three exercises on each day.

The object of the course is to form the mind to habits of accurate discrimination, close reasoning, and vigorous application; and, at the same time, furnish it with the leading facts and principles in Literature, Science, and the Arts.

Mineralogy,	Third Term.

TO THE FRESHMAN CLASS—on

Elocution,	First Term.
Greek Poets,	Third Term.

Rhetorical Exercises.

Weekly exercises in Composition and Extemporaneous Debate take place in the several classes. Besides these, on Wednesday and Saturday of each week, all the Students are required to attend public exhibitions in the Chapel, of Declamation, and of Original Essays, Disputes and Orations, under the direction and criticism of the Kingsley Professor of Rhetoric.

Chemistry.

Owing to the munificence of the late MR. SILAS D. CHILDS, of Utica, the Chemical Laboratory will undergo during the present year extensive alterations, and will be supplied with new and valuable apparatus.

The Senior Class, besides receiving instruction both by lectures and recitations in general Chemistry, will in accordance with the will of Mr. CHILDS, receive a thorough course of instruction in Chemistry as applied in Agriculture.

During a portion of the year, instruction in qualitative chemical analysis, will be given at stated hours to those members of the Senior Class who may choose to pursue this study.

Apparatus and chemicals will be furnished to the students at wholesale prices.

The facilities of the Laboratory will be such, that those who may desire to continue the study of Chemistry, after their graduation, will have an opportunity.

Astronomy.

As a means of giving more complete instruction in this Department, and also for the purpose of original observation, an Astronomical Observatory has been erected on the College grounds. The Astronomical Department and the Observatory have been very liberally endowed by the Hon. EDWIN C. LITCHFIELD, LL. D., of Brooklyn.

The Observatory consists of a central building, with wings on the east and west side. The central building is twenty-seven feet square, and two stories high, surmounted by a revolving tower, twenty feet in diameter.

The great Equatorial in the tower, constructed by Spencer & Eaton, has an object-glass of 13.5 inches in diameter, and focal length of nearly sixteen feet; it is provided with six positive and six negative eye-pieces, with a ring and a filar micrometer. For solar observations it has a prismatic polarizing eye-piece of original construction by Robert B. Tolles. The declination circle of

twenty-four inches, by means of four verniers, reads to four seconds of arc: the hour circle, of fourteen inches, by means of two verniers, reads to two seconds of time. The instrument is mounted upon a granite shaft, nine feet in height, resting upon a pier of solid masonry. A clock work with *Bond's* isodynamic escapement and spring governor, causes the telescope to follow the daily motion of the stars by acting upon long arms attached to the equatorial axis.

The wings are each eighteen feet square: the east room is used as an office for the Director. In the west room is mounted a portable Transit Instrument of 2½ inches aperture, the gift of Hon. ANSON S. MILLER, LL. D., of Rockford, Ill., and constructed by W. Wurdemann, of Washington, D. C. It has a cast-iron folding stand, invented by the maker.

Near the Transit is an Astronomical Clock, constructed by William Bond & Son, Boston, and presented by the late Hon. WM. CURTIS NOYES, of New York. It is regulated for mean time, and provided with the break-circuit for telegraphic operations. By the side of the Clock is a Chronograph of Bond's most recent construction, and regulated by the spring governor, presented by MICHAEL MOORE, Esq., of Trenton Falls. These instruments have been connected by a telegraphic wire with the nearest station; and the longitude of the Observatory has thus been accurately determined by exchanging star signals with the Harvard College Observatory, at Cambridge, Mass.

In its turn, the Litchfield Observatory already has become the basis of several longitudes in the State, determined under the auspices of the Regents of the University, at Buffalo, Syracuse, Elmira, Ogdensburg, and of the longitude of the Detroit Observatory at Ann Arbor, Mich., which latter forms the fundamental point for the longitudes of the Lake Survey. The latest work of this kind, has been to determine the longitude of the western boundary of the State of New York.

Besides, the Observatory possesses a Siderial Chronometer, constructed by the same makers, with the Hartnup's improved compensation balance: this instrument was the gift of the late Hon. GEORGE UNDERWOOD, of Auburn.

A Morse Telegraphic Apparatus also has been presented by Mr. S. W. CHUBBUCK, of Utica, and an Aneroid Barometer, by the late SIMEON BENJAMIN, Esq., of Elmira.

In order to observe the total eclipse of the sun, August 7, 1869, Mr. EDWIN C. LITCHFIELD presented a fine portable telescope, so that an expedition could be organized, and proceed from this Observatory to Des Moines, Iowa. The cost of the expedition was likewise defrayed by the liberality of Mr. Litchfield. The telescope, the make of Messrs. STEINHEIL SONS, of Munich, has 4 (French) inches aperture, 5 feet focal length, and is mounted parallactically on a solid iron tripod, with setting circles for right ascension and declination, and has also a tangent screw for following the daily motion of a star. It has two terrestrial and six astronomical eye-pieces, (varying in power from 40 to 360,) a ring and a scale micrometer, and a sliding wedge for moderating the light. There is, moreover, fitting to the eye tube a direct vision spectroscopic, with five prisms, for analyzing the light of the sun and its protuberances. The telescope, when established in a proper location, it is thought, will be particularly useful for the exercise of students, who may make astronomy a special study.

HAMILTON COLLEGE.

The following eight Asteroids were first discovered at the Litchfield Observatory:

FERONIA, No. 72, May 29, 1861.	EURYDICE, No. 75, September 22, 1862.
FRIGGA, No. 77, November 12, 1862.	IO, No. 85, September 19, 1865.
THISBE, No. 88, June 15, 1866.	UNDINE, No. 92, July 7, 1867.
IANTHE, No. 98, April 18, 1868.	MIRIAM, No. 102, August 22, 1868.
———, No. 109, October 9, 1869.	

The Cabinets.

Geological and Mineralogical Cabinets, and Collections in Natural History, are also connected with the College, embracing the following, viz.:

1. 9,000 Specimens of Ores and Simple Minerals.
2. 2,500 Specimens of Fossils and Rocks to illustrate the Geology of New York.
3. 1,000 Specimens to Illustrate the Geology of the United States.
4. 600 Specimens of Fossils, mostly from the Silurian Formations of Europe.
5. 500 Specimens from the Coal Formations of the United States.
6. 250 Specimens from the New Red Sandstone Formation.
7. 600 Specimens of Crystallized Minerals from New York localities.
8. 2,000 Specimens of Land, Fresh Water, and Marine Shells.
9. 300 Specimens in Ornithology, from China.
10. 13 Cases of Specimens in Entomology.

The Libraries.

The College and Society Libraries, amounting to 12,000 volumes, are at all times accessible to students.

A few gentlemen in the city of New York have presented to the College the private library of the late EDWARD ROBINSON, D. D., LL. D., of Union Theological Seminary. It consists of 1,420 volumes, and about 100 valuable maps, and furnishes complete apparatus for the study of Biblical Exegesis and Scriptural Geography.

Hon. WILLIAM CURTIS NOYES, LL. D., a native of Oneida county, and an honorary alumnus of the College, after a life of eminent service, professional and political, bequeathed to Hamilton College his Law Library. The Collection numbers about five thousand volumes. The books have been collected during a practice of over twenty-five years, at a cost of not less than sixty thousand dollars. "The Collection consists of all the American Reports, with scarcely an exception, down to the present time; of all the English Reports in the Courts of Law and Chancery, and in the Exchequer, down to the beginning of the year 1860; and all the Scotch decisions, in the Justiciary, Senior Courts, and House of Lords; and the Irish Reports in Law and Equity.

In Elementary Law, it contains all the principal treatises in England and America, among which is the 'Law Library,' in all the series, in upwards of ninety volumes.

It contains a complete set, in upward of seventy volumes, of the printed statutes of the Colony and State of New York, including the session laws from the earliest period, commencing with a copy of Bradford's, printed in London, in 1719, which formerly belonged to Lord De la Warr, and seems to have come from the plantation office in the colony.

There is hardly any law book which a lawyer in large practice may have occasion to consult, that may not be found in this collection."

The NOYES LIBRARY is at all times accessible to Members of the Bar.

Valuable gifts of books have been made to the College, during the past year, by Hon. A. H. BAILEY, M. C., of Rome; Hon. O. B. MATTESON, of Utica; Dr. THOMAS HASTINGS, Sr., of New York; Rev. A. D. GRIDLEY, of Clinton; Rev. Dr. M. H. HENDERSON, of Athens, Ga; Rev. Dr. L. M. MILLER, of Ogdensburgh; Rev. Dr. R. ANDERSON, of Boston, Mass.; Major O. M. WILSON, of Indianapolis, Ia.

Mr. Wm. R. JEROME, of New York, of the Class of 1868, has kindly sent to the Library, for the use of the Students, four of the prominent weekly journals of that city.

Special acknowledgments are due to Rev. ROBERT G. CRAIGHEAD, of the New York *Evangelist*, for the donation of a full set of Silliman's Journal, with other useful works.

A new building for the Library is nearly completed. In honor of the principal contributor to the fund for its erection, Hon. PERRY H. SMITH, of Chicago, of the Class of 1846, the building is named the "*Perry H. Smith Library Hall*." The alumni of the College in Illinois, Wisconsin and Iowa, have also been filial and generous in their gifts.

The building is two stories high above the basement: 75 feet long and 50 broad. The first floor above the basement is divided into the vestibule and hall, two rooms for the librarian, and the library proper. The alcoves in the library room are arranged in three tiers, one above another, and with the adjacent walls and the librarian's rooms will furnish a place for 60,800 volumes. The library is lighted by windows in the side walls and by skylights.

Over the entrance hall and librarian's rooms, there is an apartment for a Memorial Hall and Art Gallery, to contain tablets and portraits of the alumni and other students of the College who have served their country; also portraits and other memorials of the founders of the College, its officers and benefactors. Architect, EDWARD D. HARRIS, of the firm of RIDER & HARRIS, Boston.

Sartwell Herbarium.

Through the liberality of the late HAMILTON WHITE, Esq., of Syracuse, the College Collections in Natural History have been enriched by the HERBARIUM collected by the late Dr. H. P. SARTWELL, of Penn Yan, and well known in scientific circles as a very extensive and valuable exhibition of our North American Flora. This HERBARIUM is the result of fifty years of botanical study, research and correspondence. It contains eight thousand samples of plants, skillfully cured, accurately labelled, and conveniently classified in sixty-two handsome volumes. Among the more unique or useful specimens are 451 Mosses, 226 Lichens, 341 Sea-Weeds, 600 Fungi, 575 Ferns, 314 Grasses, 200 *Ericaceæ*.

The College Grounds.

The Park, in the midst of which the College edifices stand, embraces fifteen acres. This has been laid out in the modern English method, with trees and shrubs scattered over it, singly and in groups, and with carriage-ways and foot-paths winding through its different parts, given the visitor a view of the entire surface. The trees, deciduous and evergreen, have been arranged chiefly with a view to their landscape effects, though a classification in families has not been wholly lost sight of. A Pinetum has been begun, in which a large number of the conifers, hardly in this climate, may already be found. Among the Elms, Maples, Lindens, Oaks, &c., we have five or six varieties of each.

In those portions of the ground daily traversed by the students, plots have been laid off and devoted to shrubs, vines, and flowering plants, some of which are cultivated by the undergraduates.

It is the design of the Trustees and the Faculty to render the Park increasingly attractive from year to year. New trees and plants will be added to the present collection as fast as they can be obtained. And for the more speedy accomplishment of this end, contributions are invited from the friends of the Institution. The Curators of the College Grounds are JOHN C. HASTINGS, Esq., Prof. OREN ROOT, and Rev. A. D. GRIDLEY. Communications on this subject may be addressed to either of these gentlemen.

Religious Instruction.

Morning Prayers, with reading of the Scriptures, are attended daily in the College Chapel. Public services are attended in the Chapel on the Sabbath, when all the students are required to be present, except such as have permission to attend at other places of worship. On Sabbath and Tuesday evenings there are religious services which all the students are invited to attend. A Church has been organized on such principles as to embrace members from various Evangelical Denominations. For the promotion of the spiritual good and highest usefulness, it is desirable that all professors of religion coming to the Institution should bring letters and connect themselves with the College Church.

A systematic course of Biblical Instruction is arranged for the several classes, a statement of which may be found in the General View of the studies of the year.

The Society of Christian Research holds its meetings monthly, when reports are read on the condition of Christian Missions in various parts of the world, and questions of religious interest are discussed.

Examinations.

1. Of all the Classes at the close of the First Term.
2. Of all the Classes at the close of the Second Term.
3. Of the Senior Class four weeks previous to Commencement.

4. Of the three other Classes the week previous to Commencement.
5. Of Curran Prize Competitors, the twelfth Saturday of the Second Term.
6. Of Underwood Prize Competitors, the seventh Monday of the Third Term.
7. Of Tompkins Prize Competitors, the eleventh Saturday of the Third Term.

Prizes.

1. The interest of a Prize Fund of \$700, founded by CHARLES C. KINGSLEY, Esq., of Utica, will be awarded in the form of valuable books to the two students in each of the three lower classes who excel in Elocution: valuable books will also be given to the two in each class who excel in *English Composition*.

2. The interest of a Prize Fund of \$500, founded by the late Hon. AARON CLARK, of New York, will be given, in one Prize, to the student of the Senior Class who excels in *Oratory*.

3. The interest of a Prize Fund of \$500, founded by Hon. J. V. L. PRUYN, LL. D., of Albany, Chancellor of the University of the State of New York, will be given in a Gold Medal, to any student of the Senior Class, except the successful competitor for the Head Prize, who shall write the best Oration on "The Utility of Classical Study to Public Men."

4. The interest of a Prize Fund of \$500, founded by Hon. FRANKLIN H. HEAD, of Salt Lake City, Utah Ter., will be given to any student of the Senior Class, except the successful competitor for the Pruyne Medal, who shall write the best Oration on "Our Political Indebtedness to Alexander Hamilton."

5. The interest of a Prize Fund of \$500, founded by the late Hon. GEORGE UNDERWOOD, of Auburn, will be given, in two Prizes, to members of the Senior Class, who excel in *Chemistry*.

6. The interest of a Prize Fund of \$500, founded by relatives of the late Col. HENRY H. CURRAN, of Utica, will be given, in two Prizes, to members of the Junior Class who excel in *Classical Studies*.

9. The interest of a Prize Fund of \$1,500, founded by CHARLES C. KINGSLEY, Esq., of Utica, will be given, in two Prizes, to members of the Senior Class who excel in *Extemporaneous Speaking*.

10. The interest of a Prize Fund of \$500, bequeathed by the late Mrs. ABIGAIL R. KIRKLAND, of Clinton, will be awarded for excellence in *Biblical Scholarship*.

HAMILTON COLLEGE.

Public Exhibitions.

1. Junior Exhibition, at the close of the Second Term.
2. Clark Prize Exhibition, on the Second Wednesday evening in June.
3. Kingsley Prize Debate, on the Monday afternoon preceding Commencement.
4. Kingsley Prize Declamation, on the Monday evening preceding Commencement.
5. Commencement, on the Thursday after the third Wednesday in July.

Terms.

1. From the second Wednesday in September, thirteen weeks.
2. From the first Wednesday in January, thirteen weeks.
3. From the fourth Wednesday in April to Commencement.

Expenses.

Board, from \$3.00 to \$5.00 per week,.....	\$114 00	to	\$190 00
Fuel and Lights,.....	5 00	"	10 00
Rent for rooms unfurnished, \$3 per term,.....	9 00	"	9 00
For sweeping and other contingencies, \$7 per term,...	21 00	"	21 00
Tuition, \$20 per term,.....	60 00	"	60 00
Amount,.....	\$209 00		\$271 00

In addition to the preceding, any damages voluntarily committed in the community of students, are charged to the individuals or classes committing them, when known; to the whole body of students when not known, under the name of Extra Contingent Expenses.

The preceding estimate of expenses is, of course, considerably diminished in the case of those students who take advantage of the resolution of the Board of Trustees, which provides for a remission of their bills for tuition.

A student admitted to an advanced standing, unless from another College, is charged with a matriculation fee, to the Sophomore Class, \$7; to the Junior, \$10; to the Senior, \$12.

Payment of Bills.

It is provided by a resolution of the Board of Trustees:

1. THAT ALL STUDENTS ARE REQUIRED TO PAY THEIR TERM BILLS IN ADVANCE, and that no student will be admitted to the recitation room after the first week of the term unless his bills have been paid or arranged to the satisfaction of the Treasurer.

2. That no student can have an honorable dismissal from the College, or certificate of his previous attendance in it, until all his bills are paid, or satisfactorily secured.

HAMILTON COLLEGE.

3. That in extreme cases, a student whose circumstances render it necessary, and who shall present satisfactory testimonials of the fact to the Executive Committee, if he is a worthy member of College, and his undergraduate course is completed in this Institution, can have his bills for tuition remitted.

Matriculation.

Students are not considered regular members of College, until a residence of at least three months has furnished evidence of a good moral character.

At the close of the first term after admission, if their conduct has been satisfactory, new students are allowed to enter their names in the Matriculation Book. The Laws of College provide for the withdrawal of any, who within a specified time fail to prove themselves worthy of matriculation.

Second Degrees.

Graduates of three years' standing are entitled to the degree of Master of Arts, on application to the President. The fee for the Degree and Diploma is \$5, payable in advance.

Absence from College.

The portion of the year allotted to vacations is so great as to render it quite unnecessary for students to visit their friends during the term, except for urgent and unforeseen reasons. The occasional loss of a day cannot fail to have an unfavorable bearing on the intellectual habits and standing of the student. It is hoped that parents and guardians will concur with the Faculty in their opinion of the inexpediency of granting leave of absence in ordinary cases. During vacations, the College buildings are closed; and it is not thought desirable that students from abroad should remain in Clinton.

Every omitted recitation must be recited within two weeks after the student's return to College duties; and no deduction for absence will be made in the Term bills, where the student returns to the same class which he left.

Members of the Senior Class cannot be graduated, unless they have been in attendance during two terms of the Senior year. No student is permitted to take part in the exercises of Commencement day, who has not spent the Third Term of his Senior year in College, and made his preparation, also, in College.

Teaching.

Students whose circumstances make it necessary for them to take schools during the winter season, are permitted to be absent from their classes for that purpose. Any student who has the requisite gifts, may support himself by teaching during the winter months. In 1869 forty-two calls for teachers were supplied from the classes of that year.

HAMILTON COLLEGE.

The Faculty keep a Register of Graduates and Undergraduates wishing engagements to teach, and will aim to nominate suitable candidates in reply to applications for teachers. Applicants for teachers should state definitely what service will be required, and what compensation will be paid.

Beneficiaries.

The interest of the Baldwin Fund of \$10,000, presented in November, 1867, by JOHN C. BALDWIN, Esq., of Orange, N. J., will be annually distributed to needy students of Christian character and good scholarship.

Students who are candidates for the Christian Ministry, may receive aid, if their circumstances require it, to the amount of from one hundred to one hundred and thirty dollars a year, by placing themselves under the care of either Branch of the Presbyterian Church, or under that of the American Education Society.

For aid rendered to candidates for the Christian Ministry, special acknowledgments are due to CHRISTOPHER R. ROBERT, Esq., of New York city; Hon. SAMUEL CAMPBELL, of New York Mills; SAMUEL P. FARRINGTON, Esq., of Chicago, Ill.; Hon. TRUMAN P. HANDY, of Cleveland, O.; ALBERT PORTER, Esq., of Niagara Falls, N. Y., and WILLIAM E. DODGE, Jr., Esq., of New York city.

Scholarships.

Sixteen Permanent Scholarships, of \$1,000 each, have been recently established, and will be hereafter occupied by deserving students.

LAW DEPARTMENT.

REV. SAMUEL GILMAN BROWN, D. D., LL. D., PRESIDENT.

ELLCOTT EVANS, LL. D.,

MAYNARD PROFESSOR OF LAW, HISTORY, CIVIL POLITY AND POLITICAL ECONOMY.

The course of Instruction in Law includes the thorough and careful study of the most approved text-books. Among these are Blackstone's and Kent's Commentaries, Parsons on Contracts, Washburn's Law of Real Estate, Greenleaf on Evidence, Vol. 1st, and the Code of Procedure.

The great object aimed at is to store the mind of the student with the fundamental principles of the Law. This is to be accomplished in such a way that he can give, at any time, a full and accurate expression of legal rules. The text-books are to be so mastered that any question may be answered readily and with exactness. Reviews of previous exercises are often repeated, until the student becomes as familiar with the rudiments of Law as with the rudiments of a language. At each exercise every student is examined on the subject studied, and expected to give the results of the text in his own words.

The Professor connects oral and familiar lectures with each recitation, putting cases to the class, involving the principles of the text, and requiring a solution, and endeavoring in every manner which may suggest itself, to quicken and interest the student by exciting his own mind to continual action. Instead of the fitful and intermittent studies of the law office, pursued often in confusion and amidst other circumstances tending to distract the mind, the student studies law as he does any other science, with a systematic purpose and plan. Experience has proved by its unfailing tests, that on such a basis, underlying the superstructure of a careful practice, sound and accurate lawyers will be formed.

Any person of good moral character, who complies with the rules of the department, may join the class. The prescribed course of study for College graduates is one year; for those not graduated, one year and one-third. After having passed the regular course of study, and the examination prescribed by the rules of the College, the student is entitled to the degree of Bachelor of Laws. No other examination is necessary for admission to the Bar. By the Laws of 1855, chap. 310, every graduate of the Law School is entitled to a certificate to practice as an Attorney and Counsellor of the Supreme Court. The terms of tuition are \$20 per term, or \$60 per year, with a graduation fee of \$5.

Students who do not wish to graduate, can remain any number of terms which they may choose, or study any one of the subjects embraced in the course. The order of studies in the principal subjects is: the Law of Contracts in the fall term; of Real Estate in the winter term; of Real Estate completed, Evidence, etc., in the spring term.

The text-books are furnished by the Institution, and loaned to the student without charge, with the exception of Blackstone and Kent.

- "The Education of St. Paul."
"The Parting of Hector and Andromache."
-

Regulations for Prize Composition.

1. Any Student of the three lower Classes, in actual attendance during the Second Term, has the privilege of writing upon either, or both, of the subjects assigned to the Class of which he is a member; but no one can receive two prizes in a single year.
2. Each Essay must contain not more than thirty-five folios, and must be so written that the MS. will show broad margins, and be suitable for binding: it must be signed with a fictitious name, and this fictitious name superscribed on a sealed note containing the writer's real name.
3. The Essays must be left with the President before 12 o'clock on the last Wednesday in the Second Term.
4. The Faculty will appoint a Committee of Literary Gentlemen to select the best Essay on each of the subjects assigned to the several Classes.
5. The two successful Essayists, from each Class, will be announced at the close of the Third Term; and books of value will be given as prizes on Commencement day.
6. A copy of each successful Essay will be kept in the College Library.

SUBJECTS FOR THE SIXTEENTH
Clark Prize Exhibition.

WEDNESDAY, JUNE 8, 1870.

1. "The Character and Causes of the Influence of New England in the United States."
 2. "The Heroism of the Naturalist."
 3. "The Effect of a Belief in an Endless Life upon Education."
 4. "Chinese and American Civilization."
 5. "The Greatness and Littleness of Eminent Men."
 6. "The Conservative Influence of the Legal Profession."
-

Regulations for the Clark Prize.

1. Any member of the Senior Class, in actual attendance during the Second Term, may write upon either one of the subjects assigned.
2. Each Oration must contain not more than twenty folios: it must be signed with a fictitious name, and this name superscribed on a sealed note containing the author's real name.
3. The Orations must be left with the President before 12 o'clock on Wednesday, April 6th, 1870.
4. The best six Orations will be selected by the Faculty, and the names of the successful competitors will be announced on the second Thursday in May.
5. The Orations will be delivered under the direction of the Kingsley Professor of Rhetoric, on the evening of the second Wednesday in June.
6. The Prize will be awarded on Commencement day.
7. A copy of each of the Orations will be kept in the College Library.

Subject for the Eighth Pruyn Medal Oration.

"THE UTILITY OF CLASSICAL STUDY TO THE PUBLIC MAN."

Subject for the Seventh Head Prize Oration.

"OUR POLITICAL INDEBTEDNESS TO ALEXANDER HAMILTON."

REGULATIONS.

- 1 Any member of the Senior Class, in actual attendance during the First Term, may write upon the subjects assigned.
2. Each Oration must contain not more than fifteen folios: it must be signed with a fictitious name, and this name superscribed upon a sealed note containing the author's real name.
3. The Orations must be left with the President before 12 o'clock on Friday, January 7, 1870.
4. The best Oration on each subject will be selected by the Faculty, and the names of the successful competitors announced on Friday, January 28th.
5. The Orations will be delivered and the Medal and Prize awarded on Commencement day.
6. Copies of the Orations will be kept in the College Library.

REGULATIONS

For the Fifteenth Curran Prize Examination,

SATURDAY, MARCH 26, 1870.

1. Members of the Junior Class intending to compete at the Curran Prize Examination, must make known this intention to the Professor of Greek, on or before the last Saturday in January.

2. The examination will be held in the Noyes Library, commencing at eight o'clock, and closing at one o'clock.

3. Each Competitor is required to bring with him pens and ink, and a quire of "legal cap" paper.

4. Competitors are not allowed to bring with them any written or printed matter, any engravings or models for drawings, or to hold any communication with each other. A violation of this rule will vitiate the work of the one so doing.

5. Only one face of each half sheet is to be written upon, the other being left blank. There should also be an inch of margin on the left edge of each sheet.

6. The pages should be numbered at the top, with the student's name repeated beneath each number.

7. The several portions of the work should likewise be numbered according to the numbers of the printed questions.

8. At half-past twelve, notice will be given that Competitors may review, correct, and finish their work. At one o'clock the papers are to be given up.

9. In estimating the merit of the student's work, two points will be especially considered:—

(1.) Exactness in rendering; fullness and accuracy of information on the subjects proposed.

(2.) Neatness, elegance, and logical arrangement in the exhibition and utterance of knowledge.

10. The kind of work to be done will be as follows, viz:—

(1.) Translation from and into Greek, Latin and French.

(2.) Analysis of words, including derivation, synonymes, inflection and dialectic changes.

(3.) Analysis of sentences, with rules of construction, illustrative maps and drawings, and the answering of questions in history, geography and mythology.

(4.) Analysis of metres, including quantity, rhythms, and nomenclature.

(5.) Rules and practice of Greek accentuation.

(6.) Criticism on the style, spirit, and subject-matter of the authors quoted from.

REGULATIONS FOR THE FOURTH
Tompkins Mathematical Prize Examination,

SATURDAY, JULY 9, 1870.

1. Members of the Sophomore Class intending to compete at the Tompkins Mathematical Prize Examination, must make known their intention to the Professor of Mathematics, on or before the second Saturday of the Third Term.
 2. The examination will be held in the Lecture Room of the Cabinet, beginning at ten minutes past eight, and closing at thirty minutes past twelve.
 3. The work to be done will be the solution of ten problems, founded upon the mathematics of Sophomore year.
 4. Each Competitor must bring with him materials for writing, but no written or printed matter.
 5. Copies of the successful Prize Papers will be kept in the College Library.
-

REGULATIONS
For the Fourth Kingsley Prize Debate,

MONDAY, JULY 18, 1870.

1. The Fourth Kingsley Prize Debate will be held on Monday afternoon, July 18th, 1870, under the direction of the Kingsley Professor of Rhetoric.
2. From the members of the Senior Class who have gained the highest average standing in Extemporaneous Speaking, during their Junior and Senior years, four Prize Debaters will be appointed by the Faculty. Their names, with the question for debate, will be announced at the last session of the final Senior Examination. At the same time, the position of the Debaters on the affirmative or negative, will be determined by lot.
3. At the Debate, the order in which the Competitors on the affirmative and those on the negative are to be called, will each be determined by lot, publicly drawn at the time. Each Competitor will be called twice; and will be allowed to speak fifteen minutes on the first call, and ten minutes on the second call.
4. A first prize of \$70.00, and a second prize of \$30.00, will be awarded by a committee of three gentlemen, not members of the Faculty; and the award will be announced at the close of the Kingsley Prize Declamation, Monday Evening, July 18th.

SOCIETY OF ALUMNI.

This Society is composed of graduates from the College, and those upon whom it has conferred honorary or *ad eundem* degrees. Among its objects is the encouragement of Science and Letters, more especially in their connection with Hamilton College. It has the use of an alcove in the College Library, to which donations are solicited of books, pamphlets and papers, whose authors are Alumni of Hamilton. It seeks also the promotion of friendly feeling and sympathy among its living members, and the rendering of fit honor to the departed. Its annual meeting is held on the evening preceding Commencement. Persons who can supply information appropriate for the Triennial Catalogue or the Obituary Record, are requested to communicate the same to the Necrologist.

HAMILTON COLLEGE.

Admission.

It is required that the candidates for admission to the Freshman Class should not be less than fifteen years of age, with a corresponding increase for an advanced standing; that they furnish evidence of good moral character; and if from another College, a regular dismission; and that they sustain a satisfactory examination on the PREPARATORY STUDIES, or for an advanced class, on the several studies to which the class they propose to enter has attended. None can be admitted into the Senior Class after the winter vacation.

Preparatory Studies.

IN GREEK: Xenophon's *Anabasis*, two books; Homer's *Iliad*, one book; with the Greek Grammar, including prosody and the rules for pronunciation according to the Continental method.

IN LATIN: Cæsar's *Commentaries*, four books; Virgil's *Æneid*, six books with prosody; Cicero's *Select Orations*; Sallust's *Cataline*; and either Sallust's *Jugurthine War*, or the *Eclogues* of Virgil; with the Latin Grammar and Arnold's *Latin Prose Composition*, twelve chapters.

IN MATHEMATICS: Arithmetic, Algebra to Equations of the second degree; Plane Geometry.

Candidates will also be examined in English Grammar, Ancient and Modern Geography, History of the United States, and in Greek and Roman Antiquities. A Regents' Certificate of Academic Scholarship will be accepted in lieu of an examination in English Studies.

The ENTRANCE EXAMINATIONS are held at 9 o'clock, A. M., on Monday and Tuesday preceding Commencement, and on the last day of the ensuing vacation.

Candidates for admission to College should bring with them, to the Senior Class Room, pencils for writing, and a copy of each Greek and Latin Author in which they propose to be examined.

Course of Instruction.

The whole Course of Instruction occupies four years, and the Students, in all the classes, are usually required to attend three exercises on each day.

The object of the course is to form the mind to habits of accurate discrimination, close reasoning, and vigorous application; and, at the same time, furnish it with the leading facts and principles in Literature, Science, and the Arts.

Rhetorical Exercises.

Weekly exercises in Composition and Extemporaneous Debate take place in the several classes. Besides these, on Wednesday and Saturday of each week, all the Students are required to attend public exhibitions in the Chapel, of Declamation, and of Original Essays, Disputes and Orations, under the direction and criticism of the Kingsley Professor of Rhetoric.

Chemistry.

Through the munificence of the late MR. SILAS D. CHILDS, of Utica, the Chemical Laboratory has recently undergone extensive alterations, and is supplied with new and valuable apparatus.

The Senior Class, besides receiving instruction both by lectures and recitations in general Chemistry, will in accordance with the will of MR. CHILDS, receive a thorough course of instruction in Chemistry as applied in Agriculture.

During a portion of the year, instruction in qualitative chemical analysis, will be given at stated hours to those members of the Senior Class who may choose to pursue this study.

Apparatus and chemicals will be furnished to the students at wholesale prices.

The facilities of the Laboratory will be such, that those who may desire to continue the study of Chemistry, after their graduation, will have an opportunity.

Astronomy.

As a means of giving more complete instruction in this Department, and also for the purpose of original observation, an Astronomical Observatory has been erected on the College grounds. The Astronomical Department and the Observatory have been very liberally endowed by the Hon. EDWIN C. LITCHFIELD, LL. D., of Brooklyn.

HAMILTON COLLEGE.

The Observatory consists of a central building, with wings on the east and west side. The central building is twenty-seven feet square, and two stories high, surmounted by a revolving tower, twenty feet in diameter.

The great Equatorial in the tower, constructed by Spencer & Eaton, has an object-glass of 13.5 inches in diameter, and focal length of nearly sixteen feet; it is provided with six positive and six negative eye-pieces, with a ring and a filar micrometer. For solar observations it has a prismatic polarizing eye-piece of original construction by Robert B. Tolles. The declination circle of twenty-four inches, by means of four verniers, reads to four seconds of arc: the hour circle, of fourteen inches, by means of two verniers, reads to two seconds of time. The instrument is mounted upon a granite shaft, nine feet in height, resting upon a pier of solid masonry. A clock work with *Bond's* isodynamic escapement and spring governor, causes the telescope to follow the daily motion of the stars by acting upon long arms attached to the equatorial axis.

The wings are each eighteen feet square: the east room is used as an office for the Director. In the west room is mounted a portable Transit Instrument, of 2½ inches aperture, the gift of Hon. ANSON S. MILLER, LL. D., of Rockford, Ill., and constructed by W. Wurdemann, of Washington, D. C. It has a cast-iron folding stand, invented by the maker.

Near the Transit is an Astronomical Clock, constructed by William Bond & Son, Boston, and presented by the late Hon. WM. CURTIS NOYES, of New York. It is regulated for mean time, and provided with the break-circuit for telegraphic operations. By the side of the Clock is a Chronograph of Bond's most recent construction, and regulated by the spring governor, presented by MICHAEL MOORE, Esq., of Trenton Falls. These instruments have been connected by a telegraphic wire with the nearest station; and the longitude of the Observatory has thus been accurately determined by exchanging star signals with the Harvard College Observatory, at Cambridge, Mass.

In its turn, the Litchfield Observatory already has become the basis of several longitudes in the State, determined under the auspices of the Regents of the University, at Buffalo, Syracuse, Elmira, Ogdensburgh, and of the longitude of the Detroit Observatory at Ann Arbor, Mich., which latter forms the fundamental point for the longitudes of the Lake Survey. The latest work of this kind has been to determine the longitude of the western boundary of the State of New York.

Besides, the Observatory possesses a Siderial Chronometer, constructed by the same makers, with the Hartnup's improved compensation balance: this instrument was the gift of the late Hon. GEORGE UNDERWOOD, of Auburn.

A Morse Telegraphic Apparatus also has been presented by Mr. S. W. CHUBBUCK, of Utica, and an Aneroid Barometer, by the late SIMEON BENJAMIN, Esq., of Elmira.

In order to observe the total eclipse of the sun, August 7, 1869, Mr. EDWIN C. LITCHFIELD presented a fine portable telescope, so that an expedition could be organized, and proceed from this Observatory to Des Moines, Iowa. The cost of the expedition was likewise defrayed by the liberality of Mr. Litchfield. The telescope, the make of MESSRS. STEINHEIL SONS, of Munich, has 4 (French)

HAMILTON COLLEGE.

inches aperture, 5 feet focal length, and is mounted parallaxically on a solid iron tripod, with setting circles for right ascension and declination, and has also a tangent screw for following the daily motion of a star. It has two terrestrial and six astronomical eye-pieces, (varying in power from 40 to 360,) a ring and a scale micrometer, and a sliding wedge for moderating the light. There is, moreover, fitting to the eye tube a direct vision spectroscope, with five prisms, for analyzing the light of the sun and its protuberances. The telescope, when established in a proper location, it is thought, will be particularly useful for the exercise of students, who may make astronomy a special study.

The following eleven Asteroids were first discovered at the Litchfield Observatory:

FERONIA, No. 72, May 29, 1861,
EURYDICE, No. 75, September 22, 1862,
FRIGGA, No. 77, November 12, 1862,
Io, No. 85, September 19, 1865,
THISBE, No. 88, June 15, 1866,
UNDINE, No 92, July 7, 1867,
IANTHE, No. 98, April 18, 1868,
MIRIAM, No. 102, August 22, 1868,
FELICITAS, No. 109, October 9, 1869,
ATE, No. 111, August 15, 1870,
IPHIGENIA, No. 112, September 19, 1870.

The Cabinets.

Geological and Mineralogical Cabinets, and Collections in Natural History, are also connected with the College, embracing the following, viz.:

1. 9,000 Specimens of Ores and Simple Minerals.
2. 2,500 Specimens of Fossils and Rocks to illustrate the Geology of New York.
3. 1,000 Specimens to illustrate the Geology of the United States.
4. 600 Specimens of Fossils, mostly from the Silurian Formations of Europe.
5. 500 Specimens from the Coal Formations of the United States.
6. 250 Specimens from the New Red Sandstone formation.
7. 600 Specimens of Crystalized Minerals from New York localities.
8. 2,000 Specimens of Land, Fresh Water, and Marine Shells.
9. 300 Specimens in Ornithology, from China.
10. 13 Cases of Specimens in Entomology.

Sartwell Herbarium.

Through the liberality of the late HAMILTON WHITE, Esq., of Syracuse, the College Collections in Natural History have been enriched by the HERBARIUM collected by the late Dr. H. P. SARTWELL, of Penn Yan, and well known in scientific circles as a very extensive and valuable exhibition of our North American Flora. This HERBARIUM is the result of fifty years of botanical study, research and correspondence. It contains eight thousand samples of

HAMILTON COLLEGE.

plants, skillfully cured, accurately labelled, and conveniently classified in sixty-two handsome volumes. Among the more unique or useful specimens are 451 *Mosses*, 226 *Lichens*, 341 *Sea-Weeds*, 600 *Fungi*, 575 *Ferns*, 314 *Grasses*, 200 *Ericaceæ*.

The College Grounds.

The Park, in the midst of which the College edifices stand, embraces fifteen acres. This has been laid out in the Modern English method, with trees and shrubs scattered over it, singly and in groups, and with carriage-ways and foot-paths winding through its different parts, giving the visitor a view of the entire surface. The trees, deciduous and evergreen, have been arranged chiefly with a view to their landscape effects, though a classification in families has not been wholly lost sight of. A Pinetum has been begun, in which a large number of the conifers, hardy in this climate, may already be found. Among the Elms, Maples, Lindens, Oaks, &c., we have five or six varieties of each.

In those portions of the ground daily traversed by the students, plots have been laid off and devoted to shrubs, vines, and flowering plants, some of which are cultivated by the undergraduates.

It is the design of the Trustees and the Faculty to render the Park increasingly attractive from year to year. New trees and plants will be added to the present collection as fast as they can be obtained. And for the more speedy accomplishment of this end, contributions are invited from the friends of the Institution. The Curators of the College Grounds are JOHN C. HASTINGS, Esq., Prof. OREN ROOT, and Rev. A. D. GRIDLEY. Communications on this subject may be addressed to either of these gentlemen.

Religious Instruction.

Morning Prayers, with reading of the Scriptures are attended daily in the College Chapel. Public services are attended in the Chapel on the Sabbath, when all the students are required to be present, except such as have permission to attend at other places of worship. On Sabbath and Tuesday evenings there are religious services which all the students are invited to attend. A Church has been organized on such principles as to embrace members from various Evangelical Denominations. For the promotion of their spiritual good and highest usefulness, it is desirable that all professors of religion coming to the Institution should bring letters and connect themselves with the College Church.

A systematic course of Biblical Instruction is arranged for the several classes, a statement of which may be found in the General View of the studies of the year.

The Society of Christian Research holds its meetings monthly, when reports are read on the condition of Christian Missions in various parts of the world, and questions of religious interest are discussed.

Prizes.

1. The interest of a Prize Fund of \$1,500, founded by CHARLES C. KINGSLEY, Esq., of Utica, will be given, in two Prizes, to members of the Senior Class who excel in *Extemporaneous Speaking*.

2. The interest of a Prize Fund of \$500; founded by the late Hon. AARON CLARK, of New York, will be given, in one Prize, to the student of the Senior Class who excels in *Oratory*.

3. The interest of a Prize Fund of \$500, founded by Hon. J. V. L. PRUYN, LL. D., of Albany, Chancellor of the University of the State of New York, will be given in a Gold Medal, to any student of the Senior Class, except the successful competitor for the Head Prize, who shall write the best Oration on "The Utility of Classical Study to Public Men."

4. The interest of a Prize Fund of \$500, founded by Hon. FRANKLIN H. HEAD, of Salt Lake City, Utah Ter., will be given to any student of the Senior Class, except the successful competitor for the Pruyn Medal, who shall write the best Oration on "Our Political Indebtedness to Alexander Hamilton."

5. The interest of a Prize Fund of \$500, founded by the late Hon. GEORGE UNDERWOOD, of Auburn, will be given, in two Prizes, to members of the Senior Class who excel in *Chemistry*.

6. The interest of a Prize Fund of \$700, founded by CHARLES C. KINGSLEY, Esq., of Utica, will be awarded in the form of valuable books to the two students in each of the three lower classes who excel in Elocution: valuable books will also be given to the two in each class who excel in *English Composition*.

7. The interest of a Prize Fund of \$500, founded by relatives of the late Col. HENRY H. CURRAN, of Utica, will be given, in two Prizes, to members of the Junior Class who excel in *Classical Studies*.

8. The interest of a Prize Fund of \$500, founded by MARTIN HAWLEY, Esq., of Baltimore, Md., will be given, in Silver Medals, to members of the Junior Class who excel in *Classical Studies*.

9. The interest of a Prize Fund of \$500, founded by TERTIUS D. SOUTHWORTH, of Bridgewater, will be given, in two Prizes, to members of the Junior Class who excel in *Natural Philosophy*.

10. The interest of a Prize Fund of \$500, founded by HAMILTON B. TOMPKINS, Esq., of Newport, R. I., will be given, in two Prizes, to members of the Sophomore Class who excel in *Mathematics*.

11. The interest of a Prize Fund of \$500, bequeathed by the late Mrs. ABIGAIL R. KIRKLAND, of Clinton, will be awarded for excellence in *Biblical Scholarship*.

The Libraries.

The College and Society Libraries, amounting to 12,000 volumes, are at all times accessible to students.

A few gentlemen in the city of New York have presented to the College the private library of the late EDWARD ROBINSON, D. D., LL.D., of Union Theological Seminary. It consists of 1,420 volumes, and about 100 valuable maps; and furnishes rare facilities for the study of Biblical Exegesis and Scriptural Geography.

HON. WILLIAM CURTIS NOYES, LL. D., a native of Oneida county, and an honorary alumnus of the College, after a life of eminent service, professional and political, bequeathed to Hamilton College his Law Library. The collection numbers about five thousand volumes. The books had been collected during a practice of over twenty-five years, at a cost of not less than sixty thousand dollars. "The Collection consists of all the American Reports, with scarcely an exception, down to the present time; of all the English Reports in the Courts of Law and Chancery, and in the Exchequer, down to the beginning of the year 1860; and all the Scotch decisions, in the Judiciary, Senior Courts, and House of Lords; and the Irish Reports in Law and Equity.

In Elementary Law, it contains all the principal treatises in England and America, among which is the 'Law Library,' in all the series, in upwards of ninety volumes.

It contains a complete set, in upwards of seventy volumes, of the printed statutes of the Colony and State of New York, including the Session laws from the earliest period, commencing with a copy of Bradford's, printed in London, in 1719, which formerly belonged to Lord De la Warr, and seems to have come from the plantation office in the colony.

There is hardly any law book which a lawyer in large practice may have occasion to consult, that may not be found in this collection."

The NOYES LIBRARY is at all times accessible to Members of the Bar.

A new building for the Library is nearly completed. In honor of the principal contributor to the fund for its erection, HON. PERRY H. SMITH, of Chicago, of the Class of 1846, the building is named the "*Perry H. Smith Library Hall*." The alumni of the College in Illinois, Wisconsin and Iowa, have also been filial and generous in their gifts.

The building is two stories high above the basement: 75 feet long and 50 broad. The first floor above the basement is divided into the vestibule and hall, two rooms for the librarian, and the library proper. The alcoves in the library room are arranged in three tiers, one above another, and with the adjacent walls and the librarian's rooms will furnish a place for 60,000 volumes. The library is lighted by windows in the side walls and by skylights.

Over the entrance hall and Librarian's rooms, there is an apartment for a Memorial Hall and Art Gallery, to contain tablets and portraits of the alumni and students of the College who have served their country; also portraits and other memorials of the founders of the College, its officers and benefactors. Architect, EDWARD D. HARRIS, of the firm of RIDER & HARRIS, Boston.

Terms.

1. From the second Wednesday in September, thirteen weeks.
2. From the first Wednesday in January, thirteen weeks.
3. From the fourth Wednesday in April to Commencement.

Expenses.

Board, from \$3.00 to \$5.00 per week.....	\$114 00	to	\$190 00
Fuel and Lights,	10 00	"	15 00
Rent for Rooms unfurnished, from \$2 to \$6 per term,...	6 00	"	18 00

Tuition, \$20 per term,	60 00	"	60 00
Amount,	\$211 00		\$304 00

In addition to the preceding, any damages voluntarily committed in the community of students, are charged to the individuals or classes committing them, when known; to the whole body of students when not known, under the name of Extra Contingent Expenses.

The preceding estimate of expense is, of course, considerably diminished in the case of those students who take advantage of the resolution of the Board of Trustees, which provides for a remission of their bills for tuition.

A student admitted to an advanced standing, unless from another College, is charged with a matriculation fee: to the Sophomore Class, \$7; to the Junior, \$10; to the Senior, \$12.

Payment of Bills.

It is provided by a resolution of the Board of Trustees :

1. THAT ALL STUDENTS BE REQUIRED TO PAY THEIR TERM BILLS IN ADVANCE, and that no student be admitted to the recitation room after the first week of the term, unless his bills have been paid or arranged to the satisfaction of the Treasurer.

2. That no student have an honorable dismissal from the College or certificate of his previous attendance in it, until all his bills are paid or satisfactorily secured.

3. That in extreme cases, a student whose circumstances render it necessary, and who shall present satisfactory testimonials of the fact to the Executive Committee, if he is a worthy member of College, and his undergraduate course is completed in this Institution, can have his bills for tuition remitted.

Matriculation.

Students are not considered regular members of College, until a residence of at least three months has furnished evidence of a good moral character.

At the close of the first term after admission, if their conduct has been satisfactory, new students are allowed to enter their names in the Matriculation Book. The Laws of College provide for the withdrawal of any, who within a specified time, fail to prove themselves worthy of Matriculation.

Second Degrees.

Graduates of three years' standing, are entitled to the degree of Master of Arts, on application to the President. The fee for the Degree and Diploma is \$5, payable in advance.

Absence from College.

The portion of the year allotted to vacations is so great as to render it quite unnecessary for students to visit their friends during the term, except for urgent and unforeseen reasons. The occasional loss of a day cannot fail to have an unfavorable bearing on the intellectual habits and standing of the student. It is hoped that parents and guardians will concur with the Faculty in their opinion of the inexpediency of granting leave of absence in ordinary cases. During vacations, the College buildings are closed; and it is not thought desirable that students from abroad should remain in Clinton.

Every omitted recitation must be recited within two weeks after the student's return to College duties; and no deduction for absence will be made in the Term bills, where the student returns to the same class which he left.

Members of the Senior Class cannot be graduated, unless they have been in attendance during two terms of the Senior year. No student is permitted to take part in the exercises of Commencement day, who has not spent the Third Term of his Senior year in College, and made his preparation also in College.

Teaching.

Students whose circumstances make it necessary for them to take schools during the Winter season, are permitted to be absent from their classes for that purpose. Any student who has the requisite gifts, may support himself by teaching during the Winter months. In 1869 forty-two calls for teachers were supplied from the classes of that year.

The Faculty keep a Register of Graduates and Undergraduates wishing engagements to teach, and will aim to nominate suitable candidates in reply to applications for teachers. Applicants for teachers should state definitely what service will be required, and what compensation will be paid.

Beneficiaries.

The interest of the Baldwin Fund of \$12,000, presented in November, 1867, by JOHN C. BALDWIN, Esq., of Orange, N. J., will be annually distributed to needy students of Christian character and good scholarship.

Students who are candidates for the Christian Ministry, may receive aid, if their circumstances require it, to the amount of from one hundred to one hundred and thirty dollars a year, by placing themselves under the care of the Presbyterian Church, or under that of the American Education Society.

For aid rendered to candidates for the Christian Ministry, special acknowledgments are due to CHRISTOPHER R. ROBERT, Esq., of New York city; Hon.

HAMILTON COLLEGE.

SAMUEL CAMPBELL, of New York Mills ; Hon. TRUMAN P. HANDY, of Cleveland, O. ; ALBERT PORTER, Esq., of Niagara Falls, N. Y. ; and WILLIAM E. DODGE, Jr., Esq., of New York city.

Scholarships.

Sixteen Permanent Scholarships, of \$1,000 each, have been recently established, and will be hereafter occupied by deserving students.

Determination of Standing.

1. Each Instructor keeps a record of all College exercises in his department, according to a scale of merit ranging from *ten* to *zero*.
2. If a student who is present and prepared to recite, is not called at any exercise, he receives a credit equal to the average of his actual performances for that term.
3. For each exercise from which a student is absent and not excused, he is marked *zero*. If absent and excused, he may be permitted to recite within two weeks after his absence.
4. Lost exercises cannot be made good after the expiration of two weeks, without special permission from the Faculty.
5. In estimating the value of class exercises, promptness and regularity are regarded as a merit ; and all exercises performed out of their regular time are liable to a discount, if the circumstances seem to require it.

Law Department.

REV. SAMUEL GILMAN BROWN, D.D., LL.D., PRESIDENT.

ELLICOTT EVANS, LL. D.,

MAYNARD PROFESSOR OF LAW, HISTORY, CIVIL POLITY AND POLITICAL ECONOMY.

The course of Instruction in Law includes the thorough and careful study of the most approved text-books. Among these are Blackstone's and Kent's Commentaries, Parsons on Contracts, Washburn's Law of Real Estate, Greenleaf on Evidence, vol. 1st, and the Code of Procedure.

The great object aimed at is to store the mind of the student with the fundamental principles of the Law. This is to be accomplished in such a way that he can give, at any time, a full and accurate expression of legal rules. The text-books are to be so mastered that any question may be answered readily and with exactness. Reviews of previous exercises are often repeated, until the student becomes as familiar with the rudiments of Law as with the rudiments of a language. At each exercise every student is examined on the subject studied, and expected to give the results of the text in his own words.

The Professor connects oral and familiar lectures with each recitation, putting cases to the class, involving the principles of the text, and requiring a solution; and endeavoring in every manner which may suggest itself, to quicken and interest the student by exciting his own mind to continual action. Instead of the fitful and intermittent studies of the law office, pursued often in confusion and amidst other circumstances tending to distract the mind, the student studies law as he does any other science, with a systematic purpose and plan. Experience has proved by its unfailing tests, that on such a basis, underlying the superstructure of a careful practice, sound and accurate lawyers will be formed.

Any person of good moral character, who complies with the rules of the department, may join the class. The prescribed course of study for College graduates is one year; for those not graduated, one year and one-third. After having passed the regular course of study, and the examination prescribed by the rules of the College, the student is entitled to the degree of Bachelor of Laws. No other examination is necessary for admission to the Bar. By the Laws of 1855, chap. 310, every graduate of the Law School is entitled to a certificate to practice as an Attorney and Counsellor of the Supreme Court. The terms of tuition are \$20 per term, or \$60 per year, with a graduation fee of \$5.

Students who do not wish to graduate, can remain any number of terms which they may choose, or study any one of the subjects embraced in the course. The order of studies in the principal subjects is: the Law of Contracts, in the Fall term; of Real Estate, in the Winter term; of Real Estate completed, Evidence, etc., in the Spring term.

Text-books are furnished by the Institution, and loaned to the student without charge, with the exception of Blackstone and Kent.

-

Regulations for Prize Composition.

1. Any Student of the three lower Classes, in actual attendance during the Second Term, has the privilege of writing upon either or both of the subjects assigned to the Class of which he is a member; but no one can receive two prizes in a single year.
2. Each Essay must contain not more than thirty-five folios, and must be so written that the MS. will show broad margins, and be suitable for binding: it must be signed with a fictitious name, and this fictitious name superscribed on a sealed note containing the writer's real name.
3. The Essays must be left with the President, before 12 o'clock, on the last Wednesday in the Second Term.
4. The Faculty will appoint a Committee of Literary Gentlemen to select the best Essay on each of the subjects assigned to the several classes.
5. The two successful Essayists from each Class, will be announced at the close of the Third Term; and books of value will be given as prizes on Commencement day.
6. A copy of each successful Essay will be kept in the College Library.

SUBJECTS FOR THE SEVENTEENTH
Clark Prize Exhibition.

Subject for the Eighth Head Prize Oration.

“Alexander Hamilton Compared with his European Contemporaries.”

REGULATIONS.

1. Any member of the Senior Class, in actual attendance during the First Term, may write upon the subjects assigned.
2. Each Oration must contain not more than fifteen folios: it must be signed with a fictitious name, and this name superscribed upon a sealed note containing the author's real name.
3. The Orations must be left with the President before 12 o'clock on Friday, January 13, 1871.
4. The best Oration on each subject will be selected by the Faculty, and the names of the successful competitors announced on Friday, March 27th.
5. The Orations will be delivered and the Medal and Prize awarded on Commencement day.
6. Copies of the successful Orations will be kept in the College Library.

REGULATIONS

For the Sixteenth Curran Prize Examination,

SATURDAY, APRIL 1, 1871.

1. Members of the Junior Class intending to compete at the Curran Prize Examination, must make known this intention to the Professor of Greek, on or before the last Saturday in January.

2. The examination will be held in the Noyes Library, commencing at eight o'clock, and closing at one o'clock.

3. Each competitor is required to bring with him pens and ink, and a quire of "legal cap" paper.

4. Competitors are not allowed to bring with them any written or printed matter, any engravings or models for drawings, or to hold any communication with each other. A violation of this rule will vitiate the work of the one so doing.

5. Only one face of each half sheet is to be written upon, the other being left blank. There should also be an inch of margin on the left edge of each sheet.

6. The pages should be numbered at the top, with the student's name repeated beneath each number.

7. The several portions of the work should likewise be numbered according to the numbers of the printed questions.

8. At half-past twelve, notice will be given that Competitors may review, correct, and finish their work. At one o'clock the papers are to be given up.

9. In estimating the merit of the student's work, two points will be especially considered:—

(1.) Exactness in rendering; fullness and accuracy of information on the subjects proposed.

(2.) Neatness, elegance, and logical arrangement in the exhibition and utterance of knowledge.

10. The kind of work to be done will be as follows, viz:—

(1.) Translation from and into Greek, Latin and French.

(2.) Analysis of words, including derivation, synonymes, inflection and dialectic changes.

(3.) Analysis of sentences, with rules of construction, illustrative maps and drawings, and the answering of questions in history, geography and mythology.

(4.) Analysis of metres, including quantity, rhythms, and nomenclature.

(5.) Rules and practice of Greek accentuation.

(6.) Criticism on the style, spirit, and subject-matter of the authors quoted from.

REGULATIONS FOR THE FIFTH
Tompkins Mathematical Prize Examination,

SATURDAY, JULY 8, 1871.

1. Members of the Sophomore Class intending to compete at the Tompkins Mathematical Prize Examination, must make known their intention to the Professor of Mathematics, on or before the second Saturday of the Third Term.
 2. The examination will be held in the Lecture Room of the Cabinet, beginning at ten minutes past eight, and closing at thirty minutes past twelve.
 3. The work to be done will be the solution of ten problems, founded upon the mathematics of Sophomore year.
 4. Each competitor must bring with him materials for writing, but no written or printed matter.
 5. Copies of the successful Prize Papers will be kept in the College Library.
-

REGULATIONS
For the Fifth Kingsley Prize Debate,

MONDAY, JULY 17, 1871.

1. The Fourth Kingsley Prize Debate will be held on Monday afternoon, July 17, 1871, under the direction of the Kingsley Professor of Rhetoric.
2. From the members of the Senior Class who have gained the highest average standing in Extemporaneous Speaking, during their Junior and Senior years, four Prize Debaters will be appointed by the Faculty. Their names, with the question for debate, will be announced at the last session of the final Senior Examination. At the same time, the position of the Debaters on the affirmative or negative, will be determined by lot.
3. At the Debate, the order in which the Competitors on the affirmative and those on the negative are to be called, will each be determined by lot, publicly drawn at the time. Each competitor will be called twice; and will be allowed to speak fifteen minutes on the first call, and ten minutes on the second call.
4. A first prize of \$70,00, and a second prize of \$30,00, will be awarded by a committee of three gentlemen, not members of the Faculty; and the award will be announced at the close of the Kingsley Prize Declamation, Monday evening, July 17th.

HAMILTON COLLEGE.

SOCIETY OF ALUMNI.

This Society is composed of graduates from the College, and those upon whom it has conferred honorary or *ad eundem* degrees. Among its objects is the encouragement of Science and Letters, more especially in their connection with Hamilton College. It has the use of an alcove in the College Library, to which donations are solicited of books, pamphlets and papers, whose authors are Alumni of Hamilton. It seeks also the promotion of friendly feeling and sympathy among its living members, and the rendering of fit honor to the departed. Its annual meeting is held on the evening preceding Commencement. Persons who can supply information appropriate for the Triennial Catalogue or the Obituary Record, are requested to communicate the same to the Necrologist.

HAMILTON COLLEGE.

Admission.

It is required that the candidates for admission to the Freshman Class should not be less than fifteen years of age, with a corresponding increase for an advanced standing; that they furnish evidence of good moral character, and if from another College, a regular dismissal; and that they sustain a satisfactory examination on the PREPARATORY STUDIES, or for an advanced class, on the several studies to which the class they propose to enter has attended. None can be admitted into the Senior Class after the winter vacation.

Preparatory Studies.

IN GREEK: Xenophon's Anabasis, two books; Homer's Iliad, one book; with the Greek Grammar, including prosody and the rules for pronunciation according to the Continental method.

IN LATIN: Cæsar's Commentaries, four books; Virgil's Æneid, six books with prosody; Cicero's Select Orations; Sallust's Catiline; and either Sallust's Jugurthine War, or the Eclogues of Virgil; with the Latin Grammar and Arnold's Latin Prose Composition, twelve chapters.

IN MATHEMATICS: Arithmetic, Algebra to Equations of the second degree; Plane Geometry.

Candidates will also be examined in English Grammar, Ancient and Modern Geography, History of the United States, and in Greek and Roman Antiquities. A Regents' Certificate of Academic Scholarship will be accepted in lieu of an examination in English Studies.

The ENTRANCE EXAMINATIONS are held at 9 o'clock, A. M., on Monday and Tuesday preceding Commencement, and on the last day of the ensuing vacation.

Candidates for admission to College should bring with them, to the Senior Class Room, pencils for writing, and a copy of each Greek and Latin Author in which they propose to be examined.

Course of Instruction.

The whole Course of Instruction occupies four years, and the Students, in all the classes, are usually required to attend three exercises on each day.

The object of the course is to form the mind to habits of accurate discrimination, close reasoning, and vigorous application; and, at the same time, furnish it with the leading facts and principles in Literature, Science, and the Arts.

THE FOLLOWING IS A GENERAL VIEW OF THE STUDIES OF EACH TERM.

FRESHMAN CLASS.

FIRST TERM, { Livy's History—*Lincoln's*.
Latin Grammar reviewed.
Homer's Odyssey—*Owen's*.
Algebra—*Robinson's New University*.
Rhetoric: Elocution—*Mandeville's Elements of Reading and Oratory*.
Bible: Life of Christ—*From the Four Gospels*.
English Composition and Declamation.

SECOND TERM, { Horace's Odes—*Lincoln's*.
Latin Composition—*Arnold's*.
Xenophon's Memorabilia—*Robbins'*.
Greek Grammar reviewed—*Hadley's*.
Geometry completed—*Robinson's*.
Bible: Acts of the Apostles.
English Composition and Declamation.

THIRD TERM, { Horace's Satires and Epistles—*Lincoln's*.
Thucydides' History—*Owen's*.
Greek and Roman Antiquities—*Bejesen's*.
Plane and Spherical Trigonometry—*Robinson's*.
Bible: Genesis—*Bush's Notes*.
English Composition and Declamation.

SOPHOMORE CLASS.

FIRST TERM, { Demosthenes' De Corona—*Champlin's*.
Navigation and Surveying—*Robinson's*.
Tacitus' Germania and Agricola—*Tyler's*.
Conchology—*Lectures*.
Bible: Exodus—*Bush's Notes*.
English Composition and Declamation.

SECOND TERM, { French Course—*Fasquelle's*.
Analytical Geometry—*Loomis'*.
Rhetoric: Style, with Exercises in Criticism—*Blair's*.
English Synonyms—*Crabb's and Graham's*.
Bible: Joshua and Judges—*Coleman's Text Book*.
English Composition and Declamation.

Rhetorical Exercises.

Weekly exercises in Composition and Extemporaneous Debate take place in the several classes. Besides these, on Wednesday and Saturday of each week, all the Students are required to attend public exhibitions in the Chapel, of Declamation, and of Original Essays, Disputes and Orations, under the direction and criticism of the Kingsley Professor of Rhetoric.

Chemistry.

Through the munificence of the late Mr. SILAS D. CHILDS, of Utica, the Chemical Laboratory has recently undergone extensive alterations, and is supplied with new and valuable apparatus.

The Senior Class, besides receiving instruction, both by lectures and recitations, in general Chemistry, will in accordance with the will of Mr. CHILDS, receive a thorough course of instruction in Chemistry as applied in Agriculture.

During a portion of the year, instruction in qualitative chemical analysis, or in other special branches of Chemistry, will be given to those members of the Senior Class who may choose to pursue such studies.

Apparatus and chemicals will be furnished to students at reasonable prices.

The facilities of the Laboratory are such, that those who may desire to continue the study of Chemistry, after their graduation, will have an opportunity.

Instruction may also be obtained in practical Chemistry by those not pursuing the regular College Course.

The Laboratory is furnished with facilities for conducting Chemical investigations and analysis.

Astronomy.

As a means of giving more complete instruction in this Department, and also for the purpose of original observation, an Astronomical Observatory has been erected on the College grounds. The Astronomical Department and the Observatory have been very liberally endowed by the Hon. EDWIN C. LITCHFIELD, LL. D., of Brooklyn.

The Observatory consists of a central building, with wings on the east and west side. The central building is twenty-seven feet square, and two stories high, surmounted by a revolving tower, twenty feet in diameter.

The great Equatorial in the tower, constructed by Spencer & Eaton, has an object-glass of 13.5 inches in diameter, and focal length of nearly sixteen feet; it is provided with six positive and six negative eye pieces, with a ring and a filar micrometer. For solar observations it has a prismatic polarizing eyepiece of original construction by Robert B. Tolles. The declination circle of twenty four inches, by means of four verniers, reads to four seconds of arc; the hour circle of fourteen inches, by means of two verniers, reads to two seconds of time. The instrument is mounted upon a granite shaft, nine feet in height, resting upon a pier of solid masonry. A clock work with *Bond's* isodynamic escapement and spring governor, causes the telescope to follow the daily motion of the stars, by acting upon long arms attached to the equatorial axis.

The wings are each eighteen feet square: the east room is used as an office for the Director. In the west room is mounted a portable Transit Instrument, of 2½ inches aperture, the gift of Hon. ANSON S. MILLER, LL. D., of Rockford, Ill., and constructed by W. Wurdemann, of Washington, D. C. It has a cast-iron folding stand, invented by the maker.

Near the Transit is an Astronomical Clock, constructed by William Bond & Son, Boston, and presented by the late Hon. WM. CURTIS NOYES, of New York. It is regulated for mean time, and provided with the break-circuit for telegraphic operations. By the side of the Clock is a Chronograph of Bond's most recent construction, and regulated by the spring governor, presented by MICHAEL MOORE, Esq., of Trenton Falls. These instruments have been connected by a telegraphic wire with the nearest station; and the longitude of the Observatory has thus been accurately determined by exchanging star signals with the Harvard College Observatory, at Cambridge, Mass.

In its turn, the Litchfield Observatory already has become the basis of several longitudes in the State, determined under the auspices of the Regents of the University, at Buffalo, Syracuse, Elmira, Ogdensburg, and of the longitude of the Detroit Observatory at Ann Arbor, Mich., which latter forms the fundamental point for the longitudes of the Lake Survey. The latest work of this kind has been to determine the longitude of the western boundary of the State of New York.

HAMILTON COLLEGE.

Besides, the Observatory possesses a Siderial Chronometer, constructed by the same makers, with the Hartnup's improved compensation balance; this instrument was the gift of the late Hon. GEORGE UNDERWOOD, of Auburn.

A Morse Telegraphic Apparatus also has been presented by Mr. S. W. CHUBBUCK, of Utica, and an Aneroid Barometer, by the late SIMEON BENJAMIN, Esq., of Elmira.

In order to observe the total eclipse of the sun, August 7, 1869, Mr. EDWIN C. LITCHFIELD presented a fine portable telescope, so that an expedition could be organized, and proceed from this Observatory to Des Moines, Iowa. The cost of the expedition was likewise defrayed by the liberality of Mr. Litchfield. The telescope, the make of Messrs. STEINHEIL SONS, of Munich, has 4 (French) inches aperture, 5 feet focal length, and is mounted parallaxically on a solid iron tripod, with setting circles for right ascension and declination, and has also a tangent screw for following the daily motion of a star. It has two terrestrial and six astronomical eye-pieces, (varying in power from 40 to 360,) a ring and a scale micrometer, and a sliding wedge for moderating the light. There is, moreover, fitted to the eye tube a direct vision spectroscope, with five prisms, for analyzing the light of the sun and its protuberances. The telescope, when established in a proper location, it is thought, will be particularly useful for the exercise of students, who may make astronomy a special study.

The following thirteen Asteroids were first discovered at the Litchfield Observatory:

- 72, FERONIA, May 29, 1861,
- 75, EURYDICE, September 22, 1862,
- 77, FRIGGA, November 12, 1862,
- 85, IO, September 19, 1865,
- 88, THYSBE, June 15, 1866,
- 92, UNDINE, July 7, 1867,
- 98, IANTHE, April 18, 1868,
- 102, MIRIAM, August 22, 1868,
- 109, FELICITAS, October 9, 1869,
- 111, ATE, August 15, 1870,
- 112, IPUIGENIA, September 19, 1870,
- 114, CASSANDRA, July 23, 1871,
- 116, SIRONA, September 8, 1871.

The Cabinets.

Geological and Mineralogical Cabinets, and Collections in Natural History, are also connected with the College, embracing the following, viz.:

1. 9,000 Specimens of Ores and Simple Minerals.
2. 2,500 Specimens of Fossils and Rocks to illustrate the Geology of New York.
3. 1,000 Specimens to illustrate the Geology of the United States.
4. 600 Specimens of Fossils, mostly from the Silurian Formations of Europe.
5. 500 Specimens from the Coal Formations of the United States.
6. 250 Specimens from the New Red Sandstone Formation.

HAMILTON COLLEGE.

7. 600 Specimens of Crystallized Minerals from New York localities.
8. 2,000 Specimens of Land, Fresh Water, and Marine Shells.
9. 300 Specimens in Ornithology, from China.
10. 13 Cases of Specimens in Entomology.

Sartwell Herbarium.

Through the liberality of the late HAMILTON WHITE, Esq., of Syracuse, the College Collections in Natural History have been enriched by the HERBARIUM collected by the late Dr. H. P. SARTWELL, of Penn Yan, and well known in scientific circles as a very extensive and valuable exhibition of our North American Flora. This HERBARIUM is the result of fifty years of botanical Study, research and correspondence. It contains eight thousand samples of plants, skillfully cured, accurately labeled, and conveniently classified in sixty-two handsome volumes. Among the more unique or useful specimens are 451 *Mosses*, 226 *Lichens*, 341 *Sea-Weeds*, 600 *Fungi*, 575 *Ferns*, 314 *Grasses*, 200 *Ericaceae*.

The College Grounds.

The Park, in the midst of which the College edifices stand, embraces fifteen acres. This has been laid out in the Modern English method, with trees and shrubs scattered over it, singly and in groups, and with carriage-ways and foot-paths winding through its different parts, giving a visitor a view of the entire surface. The trees, deciduous and evergreen, have been arranged chiefly with a view to their landscape effects, though a classification in families has not been wholly lost sight of. A Pinetum has been begun, in which a large number of the conifers, hardy in this climate, may already be found. Among the Elms, Maples, Lindens, Oaks, &c., are five or six varieties of each.

In those portions of the ground daily traversed by the students, plots have been laid off and devoted to shrubs, vines, and flowering plants, some of which are cultivated by the undergraduates.

It is the design of the Trustees and the Faculty to render the Park increasingly attractive from year to year. New trees and plants will be added to the present collection as fast as they can be obtained. And for the more speedy accomplishment of this end, contributions are invited from the friends of the Institution. The Curators of the College Grounds are JOHN C. HASTINGS, Esq., Prof. OREN ROOT, and Rev. A. D. GRIDLEY. Communications on this subject may be addressed to either of these gentlemen.

Religious Instruction.

Morning Prayers, with reading of the Scriptures are attended daily in the College Chapel. Public services are attended in the Chapel on the Sabbath, when all the students are required to be present, except such as have permission to attend at other places of worship. On Sabbath and Tuesday evenings

there are religious services which all the students are invited to attend. A Church has been organized on such principles as to embrace members from various Evangelical Denominations. For the promotion of their spiritual good and highest usefulness, it is desirable that all professors of religion coming to the Institution should bring letters and connect themselves with the College Church.

A systematic course of Biblical Instruction is arranged for the several classes, a statement of which may be found in the General View of the studies of the year.

The Society of Christian Research holds its meetings monthly, when reports are read on the condition of Christian Missions in various parts of the world, and questions of religious interest are discussed.

Prizes.

1. The interest of a Prize Fund of \$1,500, founded by CHARLES C. KINGSLEY, Esq., of Utica, will be given, in two Prizes, to members of the Senior Class who excel in *Extemporaneous Speaking*.

2. The interest of a Prize Fund of \$500, founded by the late HON. AARON CLARK, of New York, will be given, in one Prize, to the student of the Senior Class who excels in *Oratory*.

3. The interest of a Prize Fund of \$500, founded by HON. J. V. L. PRUYN, LL. D., of Albany, Chancellor of the University of the State of New York, will be given in a Gold Medal, to any student of the Senior Class, except the successful competitor for the Head Prize, who shall write the best Oration on "The Utility of Classical Study to Public Men."

4. The interest of a Prize Fund of \$500, founded by HON. FRANKLIN H. HEAD, of Salt Lake City, Utah Ter., will be given to any student of the Senior Class, except the successful competitor for the Pruyne Medal, who shall write the best Oration on "Our Political Indebtedness to Alexander Hamilton."

5. The interest of a Prize Fund of \$500, founded by the late HON. GEORGE UNDERWOOD, of Auburn, will be given, in two Prizes, to members of the Senior Class who excel in *Chemistry*.

6. The interest of a Prize Fund of \$700, founded by CHARLES C. KINGSLEY, Esq., of Utica, will be awarded in the form of valuable books to the two students in each of the three lower classes who excel in Elocution; valuable books will also be given to the two in each class who excel in *English Composition*.

7. The interest of a Prize Fund of \$500, founded by relatives of the late Col. HENRY H. CURRAN, of Utica, will be given, in two Prizes, to members of the Junior Class who excel in *Classical Studies*.

11. The interest of a Prize Fund of \$500, bequeathed by the late Mrs. ABIGAIL R. KIRTLAND, of Clinton, will be awarded for excellence in *Biblical Scholarship*.

The Libraries.

The College and Society Libraries, amounting to 12,000 volumes, are at all times accessible to students.

A few gentlemen in the city of New York have presented to the College the private library of the late EDWARD ROBINSON, D. D., LL. D., of Union Theological Seminary. It consists of 1,420 volumes, and about 100 valuable maps; and furnishes rare facilities for the study of Biblical Exegesis and Scriptural Geography.

HON. WILLIAM CURTIS NOYES, LL. D., a native of Oneida county, and an honorary alumnus of the College, after a life of eminent service, professional and political, bequeathed to Hamilton College his Law Library. The collection numbers about five thousands volumes. The books had been collected during a practice of over twenty-five years, at a cost of not less than sixty thousand dollars. "The collection consists of all the American Reports, with scarcely an exception, down to the present time; of all the English Reports in the Courts of Law and Chancery, and in the Exchequer, down to the beginning of the year 1860; and all the Scotch decisions, in the Judiciary, Senior Courts, and House of Lords; and the Irish Reports in Law and Equity.

In Elementary Law, it contains all the principal treatises in England and America, among which is the 'Law Library,' in all the series, in upwards of ninety volumes.

It contains a complete set, in upwards of seventy volumes, of the printed statutes of the Colony and State of New York, including the Session laws from the earliest period, commencing with a copy of Bradford's printed in London, in 1719, which formerly belonged to Lord De la Warr, and seems to have come from the plantation office in the colony.

There is hardly any law book which a lawyer in large practice may have occasion to consult, that may not be found in this collection."

The NOYES LIBRARY is at all times accessible to Members of the Bar.

A new building for the Library is nearly completed. In honor of the principal contributor to the fund for its erection, Hon. PERRY H. SMITH, of Chicago, of the Class of 1846, the building is named the "*Perry H. Smith Library Hall*." The alumni of the College in Illinois, Wisconsin and Iowa, have also been filial and generous in their gifts.

HAMILTON COLLEGE.

The building is two stories high above the basement: 75 feet long and 50 broad. The first floor above the basement is divided into the vestibule and hall, two rooms for the librarian, and the library proper. The alcoves in the library room are arranged in three tiers, one above another, and with the adjacent walls and the librarian's rooms will furnish a place for 60,000 volumes. The library is lighted by windows in the side walls and by skylights.

Over the entrance hall and Librarian's rooms, there is an apartment for a Memorial Hall and Art Gallery, to contain tables and portraits of the alumni and students of the College who have served their country; also portraits and other memorials of the founders of the College, its officers and benefactors. Architect, EDWARD D. HARRIS, of the firm of RIDER & HARRIS, Boston.

Special acknowledgments are due to Dr. THOMAS B. HUDSON, and Dr. J. C. GALLUP, of Clinton, and to JAMES S. BAKER, Class of 1857, for large and valuable additions to the Library.

The College has received a legacy of Five Thousand Dollars from the late Hon. PETER B. PORTER, of the Class of 1826, as an endowment for the care and increase of the Library. Acknowledgment is due to the brothers of the deceased for making this bequest immediately available.

Examinations.

1. Of all the Classes, at the close of the First Term.
2. Of all the Classes, at the close of the Second Term.
3. Of the Senior Class, four weeks previous to Commencement.
4. Of the three other Classes, the week previous to Commencement.
5. Of Delinquents at the beginning of each Term.

1. From the first Thursday in September, fourteen weeks.
2. From the first Thursday in January, twelve weeks.
3. From the second Thursday in April to Commencement.

HAMILTON COLLEGE.

Expenses.

Board, from \$3.00 to \$5.00 per week,.....	\$114 00	to	\$190 00
Fuel and Lights,	10 00	"	15 00
Rent for Rooms unfurnished, from \$2 to \$6 per term,	6 00	"	18 00

Tuition, \$20 per term,.....	60 00	"	60 00
Amount,	\$205 00		\$298 00

Special repairs according to damage committed.

In addition to the preceding, any damages voluntarily committed in the community of students, are charged to the individuals or classes committing them, when known; to the whole body of students when not known, under the name of Extra Contingent Expenses.

A student admitted to an advanced standing, unless from another College, is charged with a matriculation fee: to the Sophomore Class, \$7; to the Junior, \$10; to the Senior, \$12.

Payment of Bills.

It is provided by a resolution of the Board of Trustees:

1. THAT ALL STUDENTS BE REQUIRED TO PAY THEIR TERM BILLS IN ADVANCE, and that no student be admitted to the recitation room after the first week of the term, unless his bills have been paid or arranged to the satisfaction of the Treasurer.

2. That no student have an honorable dismissal from the College or certificate of his previous attendance in it, until all his bills are paid or satisfactorily secured.

3. That in extreme cases, a student whose circumstances render it necessary, and who shall present satisfactory testimonials of the fact to the Executive Committee, if he is a worthy member of College, and his undergraduate course is completed in this Institution, can have his bills for tuition remitted.

Second Degrees.

Graduates of three years' standing, are entitled to the degree of Master of Arts, on application to the President. The fee for the Degree and Diploma is \$5, payable in advance.

Absence from College.

The portion of the year allotted to vacations is so great as to render it quite unnecessary for students to visit their friends during the term, except for urgent and unforeseen reasons. The occasional loss of a day cannot fail to have an unfavorable bearing on the intellectual habits and standing of the student. It

HAMILTON COLLEGE.

is hoped that parents and guardians will concur with the Faculty in their opinion of the inexpediency of granting leave of absence in ordinary cases. During vacations, the College buildings are closed; and it is not thought desirable that students from abroad should remain in Clinton.

No deduction for absence will be made in the Term bills, where the student returns to the same class which he left.

Members of the Senior Class cannot be graduated, unless they have been in attendance during two terms of the Senior year. No student is permitted to take part in the exercises of Commencement day, who has not spent the Third Term of his Senior year in College, and made his preparation also in College.

Teaching.

The Faculty keep a Register of Graduates and Undergraduates wishing engagements to teach, and will aim to nominate suitable candidates in reply to applications for teachers. Applicants for teachers should state definitely what service will be required, and what compensation will be paid.

Beneficiaries.

The interest of beneficiary funds, amounting to about \$3,000 per year, will be annually distributed to needy students; preference being given to those of Christian character and good scholarship.

Students who are candidates for the Christian Ministry, may receive aid, if their circumstances require it, to the amount of from one hundred to one hundred and thirty dollars a year, by placing themselves under the care of the Presbyterian Church, or under that of the American Education Society.

For aid rendered to candidates for the Christian Ministry, special acknowledgments are due to CHRISTOPHER R. ROBERT, Esq., of New York city; Hon. SAMUEL CAMPBELL, of New York Mills; Hon. TRUMAN P. HANDY, of Cleveland, O.; ALBERT PORTER, Esq., of Niagara Falls, N. Y.; and WILLIAM E. DODGE, Jr., Esq., of New York City.

Scholarships.

Sixteen Permanent Scholarships, of \$1,000 each, have been recently established, and will be hereafter occupied by deserving students.

Determination of Standing.

1. Each Instructor keeps a record of all College exercises in his department, according to a scale of merit ranging from *ten* to *zero*.
2. If a student who is present and prepared to recite, is not called at any exercise, he receives a credit equal to the average of his actual performances for that term.

HAMILTON COLLEGE.

3. For each exercise from which a student is absent and not excused, he is marked *zero*.

4. In estimating the value of class exercises, promptness and regularity are regarded as a merit; and all exercises performed out of their regular time are liable to a discount, if the circumstances seem to require it.

Law Department.

REV. SAMUEL GILMAN BROWN, D.D., LL.D., PRESIDENT.

ELLICOTT EVANS, LL. D.,

MAYNARD PROFESSOR OF LAW, HISTORY, CIVIL POLITY AND POLITICAL ECONOMY.

The course of instruction in Law includes the thorough and careful study of the most approved text-books. Among these are Blackstone's and Kent's Commentaries, Parsons on Contracts, Washburn's Law of Real Estate, Greenleaf on Evidence, vol. 1st, and the Code of Procedure.

The great object aimed at is to store the mind of the student with the fundamental principles of the Law. This is to be accomplished in such a way that he can give, at any time, a full and accurate expression of legal rules. The text-books are to be so mastered that any question may be answered readily and with exactness. Reviews of previous exercises are often repeated, until the student becomes as familiar with the rudiments of Law as with the rudiments of a language. At each exercise every student is examined on the subject studied, and expected to give the results of the text in his own words.

The Professor connects oral and familiar lectures with each recitation, putting cases to the class, involving the principles of the text, and requiring a solution; and endeavoring in every manner which may suggest itself to quicken and interest the student by exciting his own mind to continued action. Instead of the fitful and intermittent studies of the law office, pursued often in confusion and amidst other circumstances tending to distract the mind, the student studies law as he does any other science, with a systematic purpose and plan. Experience has proved by its unfailing tests, that on such a basis, underlying the superstructure of a careful practice, sound and accurate lawyers will be formed.

Any person of good moral character, who complies with the rules of the department, may join the class. The prescribed course of study for College graduates is one year; for those not graduated, one year and one-third. After having passed the regular course of study, and the examination prescribed by the rules of the College, the student is entitled to the degree of Bachelor of Laws. No other examination is necessary for admission to the Bar. By the Laws of 1855, chap. 310, every graduate of the Law School is entitled to a certificate to practice as an Attorney and Counsellor of the Supreme Court. The terms of tuition are \$20 per term, or \$60 per year, with a graduation fee of \$5.

Students who do not wish to graduate, can remain any number of terms which they may choose, or study any one of the subjects embraced in the course. The order of studies in the principal subjects is: the Law of Contracts, in the Fall term; of Real Estate, in the Winter term; of Real Estate completed, Evidence, etc., in the Spring term.

Text-books are furnished by the Institution, and loaned to the student without charge, with the exception of Blackstone and Kent.

Regulations for the Clark Prize.

1. Any member of the Senior Class, in actual attendance during the Second Term, may write upon either one of the subjects assigned.
2. Each Oration must contain not more than twenty folios: it must be signed with a fictitious name, and this name superscribed on a sealed note containing the author's real name.
3. The Orations must be left with the President before 12 o'clock on Wednesday, March 27th, 1872.
4. The best six Orations will be selected by the Faculty, and the names of the successful competitors will be announced on the last Thursday in April.
5. The Orations will be delivered under the direction of the Kingsley Professor of Rhetoric, on the evening of the first Wednesday in June.
6. The Prize will be awarded on Commencement day.
7. A copy of each of the six selected Orations will be kept in the College Library.

Subject for the Tenth Pruyn Medal Oration.

“The Obligations of the State to its Literary Men.”

Subject for the Ninth Head Prize Oration.

“The Position of Alexander Hamilton in American History.”

REGULATIONS.

1. Any member of the Senior Class, in actual attendance during the First Term, may write upon the subjects assigned.
2. Each Oration must contain not more than fifteen folios: it must be signed with a fictitious name, and this name superscribed upon a sealed note containing the author's real name.
3. The Orations must be left with the President before 12 o'clock on Friday, January 5, 1872.
4. The best Oration on each subject will be selected by the Faculty, and the names of the successful competitors announced before the close of the second term.
5. The Orations will be delivered and the Medal and Prize awarded on Commencement day.
6. Copies of the successful Orations will be kept in the College Library.

REGULATIONS

For the Seventeenth Curran Prize Examination.

SATURDAY, MARCH 16, 1872.

1. Members of the Junior Class intending to compete at the Curran Prize Examination, must make known this intention to the Professor of Greek, on or before the last Saturday in January.

2. The examination will be held in the Noyes Library, commencing at eight o'clock, and closing at one o'clock.

3. Each competitor is required to bring with him pens and ink, and a quire of "legal cap" paper.

4. Competitors are not allowed to bring with them any written or printed matter, any engravings or models for drawings, or to hold any communication with each other. A violation of this rule will vitiate the work of the one so doing.

5. Only one face of each half sheet is to be written upon, the other being left blank. There should also be an inch of margin on the left edge of each sheet.

6. The pages should be numbered at the top, with the student's name repeated beneath each number.

7. The several portions of the work should likewise be numbered according to the numbers of the printed questions.

8. At half-past twelve, notice will be given that Competitors may review, correct, and finish their work. At one o'clock the papers are to be given up.

9. In estimating the merit of the student's work, two points will be especially considered :—

(1.) Exactness in rendering; fullness and accuracy of information on the subjects proposed.

(2.) Neatness, elegance, and logical arrangement in the exhibition and utterance of knowledge.

10. The kind of work to be done will be as follows, viz:

(1.) Translation from and into Greek, Latin and French.

(2.) Analysis of words, including derivation, synonymes, inflection and dialectic changes.

(3.) Analysis of sentences, with rules of construction, illustrative maps and drawings, and the answering of questions in history, geography and mythology.

(4.) Analysis of metres, including quantity, rhythms, and nomenclature.

(5.) Rules and practice of Greek accentuation.

(6.) Criticism on the style, spirit, and subject-matter of the authors quoted from.

REGULATIONS FOR THE SIXTH

Tompkins Mathematical Prize Examination,

SATURDAY, JUNE 15, 1872.

1. Members of the Sophomore Class intending to compete at the Tompkins Mathematical Prize Examination, must make known their intention to the Professor of Mathematics, on or before the second Saturday of the Third Term.
 2. The examination will be held in the Lecture Room of the Cabinet, beginning at ten minutes past eight, and closing at thirty minutes past twelve.
 3. The work to be done will be the solution of ten problems, founded upon the mathematics of Sophomore year.
 4. Each competitor must bring with him materials for writing, but no written or printed matter.
 5. Copies of the successful Prize Papers will be kept in the College Library.
-

REGULATIONS

For the Sixth Kingsley Prize Debate,

MONDAY, JUNE 24, 1872.

1. The Sixth Kingsley Prize Debate will be held on Monday afternoon, June 24, 1872, under the direction of the Kingsley Professor of Rhetoric.
2. From the members of the Senior Class who have gained the highest average standing in Extemporaneous Speaking, during their Junior and Senior years, not more than six Prize Debaters will be appointed by the Faculty. Their names, with the question for debate, will be announced at the last session of the final Senior Examination. At the same time, the position of the Debaters on the affirmative or negative, will be determined by lot.
3. At the Debate, the order in which the Competitors on the affirmative and those on the negative are to be called, will each be determined by lot, publicly drawn at the time. Each competitor will be called twice; and will be allowed to speak from ten to fifteen minutes on the first call, and ten minutes on the second call.
4. A first prize of \$70.00, and a second prize of \$30.00, will be awarded by a committee of three gentlemen, not members of the Faculty; and the award will be announced at the close of the Kingsley Prize Declamation, Monday evening, June 24th.

SOCIETY OF ALUMNI.

This Society is composed of graduates from the College, and those upon whom it has conferred honorary or *ad eundem* degrees. Among its objects is the encouragement of Science and Letters, more especially in their connection with Hamilton College. It has the use of an alcove in the College Library, to which donations are solicited of books, pamphlets and papers, whose authors are Alumni of Hamilton. It seeks also the promotion of friendly feeling and sympathy among its living members, and the rendering of fit honor to the departed. Its annual meeting is held on the evening preceding Commencement. Persons who can supply information appropriate to the Triennial Catalogue or the Obituary Record, are requested to communicate the same to the Necrologist.

GENERAL INFORMATION.

Admission.

It is required that the candidates for admission to the Freshman Class should not be less than fifteen years of age, with a corresponding increase for an advanced standing; that they furnish evidence of good moral character, and if from another College, a regular dismissal; and that they sustain a satisfactory examination on the PREPARATORY STUDIES, or for an advanced class, on the several studies to which the class they propose to enter has attended. None can be admitted into the Senior Class after the winter vacation.

Preparatory Studies.

IN GREEK: Xenophon's *Anabasis*, two books; Homer's *Iliad*, one book; with the Greek Grammar, including prosody and the rules for pronunciation according to the Continental method.

IN LATIN: Cæsar's *Commentaries*, four books; Virgil's *Æneid*, six books with prosody; Cicero's *Select Orations*; Sallust's *Catiline*; and either Sallust's *Jugurthine War*, or the *Eclogues* of Virgil; with the Latin Grammar and Arnold's *Latin Prose Composition*, twelve chapters.

IN MATHEMATICS: Arithmetic, Algebra to Equations of the second degree; Plane Geometry.

Candidates will also be examined in English Grammar, Ancient and Modern Geography, History of the United States, and in Greek and Roman Antiquities. A Regents' Certificate of Academic Scholarship will be accepted in lieu of an examination in English Studies.

The ENTRANCE EXAMINATIONS are held at 9 o'clock, A. M., on Monday and Tuesday preceding Commencement, and on the last day of the ensuing vacation.

Candidates for admission to College should bring with them, to the Senior Class Room, pencils for writing, and a copy of each Greek and Latin Author in which they propose to be examined.

Course of Instruction.

The whole Course of Instruction occupies four years, and the Students, in all the classes, are usually required to attend three exercises on each day.

The object of the course is to form the mind to habits of accurate discrimination, close reasoning, and vigorous application; and, at the same time, furnish it with the leading facts and principles in Literature, Science, and the Arts.

Rhetorical Exercises.

Weekly exercises in Composition and Extemporaneous Debate take place in the several classes. Besides these, on Wednesday and Saturday of each week, all the Students are required to attend public exhibitions in the Chapel, of Declamation, and of Original Essays, Disputes and Orations, under the direction and criticism of the Kingsley Professor of Rhetoric.

Chemistry.

Through the munificence of the late Mr. SILAS D. CHILDS, of Utica, the Chemical Laboratory has recently undergone extensive alterations, and is supplied with new and valuable apparatus.

The Senior Class, besides receiving instruction, both by lectures and recitations, in general Chemistry, will in accordance with the will of Mr. CHILDS, receive a thorough course of instruction in Chemistry as applied in Agriculture.

During a portion of the year, instruction in qualitative chemical analysis, or in other special branches of Chemistry, will be given to those members of the Senior Class who may choose to pursue such studies.

Apparatus and chemicals will be furnished to students at reasonable prices.

The facilities of the Laboratory are such, that those who may desire to continue the study of Chemistry, after their graduation, will have an opportunity.

Instruction may also be obtained in practical Chemistry by those not pursuing the regular College Course. The tuition for such students will be \$20, per term.

The Laboratory is furnished with facilities for conducting Chemical investigations and analysis.

Natural Philosophy.

The department of Natural Philosophy has recently been established upon an independent footing, and is being supplied with the most approved apparatus as rapidly as possible. Members of the Class of '66 have presented, at an expense of about \$500, an induction coil, which with associated apparatus serves to illustrate the subject of induced electricity.

It is hoped that during the present year important additions will be made.

Astronomy.

As a means of giving more complete instruction in this Department, and also for the purpose of original observation, an Astronomical Observatory has been erected on the College grounds. The Astronomical Department and the Observatory have been very liberally endowed by the Hon. EDWIN C. LITCHFIELD, LL. D., of Brooklyn.

The Observatory consists of a central building, with wings on the east and west side. The central building is twenty-seven feet square, and two stories high, surmounted by a revolving tower, twenty feet in diameter.

The great Equatorial in the tower, constructed by Spencer and Eaton, has an object-glass of 13.5 inches in diameter, and focal length of nearly

sixteen feet; it is provided with six positive and six negative eye pieces, with a ring and a filar micrometer. For solar observations it has a prismatic polarizing eye-piece of original construction by Robert B. Tolles. The declination circle of twenty-four inches, by means of four verniers, reads to four seconds of arc; the hour circle of fourteen inches, by means of two verniers, reads to two seconds of time. The instrument is mounted upon a granite shaft, nine feet in height, resting upon a pier of solid masonry. A clock work with *Bond's* isodynamic escapement and spring governor, causes the telescope to follow the daily motion of the stars, by acting upon long arms attached to the equatorial axis.

The wings are each eighteen feet square: the east room is used as an office for the Director. In the west room is mounted a portable Transit Instrument, of $2\frac{1}{2}$ inches aperture, the gift of Hon. ANSON S. MILLER, LL. D., of Rockford, Ill., and constructed by W. Wurdemann, of Washington, D. C. It has a cast-iron folding stand, invented by the maker.

Near the Transit is an Astronomical Clock, constructed by William Bond & Son, Boston, and presented by the late Hon. WM. CURTIS NOYES, of New York. It is regulated for mean time, and provided with the break-circuit for telegraphic operations. By the side of the Clock is a Chronograph of Bond's most recent construction, and regulated by the spring governor, presented by MICHAEL MOORE, Esq., of Trenton Falls. These instruments have been connected by a telegraphic wire with the nearest station; and the longitude of the Observatory has thus been accurately determined by exchanging star signals with the Harvard College Observatory, at Cambridge, Mass.

In its turn, the Litchfield Observatory already has become the basis of several longitudes in the State, determined under the auspices of the Regents of the University, at Buffalo, Syracuse, Elmira, Ogdensburg, and of the longitude of the Detroit Observatory at Ann Arbor, Mich., which latter forms the fundamental point for the longitudes of the Lake Survey. The latest work of this kind has been to determine the longitude of the western boundary of the State of New York.

Besides, the Observatory possesses a Siderial Chronometer, constructed by the same makers, with the Hartnup's improved compensation balance; this instrument was the gift of the late Hon. GEORGE UNDERWOOD, of Auburn.

A Morse Telegraph Apparatus also has been presented by Mr. S. W. CHUBBUCK, of Utica, and an Aneroid Barometer, by the late SIMEON BENJAMIN, Esq., of Elmira.

In order to observe the total eclipse of the sun August 7, 1869, Mr. EDWIN C. LITCHFIELD presented a fine portable telescope, so that an expedition could be organized, and proceed from this Observatory to Des Moines, Iowa. The cost of the expedition was likewise defrayed by the liberality of Mr. Litchfield. The telescope, the make of Messrs. STEINHEIL SONS, of Munich, has 4 (French) inches aperture, 5 feet focal length, and is mounted parallactically on a solid iron tripod, with setting

circles for right ascension and declination, and has also a tangent screw for following the daily motion of a star. It has two terrestrial and six astronomical eye-pieces, (varying in power from 40 to 360,) a ring and a scale micrometer, and a sliding wedge for moderating the light. There is, moreover, fitted to the eye tube a direct vision spectroscope, with five prisms, for analyzing the light of the sun and its protuberances. The telescope, when established in a proper location, it is thought, will be particularly useful for the exercise of students, who may make astronomy a special study.

The following sixteen Asteroids were first discovered at the Litchfield Observatory.

- 72, FERONIA, May 29, 1861,

The Cabinets.

Geological and Mineralogical Cabinets, and Collections in Natural History, are also connected with the College, embracing the following, viz.:

1. 9,000 Specimens of Ores and Simple minerals.
2. 2,500 Specimens of Fossils and Rocks to illustrate the Geology of New York.
3. 1,000 Specimens to illustrate the Geology of the United States.
4. 600 Specimens of Fossils, mostly from the Silurian Formations of Europe.
5. 500 Specimens from the Coal Formations of the United States.
6. 250 Specimens from the New Red Sandstone Formation.
7. 600 Specimens of Crystallized Minerals from New York localities.
8. 2,000 Specimens of Land, Fresh Water, and Marine Shells.
9. 300 Specimens in Ornithology from China.
10. 13 Cases of Specimens in Entomology.

Sartwell Herbarium.

Through the liberality of the late HAMILTON WHITE, Esq., of Syracuse, the College Collections in Natural History have been enriched by the HERBARIUM collected by the late Dr. H. P. SARTWELL, of Penn Yan, and well known in scientific circles as a very extensive and valuable exhibition of our North American Flora. This HERBARIUM is the result of fifty years of botanical Study, research and correspondence. It contains eight thousand samples of plants, skillfully cured, accurately labeled, and conveniently classified in sixty-two handsome volumes. Among the more unique or useful specimens are 451 *Mosses*, 236 *Lichens*, 341 *Sea-Weeds*, 600 *Fungi*, 575 *Ferns*, 314 *Grasses*, 200 *Ericacæ*.

The College Grounds.

The Park, in the midst of which the College edifices stand, embraces fifteen acres. This has been laid out in the Modern English method, with trees and shrubs scattered over it, singly and in groups, and with carriage-ways and foot-paths winding through its different parts, giving a visitor a view of the entire surface. The trees, deciduous and evergreen, have been arranged chiefly with a view to their landscape effects, though a classification in families has not been wholly lost sight of. A Pinetum has been begun, in which a large number of the conifers, hardy in this climate, may already be found. Among the Elms, Maples, Lindens, Oaks, &c., are five or six species of each.

In those portions of the ground daily traversed by the students, plots have been laid off and devoted to shrubs, vines, and flowering plants, some of which are cultivated by the undergraduates.

It is the design of the Trustees and the Faculty to render the Park increasingly attractive from year to year. New trees and plants will be added to the present collection as fast as they can be obtained. And for the more speedy accomplishment of this end, contributions are invited from the friends of the Institution. The Curators of the College Grounds are JOHN C. HASTINGS, Esq., Prof. OREN ROOT, and Rev. A. D. GRIDLEY. Communications on this subject may be addressed to either of these gentlemen.

Religious Instruction.

Morning Prayers, with reading of the Scriptures are attended daily in the College Chapel. Public services are attended in the Chapel on the Sabbath, when all the students are required to be present, except such as have permission to attend at other places of worship. On Sabbath and Tuesday evenings there are religious services which all the students are invited to attend. A Church has been organized on such principles as to embrace members from various Evangelical Denominations. For the pro-

motion of their spiritual good and highest usefulness, it is desirable that all professors of religion coming to the Institution should bring letters and connect themselves with the College Church.

A systematic course of Biblical Instruction is arranged for the several classes, a statement of which may be found in the General View of the studies of the year.

The Society of Christian Research holds its meetings monthly, when reports are read on the condition of Christian Missions in various parts of the world, and questions of religious interest are discussed.

Prizes.

1. The interest of a Prize Fund of \$1,500, founded by CHARLES C. KINGSLEY, Esq., of Utica, will be given, in two Prizes, to members of the Senior Class who excel in *Extemporaneous Speaking*.

2. The interest of a Prize Fund of \$700, founded by CHARLES C. KELLOGG, Esq., of Utica, will be given, in one Prize, to any student of the Senior Class, except the successful competitors for the Clark Prize, the Pruyn Medal, the Head Prize and the Kirkland Prize, who shall excel in the composition and delivery of his *Commencement Oration*.

3. The interest of a Prize Fund of \$500, founded by the late Hon. AARON CLARK, of New York, will be given, in one Prize, to the student of the Senior Class who excels in *Oratory*.

4. The interest of a Prize Fund of \$500, founded by Hon. J. V. L. PRUYN, LL. D., of Albany, Chancellor of the University of the State of New York, will be given in a Gold Medal, to any student of the Senior Class, except the successful competitors for the Head Prize, and the Kirkland Prize, who shall write the best Oration on "The Duties of Educated Men to the Masses."

5. The interest of a Prize Fund of \$500, founded by Hon. FRANKLIN H. HEAD, of Elk Rapids, Mich., will be given to any student of the Senior Class, except the successful competitors for the Pruyn Medal, and the Kirkland Prize, who shall write the best Oration on "The Career and Character of Alexander Hamilton."

6. The Interest of a Prize Fund of \$500, bequeathed by the late Mrs. ABIGAIL R. KIRKLAND, of Clinton, will be given to any student of the Senior Class, except the successful competitors for the Pruyn Medal, and the Head Prize, who shall write the best Oration on "The Christian Sabbath, and its Influence upon Civilization."

7. The interest of a Prize Fund of \$500, founded by the late Hon. GEORGE UNDERWOOD, of Auburn, will be given, in two Prizes, to members of the Senior Class who excel in *Chemistry*.

8. The interest of a Prize Fund of \$700, founded by CHARLES C. KINGSLEY, Esq., of Utica, will be awarded, in the form of valuable books,

to the two students in each of the three lower classes who excel in Elocution; valuable books will also be given to the two in each class who excel in *English Composition*.

9. The interest of a Prize Fund of \$600, founded by relatives of the late Col. HENRY H. CURRAN, of Utica will be given, in two Medals, to members of the Junior Class who excel in *Classical Studies*.

10. The interest of a Prize Fund of \$500 founded by MARTIN HAWLEY, Esq., of Baltimore, Md., will be given, in Silver Medals, to members of the Junior Class who excel in *Classical Studies*.

11. The interest of a Prize Fund of \$500, founded by Rev. TERTIUS D. SOUTHWORTH, of Bridgewater, will be given, in two Prizes, to members of the Junior Class who excel in *Natural Philosophy*.

12. The interest of a Prize Fund of \$500, founded by HAMILTON B. TOMPKINS, Esq., of Newport, R. I., will be given, in two Prizes, to members of the Sophomore Class who excel in *Mathematics*.

The Libraries.

The College and Society Libraries, amounting to 12,000 volumes, are at all times accessible to students.

A few gentlemen in the city of New York a few years since presented to the College the private library of the late EDWARD ROBINSON, D. D., LL. D., of Union Theological Seminary. It consists of 1,420 volumes, and about 100 valuable maps; and furnishes rare facilities for the study of Biblical Exegesis and Scriptural Geography.

Hon. WILLIAM CURTIS NOYES, LL. D., a native of Oneida county, and an honorary alumnus of the College, after a life of eminent service, professional and political, bequeathed to Hamilton College his Law Library. The collection numbers about five thousand volumes. The books had been collected during a practice of over twenty-five years, at a cost of not less than sixty thousand dollars. "The collection consists of all the American Reports, with scarcely an exception, down to the present time; of all the English Reports in the Courts of Law and Chancery, and in the Exchequer, down to the beginning of the year 1860; and all the Scotch decisions, in the Judiciary, Senior Courts, and House of Lords; and the Irish Reports in Law and Equity.

In Elementary Law, it contains all the principal treaties in England and America, among which is the 'Law Library,' in all the series, in upwards of ninety volumes.

It contains a complete set, in upwards of seventy volumes, of the printed statutes of the Colony and State of New York, including the Session laws from the earliest period, commencing with a copy of Bradford's printed in London, in 1719, which formerly belonged to Lord De la Warr, and seems to have come from the plantation office in the colony.

HAMILTON COLLEGE.

There is hardly any law book which a lawyer in large practice may have occasion to consult, that may not be found in this collection."

The NOYES LIBRARY is at all times accessible to Members of the Bar.

A new building for the Library is completed. In honor of the principal contributor to the fund for its erection, Hon. PERRY H. SMITH, of Chicago, of the Class of 1846, the building is named the "*Perry H. Smith Library Hall*." The alumni of the College in Illinois, Wisconsin and Iowa, have also been filial and generous in their gifts.

The building is two stories high above the basement: 75 feet long and 50 broad. The first floor above the basement is divided into the vestibule and hall, two rooms for the librarian, and the library proper. The alcoves in the library room are arranged in three tiers, one above another, and with the adjacent walls and the librarian's rooms will furnish a place for 60,000 volumes. The library is lighted by windows in the side walls and by skylights.

Over the entrance hall and Librarian's rooms, there is an apartment for a Memorial Hall and Art Gallery, to contain tables and portraits of the alumni and students of the College who have served their country; also portraits and other memorials of the founders of the College, its officers and benefactors. Architect, EDWARD D. HARRIS, of the firm of RIDER & HARRIS, Boston.

Special acknowledgments are due to Dr. THOMAS B. HUDSON, Dr. J. C. GALLUP, of Clinton, JAMES S. BAKER, Class of 1857, and JOHN C. HASTINGS, Esq., of Clinton, for large and valuable additions to the Library.

The College has received a legacy of Five Thousand Dollars from the late Hon. PETER B. PORTER, of the Class of 1826, as an endowment for the care and increase of the Library. Acknowledgment is due to the brothers of the deceased for making this bequest immediately available.

Examinations.

1. Of all the Classes, at the close of the First Term.
2. Of all the Classes, at the close of the Second Term.
3. Of the Senior Class, four weeks previous to Commencement.
4. Of the other three Classes, the week previous to Commencement.
5. Of Delinquents at the beginning of each Term.

Public Exhibitions.

1. Junior Exhibition, at the close of the Second Term.
2. Clark Prize Exhibition, on the First Wednesday in June.
3. Kingsley Prize Debate, on the Monday afternoon preceding Commencement.
4. Kingsley Prize Declamation, on the Monday evening preceding Commencement.
5. Commencement, on the Thursday after the last Tuesday in June.

Terms.

1. From the first Thursday in September, fourteen weeks.
2. From the second Thursday in January, twelve weeks.
3. From the third Thursday in April to Commencement.

Expenses.

Board, from \$3.00 to \$5.00 per week	\$114 00 to \$190 00	
Fuel and Lights.....	10 00 "	15 00
Rent for Rooms unfurnished, from \$2 to \$3 per term.....	6 00 "	18 00
Ordinary repairs: sweeping and heating the public rooms, \$5 per term.....	15 00 "	15 00
Tuition, \$20 per term.....	60 00 "	60 00
Amount.....	\$205 00	\$298 00

Special repairs according to damage committed.

In addition to the preceding, any damages voluntarily committed in the community of students, are charged to the individuals or classes committing them, when known; to the whole body of students when not known, under the name of Extra Contingent Expenses.

A student admitted to an advanced standing, unless from another College, is charged with a matriculation fee: to the Sophomore Class, \$7; to the Junior, \$10; to the Senior, \$12.

Payment of Bills.

It is provided by a resolution of the Board of Trustees:

1. THAT ALL STUDENTS BE REQUIRED TO PAY THEIR TERM BILLS IN ADVANCE, and that no student be admitted to the recitation room after the first week of the term, unless his bills have been paid or arranged to the satisfaction of the Treasurer.

2. That no student have an honorable dismissal from the College or certificate of his previous attendance in it, until all his bills are paid or satisfactorily secured.

3. That in extreme cases, a student whose circumstances render it necessary, and who shall present satisfactory testimonials of the fact to the Executive Committee, if he is a worthy member of College, and his undergraduate course is completed in this Institution, can have his bills for tuition remitted.

Second Degrees.

Graduates of three years' standing, are entitled to the degree of Master of Arts, on application to the President. The fee for the Degree and Diploma is \$5, payable in advance.

Absence from College.

The portion of the year allotted to vacations is so great as to render it quite unnecessary for students to visit their friends during the term, except for urgent and unforeseen reasons. The occasional loss of a day can not fail to have an unfavorable bearing on the intellectual habits and standing of the student. It is hoped that parents and guardians will concur with the Faculty in their opinion of the inexpediency of granting leave of absence in ordinary cases. During vacations, the College buildings are closed; and it is not thought desirable that students from abroad should remain in Clinton.

No deduction for absence will be made in the Term bills, where the student returns to the same class which he left.

Members of the Senior Class can not be graduated, unless they have been in attendance during two terms of the Senior year. No student is permitted to take part in the exercises of Commencement day, who has not spent the Third Term of his Senior year in College, and made his preparation also in College.

Teaching.

The Faculty keep a Register of Graduates and Undergraduates wishing engagements to teach, and will aim to nominate suitable candidates in reply to applications for teachers. Applicants for teachers should state definitely what service will be required, and what compensation will be paid.

Beneficiaries.

The interest of beneficiary funds, amounting to about \$3,000 per year, will be annually distributed to needy students; preference being given to those of Christian character and good scholarship.

Students who are candidates for the Christian Ministry, may receive aid, if their circumstances require it, to the amount of from one hundred to one hundred and sixty dollars a year, by placing themselves under the care of the Presbyterian Church, or under that of the American Education Society.

For aid rendered to candidates for the Christian Ministry, special acknowledgments are due to Hon. SAMUEL CAMPBELL, of New York Mills; Hon. TRUMAN P. HANDY, of Cleveland, O.; ALBERT PORTER, Esq., of Niagara Falls, N. Y.; WILLIAM E. DODGE, Jr., Esq., of New York City; and HOWARD C. WILLIAMS, Esq., of Ithaca.

Scholarships.

Sixteen Permanent Scholarships, of \$1,000 each, have been recently established, and will be hereafter occupied by deserving students.

Determination of Standing.

1. Each Instructor keeps a record of all College exercises in his department, according to a scale of merit ranging from *ten* to *zero*.
2. If a student who is present and prepared to recite, is not called at any exercise, he receives a credit equal to the average of his actual performances for that term.
3. For each exercise from which a student is absent and not excused, he is marked zero.
4. In estimating the value of class exercises, promptness and regularity are regarded as a merit; and all exercises performed out of their regular time are liable to a discount, if the circumstances seem to require it.

LAW DEPARTMENT.

REV. SAMUEL GILMAN BROWN, D. D., LL. D., PRESIDENT.

ELLICOTT EVANS, LL. D.,

MAYNARD PROFESSOR OF LAW, HISTORY, CIVIL POLITY AND POLITICAL ECONOMY.

The course of instruction in Law includes the thorough and careful study of the most approved text-books. Among these are Blackstone's and Kent's Commentaries, Parsons on Contracts, Washburn's Law of Real Estate, Greenleaf on Evidence, vol. 1st, and the Code of Precedure.

The great object aimed at is to store the mind of the student with the fundamental principles of the Law. This is to be accomplished in such a way that he can give, at any time, a full and accurate expression of legal rules. The text-books are to be so mastered that any question may be answered readily and with exactness. Reviews of previous exercises are often repeated, until the student becomes as familiar with the rudiments of Law as with the rudiments of a language. At each exercise every student is examined on the subject studied, and expected to give the results of the text in his own words.

The Professor connects oral and familiar lectures with each recitation, putting cases to the class, involving the principles of the text, and requiring a solution; and endeavoring in every manner which may suggest itself to quicken and interest the student by exciting his mind to continued action. Instead of the fitful and intermittent studies of the law office, pursued often in confusion and amidst other circumstances tending to distract the mind, the student studies law as he does any other science, with a systematic purpose and plan. Experience has proved by its unfailing tests, that on such a basis, underlying the superstructure of a careful practice, sound and accurate lawyers will be formed.

Any person of good moral character, who complies with the rules of the department, may join the class. The prescribed course of study for College graduates is one year; for those not graduated, one year and one-third. After having passed the regular course of study, and the examination prescribed by the rules of the College, the student is entitled to the degree of Bachelor of Laws. No other examination is necessary for admission to the Bar. By the Laws of 1855, chap. 310, every graduate of

the Law School is entitled to a certificate to practice as an Attorney and Counsellor of the Supreme Court. The terms of tuition are \$20 per term, or \$60 per year, with a graduation fee of \$5.

Students who do not wish to graduate, can remain any number of terms which they may choose, or study any one of the subjects embraced in the course. The order of studies in the principal subjects is : the Law of Contracts in the Fall term ; of Real Estate, in the Winter term ; of Real Estate completed, Evidence, etc., in the Spring term.

Text-books are furnished by the Institution, and loaned to the student without charge, with the exception of Blackstone and Kent.

SUBJECTS FOR
ENGLISH PRIZE COMPOSITION.
1872-73.

FOR THE JUNIORS.

- "American Humorists."
"Shakespeare's Hamlet."

FOR THE SOPHOMORES.

- "The Use and Abuse of Illustration."
"The Characteristics of the Writings of Hawthorne."

FOR THE FRESHMEN.

- "Albert Barnes."
"The Hero of the Iliad."
-

REGULATIONS.

1. Any Student of the three lower Classes, in actual attendance during the Second Term, has the privilege of writing upon either or both of the subjects assigned to the Class of which he is a member; but no one can receive two prizes in a single year.

2. Each Essay must contain not more than thirty-five folios, and must be so written that the MS. will show broad margins, and be suitable for binding: it must be signed with a fictitious name, and this fictitious name superscribed on a sealed note containing the writer's real name.

3. The Essays must be left with the President, before 12 o'clock, on the last Wednesday in the Second Term.

4. The Faculty will appoint a Committee to select the best Essay on each of the subjects assigned to the several classes.

5. The two successful Essayists from each Class, will be announced at the close of the Third Term; and books of value will be given as prizes on Commencement day.

6. A copy of each successful Essay will be kept in the College Library.

Subjects for the Nineteenth Clark Prize Exhibition.

WEDNESDAY, JUNE 4, 1873.

1. "The Relations of Labor and Capital."
 2. "Representative Orators."
 3. "The Unification of Italy."
 4. "The Indebtedness of English Literature to the Bible."
 5. "Cardinal Richelieu."
 6. "The Battle of Gettysburg and its Results."

REGULATIONS.

1. Any member of the Senior Class, in actual attendance during the Second Term, may write upon any one of the subjects assigned.
 2. Each Oration must contain not more than twenty folios: it must be signed with a fictitious name, and this name superscribed on a sealed note containing the author's real name.
 3. The Orations must be left with the President before 12 o'clock on the last Wednesday of the Second Term.
 4. The best six Orations will be selected by the Faculty, and the names of the successful competitors will be announced on the last Thursday in April.
 5. The Orations will be delivered under the direction of the Kingsley Professor of Rhetoric, on the evening of the first Wednesday in June.
 6. The Prize will be awarded on Commencement day.
 7. A copy of each of the six selected Orations will be kept in the College Library.
-

Regulations for the First Kellogg Commencement Prize.

THURSDAY, JUNE 26, 1873.

1. Any member of the Senior Class, except the successful competitors for the Clark Prize, the Pruyn Medal, the Head Prize, and the Kirkland Prize, may compete for the Kellogg Prize.
2. Each member of the Senior Class will select the theme for his Commencement Oration, subject to the approval of the Kingsley Professor of Rhetoric.
3. Each Oration must contain not less than five hundred words.
4. The Orations must be left with the Kingsley Professor of Rhetoric before 12 o'clock on the second Thursday of the third term.
5. The Orations will be delivered on Commencement day, and at the close of the exercises of that day the Kellogg Prize will be awarded by a committee appointed by the Faculty.
6. The successful competitor will be required to furnish a copy of his Oration for the College Library.

Subject for the Eleventh Prugn Medal Oration.

"The Duties of Educated Men to the Masses."

Subject for the Tenth Head Prize Oration.

"The Career and Character of Alexander Hamilton."

Subject for the First Kirkland Prize Oration.

"The Christian Sabbath, and its Influence upon Civilization."

REGULATIONS.

1. Any member of the Senior Class, in actual attendance during the First Term, may write upon the subjects assigned; but only one prize will be awarded to the same person.

2. Each Oration must contain not more than twelve folios: it must be signed with a fictitious name, and this name superscribed upon a sealed note containing the author's real name.

3. The Orations must be left with the President before 12 o'clock on Friday, the second day of the Second Term.

4. The best Oration on each subject will be selected by the Faculty, and the names of the successful competitors announced before the close of the second term.

5. The Orations will be delivered and the Medal and Prizes awarded on Commencement day.

6. Copies of the successful Orations will be kept in the College Library.

REGULATIONS

For the Eighteenth Curran Prize Examination.

WEDNESDAY, MARCH 26, 1873.

1. Members of the Junior Class intending to compete at the Curran Prize Examination, must make known this intention to the Professor of Greek, on or before the last Saturday in January.

2. The examination will be held in the Examination Hall, commencing at nine o'clock, and closing at two o'clock.

3. Each competitor is required to bring with him pens and ink, and a quire of "legal cap" paper.

4. Competitors are not allowed to bring with them any written or printed matter, any engravings or models for drawings, or to hold any communication with each other. A violation of this rule will vitiate the work of the one so doing.

5. Only one face of each half sheet is to be written upon, the other being left blank. There should also be an inch of margin on the left edge of each sheet.

6. The pages should be numbered at the top, with the student's name repeated beneath each number.

7. The several portions of the work should likewise be numbered according to the numbers of the printed questions.

8. At half-past one, notice will be given that competitors may review, correct, and finish their work. At two o'clock the papers are to be given up.

9. In estimating the merit of the student's work, two points will be especially considered :—

(1.) Exactness in rendering ; fullness and accuracy of information on the subjects proposed.

(2.) Neatness, elegance, and logical arrangement in the exhibition and utterance of knowledge.

10. The kind of work to be done will be as follows, viz :—

(1.) Translation from and into Greek, Latin and French.

(2.) Analysis of words, including derivation, synonymes, inflection and dialectic changes.

(3.) Analysis of sentences, with rules of construction, illustrative maps and drawings, and the answering of questions in history, geography and mythology.

(4.) Analysis of metres, including quantity, rhythms, and nomenclature.

(5.) Rules and practice of Greek accentuation.

(6.) Criticism on the style, spirit, and subject-matter of the authors quoted from.

REGULATIONS FOR THE SEVENTH
Tompkins Mathematical Prize Examination,
SATURDAY, JUNE 14, 1873.

1. Members of the Sophomore Class intending to compete at the Tompkins Mathematical Prize Examination, must make known their intention to the Professor of Mathematics, on or before the second Saturday of the Third Term.

2. The examination will be held in the Lecture Room of the Cabinet, beginning at nine o'clock, and closing at one.

3. The work to be done will be the solution of ten problems, founded upon the mathematics of Sophomore year.

4. Each competitor must bring with him materials for writing, but no written or printed matter.

5. Copies of the successful Prize Papers will be kept in the College Library.

REGULATIONS
For the Seventh Kingsley Prize Debate,
MONDAY, JUNE 23, 1873.

1. The Seventh Kingsley Prize Debate will be held on the afternoon of the Monday preceding Commencement, under the direction of the Kingsley Professor of Rhetoric.

2. From the members of the Senior Class who have gained the highest average standing in extemporaneous speaking, during their Junior and Senior years, not more than six Prize Debaters will be appointed by the Faculty. Their names, with the question for debate, will be announced at the last session of the final Senior Examination. At the same time, the position of the debaters on the affirmative or negative, will be determined by lot.

3. At the Debate, the order in which the competitors on the affirmative and those on the negative are to be called, will each be determined by lot, publicly drawn at the time. Each competitor will be called twice; and will be allowed to speak from ten to fifteen minutes on the first call, and ten minutes on the second call.

4. A first prize of \$70.00, and a second prize of \$30.00, will be awarded by a committee of three gentlemen, not members of the Faculty; and the award will be announced at the close of the Kingsley Prize Declaration.

SOCIETY OF ALUMNI.

This Society is composed of graduates from the College, and those upon whom it has conferred honorary or *ad eundem* degrees. Among its objects is the encouragement of Science and Letters, more especially in their connection with Hamilton College. It has the use of an alcove in the College Library, to which donations are solicited of books, pamphlets and papers, whose authors are Alumni of Hamilton. It seeks also the promotion of friendly feeling and sympathy among its living members, and the rendering of fit honor to the departed. Its annual meeting is held on the evening preceding Commencement. Persons who can supply information appropriate to the Triennial Catalogue or the Obituary Record, are requested to communicate the same to the Necrologist.

GENERAL INFORMATION.

Admission.

It is required that the candidates for admission to the Freshman Class should not be less than fifteen years of age, with a corresponding increase for an advanced standing; that they furnish evidence of good moral character, and if from another College, a regular dismissal; and that they sustain a satisfactory examination on the PREPARATORY STUDIES, or, for an advanced class, on the several studies to which the class they propose to enter has attended. None can be admitted into the Senior Class after the winter vacation.

Preparatory Studies.

IN GREEK: Xenophon's *Anabasis*, two books; Homer's *Iliad* one book; with the Greek Grammar, including prosody and the rules for pronunciation according to the Continental method.

IN LATIN: Cæsar's *Commentaries*, four books; Virgil's *Æneid*, six books with prosody; Cicero's *Select Orations*; Sallust's *Catiline*; and either Sallust's *Jugurthine War* or the *Eclogues* of Virgil; with the Latin Grammar and Arnold's *Latin Prose Composition*, twelve chapters.*

IN MATHEMATICS: Arithmetic, Algebra to Equations of the second degree; Plane Geometry.

Candidates will also be examined in English Grammar, Ancient and Modern Geography, History of the United States, and in Greek and Roman Antiquities. A Regents' Certificate of Academic Scholarship will be excepted in lieu of an examination in English Studies.

The ENTRANCE EXAMINATIONS are held at 9 o'clock, A. M., on Monday and Tuesday preceding Commencement, and on the last day of the ensuing vacation.

Candidates for admission to College should bring with them, to the Senior Class Room, pencils for writing, and a copy of each Greek and Latin Author in which they propose to be examined.

Course of Instruction.

The whole Course of Instruction occupies four years, and the Students, in all the classes, are usually required to attend three exercises on each day. The degree of BACHELOR OF ARTS is conferred upon Students who complete this Course.

The object of the course is to form the mind to habits of accurate discrimination, close reasoning, and vigorous application; and, at the same time, furnish it with the leading facts and principles in Literature, Science, and the Arts.

The Following is a General View of the Studies of each Term.

FRESHMAN CLASS.

FIRST TERM, . . . { Livy's History—*Lincoln's*.
Latin Grammar reviewed.
Algebra—*Robinson's New University*.

Rhetorical Exercises.

Weekly exercises in Composition and Extemporaneous Debate take place in the several classes. Besides these, on Wednesday and Saturday of each week, all the Students are required to attend public exhibitions in the Chapel, of Declamation, and of Original Essays, Disputes and Orations, under the direction and criticism of the Kingsley Professor of Rhetoric.

Chemistry.

Through the munificence of the late Mr. SILAS D. CHILDS, of Utica, the Chemical Laboratory has recently undergone extensive alterations, and is supplied with new and valuable apparatus.

The Senior Class, besides receiving instruction, both by lectures and recitations, in general Chemistry, will in accordance with the will of Mr. CHILDS, receive a thorough course of instruction in Chemistry as applied in Agriculture.

During a portion of the year, instruction in qualitative chemical analysis, or in other special branches of Chemistry, will be given to those members of the Senior Class who may choose to pursue such studies.

Apparatus and chemicals will be furnished to students at reasonable prices.

The facilities of the Laboratory are such, that those who may desire to continue the study of Chemistry, after their graduation, will have an opportunity.

Instruction may also be obtained in practical Chemistry by those not pursuing the regular College Course. The tuition for such students will be, \$20 per term.

The Laboratory is furnished with facilities for conducting Chemical investigations and analysis.

Natural Philosophy.

The department of Natural Philosophy has recently been established upon an independent footing, and is being supplied with the most approved apparatus as rapidly as possible. Members of the Class of '66 have presented, at an expense of about \$500, an induction coil, which

with associated apparatus serves to illustrate the subject of induced electricity.

It is hoped that during the present year important additions will be made.

Astronomy.

As a means of giving more complete instruction in this Department, and also for the purpose of original observation, an Astronomical Observatory has been erected on the College grounds. The Astronomical Department and the Observatory have been very liberally endowed by the Hon. EDWIN C. LITCHFIELD, LL. D., of Brooklyn.

The Observatory consists of a central building, with wings on the east and west side. The central building is twenty-seven feet square, and two stories high, surmounted by a revolving tower, twenty feet in diameter.

The great Equatorial in the tower, constructed by Spencer and Eaton, has an object-glass of 13.5 inches in diameter, and focal length of nearly sixteen feet; it is provided with six positive and six negative eye pieces, with a ring and a filar micrometer. For solar observations it has a prismatic polarizing eye-piece of original construction by Robert B. Tolles. The declination circle of twenty-four inches, by means of four verniers, reads to four seconds of arc; the hour circle of fourteen inches, by means of two verniers, reads to two seconds of time. The instrument is mounted upon a granite shaft, nine feet in height, resting upon a pier of solid masonry. A clock work with *Bond's* isodynamic escapement and spring governor, causes the telescope to follow the daily motion of the stars, by acting upon long arms attached to the equatorial axis.

The wings are each eighteen feet square; the east room is used as an office for the Director. In the west room is mounted a portable Transit Instrument, of $2\frac{1}{2}$ inches aperture, the gift of Hon. ANSON S. MILLER, LL. D., of Rockford, Ill., and constructed by W. Wurdemann, of Washington, D. C. It has a cast-iron folding stand, invented by the maker.

Near the Transit is an Astronomical Clock, constructed by William Bond & Son, Boston, and presented by the late Hon. WM. CURTIS NOYES, of New York. It is regulated for mean time, and provided with the break-circuit for telegraphic operations. By the side of the Clock is a Chronograph of Bond's most recent construction, and regulated by the spring governor, presented by MICHAEL MOORE, Esq., of Trenton Falls. These instruments have been connected by a telegraphic wire with the nearest station; and the longitude of the Observatory has thus been accurately determined by exchanging star signals with the Harvard College Observatory, at Cambridge, Mass.

In its turn, the Litchfield Observatory already has become the basis of several longitudes in the State, determined under the auspices of the Regents of the University, at Buffalo, Syracuse, Elmira, Ogdensburg, and of the longitude of the Detroit Observatory at Ann Arbor, Mich.,

HAMILTON COLLEGE.

which latter forms the fundamental point for the longitudes of the Lake Survey. The latest work of this kind has been to determine the longitude of the western boundary of the State of New York.

Besides, the Observatory possesses a Sidereal Chronometer, constructed by the same makers, with the Hartnup's improved compensation balance; this instrument was the gift of the late Hon. GEORGE UNDERWOOD, of Auburn.

A Morse Telegraph Apparatus also has been presented by Mr. S. W. CHUBBUCK, of Utica, and an Aneroid Barometer, by the late SIMEON BENJAMIN, Esq., of Elmira.

In order to observe the total eclipse of the sun August 7, 1869, Mr. EDWIN C. LITCHFIELD presented a fine portable telescope, so that an expedition could be organized, and proceed from this Observatory to Des Moines, Iowa. The cost of the expedition was likewise defrayed by the liberality of Mr. LITCHFIELD. The telescope, the make of Messrs. STEINHEIL SONS, of Munich, has 4 (French) inches aperture, 5 feet focal length, and is mounted parallaxically on a solid iron tripod, with setting circles for right ascension and declination, and has also a tangent screw for following the daily motion of a star. It has two terrestrial and six astronomical eye-pieces, (varying in power from 40 to 360,) a ring and a scale micrometer, and a sliding wedge for moderating the light. There is, moreover, fitted to the eye tube a direct vision spectroscope, with five prisms, for analyzing the light of the sun and its protuberances. The telescope, when established in a proper location, it is thought, will be particularly useful for the exercises of students, who may make astronomy a special study.

The following nineteen Asteroids were first discovered at the Litchfield Observatory.

The Cabinets.

Geological and Mineralogical Cabinets, and Collections in Natural History, are also connected with the College, embracing the following, viz.:

1. 9,000 Specimens of Ores and Simple minerals.
2. 2,500 Specimens of Fossils and Rocks to illustrate the Geology of New York.
3. 1,000 Specimens to illustrate the Geology of the United States.
4. 600 Specimens of Fossils, mostly from the Silurian Formations of Europe.
5. 500 Specimens from the Coal Formations of the United States.
6. 250 Specimens from the New Red Sandstone Formation.
7. 600 Specimens of Crystallized Minerals from New York localities.
8. 2,000 Specimens of Land, Fresh Water, and Marine Shells.
9. 300 Specimens in Ornithology from China.
10. 13 Cases of Specimens in Entomology.

Sartwell Herbarium.

Through the liberality of the late HAMILTON WHITE, Esq., of Syracuse, the College Collections in Natural History have been enriched by the HERBARIUM collected by the late Dr. H. P. SARTWELL, of Penn Yan, and well known in scientific circles as a very extensive and valuable exhibition of our North American Flora. This HERBARIUM is the result of fifty years of botanical study, research and correspondence. It contains eight thousand samples of plants, skillfully cured, accurately labeled, and conveniently classified in sixty-two handsome volumes. Among the more unique or useful specimens are 451 *Mosses*, 226 *Lichens*, 341 *Sea-Weeds*, 600 *Fungi*, 575 *Ferns*, 314 *Grasses*, 200 *Ericaceae*.

The College Grounds.

The Park, in the midst of which the College edifices stand, embraces fifteen acres. This has been laid out in the Modern English method, with trees and shrubs scattered over it, singly and in groups, and with carriage-ways and foot-paths winding through its different parts giving a visitor a view of the entire surface. The trees, deciduous and evergreen, have been arranged chiefly with a view to their landscape effects, though a classification in families has not been wholly lost sight of. A Pinetum has been begun, in which a large number of the conifers, hardy in this climate, may already be found. Among the Elms, Maples, Lindens, Oaks, &c., are five or six species of each.

In those portions of the ground daily traversed by the students, plots have been laid off and devoted to shrubs, vines, and flowering plants, some of which are cultivated by the undergraduates.

It is the design of the Trustees and the Faculty to render the Park increasingly attractive from year to year. New trees and plants will be

HAMILTON COLLEGE.

added to the present collection as fast as they can be obtained. And for the more speedy accomplishment of this end, contributions are invited from the friends of the Institution. The Curators of the College Grounds are JOHN C. HASTINGS, Esq., Prof. OREN ROOT, and Rev. A. D. GRIDLEY. Communications on this subject may be addressed to either of these gentlemen.

Religious Instruction.

Morning Prayers, with reading of the Scriptures are attended daily in the College Chapel. Public services are attended in the Chapel on the Sabbath, when all the students are required to be present, except such as have permission to attend at other places of worship. On Sabbath and Tuesday evenings there are religious services which all the students are invited to attend. A Church has been organized on such principles as to embrace members from various Evangelical Denominations. For the promotion of their spiritual good and highest usefulness, it is desirable that all professors of religion coming to the Institution should bring letters and connect themselves with the College Church.

A systematic course of Biblical Instruction is arranged for the several classes, a statement of which may be found in the General View of the Studies of the Year.

The Society of Christian Research holds its meetings monthly, when reports are read on the condition of Christian Missions in various parts of the world, and questions of religious interest are discussed.

Prizes.

1. The interest of a Prize Fund of \$1,500, founded by CHARLES C. KINGSLEY, Esq., of Utica, will be given, in two Prizes, to members of the Senior Class who excel in *Extemporaneous Speaking*.

2. The interest of a Prize Fund of \$700, founded by CHARLES C. KELLOGG, Esq., of Utica, will be given, in one Prize, to any student of the Senior Class, except the successful competitors for the Clark Prize, the Pruyn Medal, the Head Prize and the Kirkland Prize, who shall excel in the composition and delivery of his *Commencement Oration*.

3. The interest of a Prize Fund of \$500, founded by the late Hon. AARON CLARK, of New York, will be given, in one Prize, to the student of the Senior Class who excels in *Oration*.

4. The interest of a Prize Fund of \$500, founded by Hon. J. V. L. PRUYN, LL. D., of Albany, Chancellor of the University of the State of New York, will be given in a Gold Medal, to any student of the Senior Class, except the successful competitors for the Head Prize, and the Kirkland Prize, who shall write the best Oration on "The Relations of Politics and Letters."

5. The interest of a Prize Fund of \$500, founded by Hon. FRANKLIN H. HEAD, of Elk Rapids, Mich., will be given to any student of the Senior

Class, except the successful competitors for the Pruyn Medal, and the Kirkland Prize, who shall write the best Oration on "Alexander Hamilton and Thomas Jefferson."

6. The interest of a Prize Fund of \$500, bequeathed by the late Mrs. ABIGAIL R. KIRKLAND, of Clinton, will be given to any student of the Senior Class, except the successful competitors for the Pruyn Medal, and the Head Prize, who shall write the best Oration on "The Mosaic Record of Creation, and Modern Science."

7. The interest of a Prize Fund of \$500, founded by the late Hon. GEORGE UNDERWOOD, of Auburn, will be given, in two Prizes, to members of the Senior Class who excel in *Chemistry*.

8. The interest of a Prize Fund of \$700, founded by CHARLES C. KINGSLEY, Esq., of Utica, will be awarded, in the form of valuable books, to the two students in each of the three lower classes who excel in Elocution; valuable books will also be given to the two in each class who excel in *English Composition*.

The Libraries.

The College and Society Libraries, amounting to 12,000 volumes, are accessible to students.

A few gentlemen in the city of New York a few years since presented to the College the private library of the late EDWARD ROBINSON, D. D., LL. D., of Union Theological Seminary. It consists of 1,420 volumes, and about 100 valuable maps; and furnishes rare facilities for the study of Biblical Exegesis and Scriptural Geography.

Hon. WILLIAM CURTIS NOYES, LL. D., a native of Oneida county, and an honorary alumnus of the College, after a life of eminent service, professional and political, bequeathed to Hamilton College his Law Library. The collection numbers about five thousand volumes. The books had been collected during a practice of over twenty-five years, at a cost of not less than sixty thousand dollars. "The collection consists of all the American Reports, with scarcely an exception, down to the present time; of all the English Reports in the Courts of Law and Chancery,

and in the Exchequer, down to the beginning of the year 1860 ; and all the Scotch decisions, in the Judiciary, Senior Courts, and House of Lords ; and the Irish Reports in Law and Equity.

In Elementary Law, it contains all the principal treaties in England and America, among which is the ' Law Library,' in all the series, in upwards of ninety volumes.

It contains a complete set, in upwards of seventy volumes, of the printed statutes of the Colony and State of New York, including the Session laws from the earliest period, commencing with a copy of Bradford's printed in London, in 1719, which formerly belonged to Lord De la Warr, and seems to have come from the plantation office in the colony."

The NOYES LIBRARY is at all times accessible to Members of the Bar.

A new building for the Library is completed. In honor of the principal contributor to the fund for its erection, Hon. PERRY H. SMITH, of Chicago, of the Class of 1846, the building is named the "*Perry H. Smith Library Hall.*" The alumni of the College in Illinois, Wisconsin and Iowa, have also been filial and generous in their gifts.

The building is two stories high above the basement : 75 feet long and 50 broad. The first floor above the basement is divided into the vestibule and hall, two rooms for the librarian, and the library proper. The alcoves in the library room are arranged in three tiers, one above another, and with the adjacent walls and the Librarian's rooms will furnish a place for 60,000 volumes. The library is lighted by windows in the side walls and by skylights.

Over the entrance hall and Librarian's rooms, there is an apartment for a Memorial Hall and Art Gallery, to contain tablets and portraits of the alumni and students of the College who have served their country ; also portraits and other memorials of the founders of the College, its officers and benefactors. Architect, EDWARD D. HARRIS, of the firm of RIDER & HARRIS, Boston.

The College has received a legacy of Five Thousand Dollars from the late Hon. PETER B. PORTER, of the Class of 1826, as an endowment for the care and increase of the Library. Acknowledgment is due to the brothers of the deceased for making this bequest immediately available.

Examinations.

1. Of all the Classes, at the close of the First Term.
2. Of all the Classes, at the close of the Second Term.
3. Of the Senior Class, four weeks previous to Commencement.
4. Of the other three Classes, the week previous to Commencement.
5. Of Delinquents at the beginning of each Term.

Tuition, \$20 per term.....	60 00	" 60 00
Amount	\$205 00	\$298 00

Special repairs according to damage committed.

In addition to the preceding, any damages voluntarily committed in the community of students, are charged to the individuals or classes committing them, when known; to the whole body of students when not known, under the name of Extra Contingent Expenses.

A student admitted to an advanced standing, unless from another College, is charged with a matriculation fee: to the Sophomore Class, \$7; to the Junior, \$10; to the Senior, \$12.

Payment of Bills.

It is provided by a resolution of the Board of Trustees:

1. THAT ALL STUDENTS BE REQUIRED TO PAY THEIR TERM BILLS IN ADVANCE, and that no student be admitted to the recitation room after the first week of the term, unless his bills have been paid or arranged to the satisfaction of the Treasurer.

2. That no student have an honorable dismissal from the College or certificate of his previous attendance in it, until all his bills are paid or satisfactorily secured.

HAMILTON COLLEGE.

3. That in extreme cases, a student whose circumstances render it necessary, and who shall present satisfactory testimonials of the fact to the Executive Committee, if he is a worthy member of College, and his undergraduate course is completed in this Institution, can have his bills for tuition remitted.

Second Degrees.

Graduates of three years' standing, are entitled to the degree of Master of Arts, on application to the President. The fee for the Degree and Diploma is \$5, payable in advance.

Absence from College.

The portion of the year allotted to vacations is so great as to render it quite unnecessary for students to visit their friends during the term, except for urgent and unforeseen reasons. The occasional loss of a day can not fail to have an unfavorable bearing on the intellectual habits and standing of the student. It is hoped that parents and guardians will concur with the Faculty in their opinion of the inexpediency of granting leave of absence in ordinary cases. During vacations, the College buildings are closed; and it is not thought desirable that students from abroad should remain in Clinton.

No deduction for absence will be made in the Term bills, where the student returns to the same class which he left.

Members of the Senior Class can not be graduated, unless they have been in attendance during two terms of the Senior year. No student is permitted to take part in the exercises of Commencement day, who has not spent the Third Term of his Senior year in College, and made his preparations also in College.

Teaching.

The Faculty keep a Register of Graduates and Undergraduates wishing engagements to teach, and will aim to nominate suitable candidates in reply to applications for teachers. Applicants for teachers should state definitely what service will be required, and what compensation will be paid.

Beneficiaries.

The interest of beneficiary funds, amounting to about \$3,000 per year will be annually distributed to needy students; preference being given to those of Christian character and good scholarship.

Students who are candidates for the Christian Ministry, may receive aid, if their circumstances require it, to the amount of from one hundred to one hundred and twenty dollars a year, by placing themselves under the care of the Presbyterian Church, or under that of the American Education Society.

Scholarships.

Sixteen permanent Scholarships, of \$1,000 each, have been recently established, and will be hereafter occupied by deserving students.

Hungerford Hall.

Through the liberality of JOHN N. HUNGERFORD, Esq., of Corning, the South College is now undergoing thorough repairs, after plans furnished by W. J. HAMILTON, of Utica. The renovated building will contain two large recitation rooms, eighteen feet in height, with convenient keepers' rooms on the first floor. Each of the new dormitories will have the best arrangements for lighting and ventilation. Outwardly the entire building will be restuccoed, and the chimnies and roof will be rebuilt in modern style. HUNGERFORD HALL will be ready for students before the beginning of 1874.

Determination of Standing.

1. Each Instructor keeps a record of all College exercises in his department, according to a scale of merit ranging from *ten* to *zero*.
2. If a student who is present and prepared to recite, is not called at any exercise, he receives a credit equal to the average of his actual performance for that term.
3. For each exercise from which a student is absent and not excused, he is marked zero.
4. In estimating the value of class exercises, promptness and regularity are regraded as a merit; and all exercises, performed out of their regular time are liable to a discount, if the circumstances seem to require it.

LAW DEPARTMENT.

REV. SAMUEL GILMAN BROWN, D. D., LL. D., PRESIDENT.

ELLICOTT EVANS, LL. D.,

MAYNARD PROFESSOR OF LAW, HISTORY, CIVIL POLITY AND POLITICAL ECONOMY.

The course of instruction in Law includes the thorough and careful study of the most approved text-books. Among these are Blackstone's and Kent's Commentaries, Parsons on Contracts, Washburn's Law of Real Estate, Greenleaf on Evidence, vol. 1st, and the Code of Procedure.

The great object aimed at is to store the mind of the student with the fundamental principles of the Law. This is to be accomplished in such a way that he can give, at any time, a full and accurate expression of legal rules. The text-books are to be so mastered that any question may be answered readily and with exactness. Reviews of previous exercises are often repeated, until the student becomes as familiar with the rudiments of Law as with the rudiments of a language. At each exercise every student is examined on the subject studied, and expected to give the results of the text in his own words.

The Professor connects oral and familiar lectures with each recitation, putting cases to the class, involving the principles of the text, and requiring a solution; and endeavoring in every manner which may suggest itself to quicken and interest the student by exciting his mind to continued action. Instead of the fitful and intermittent studies of the law office, pursued often in confusion and amidst other circumstances tending to distract the mind, the student studies law as he does any other science, with a systematic purpose and plan. Experience has proved by its unfailing tests, that on such a basis, underlying the superstructure of a careful practice, sound and accurate lawyers will be formed.

Any person of good moral character, who complies with the rules of the department, may join the class. The prescribed course of study for College graduates is one year; for those not graduated, one year and one-third. After having passed the regular course of study, and the examination prescribed by the rules of the College, the student is entitled to the degree of Bachelor of Laws. No other examination is necessary for

HAMILTON COLLEGE.

admission to the Bar. By the Laws of 1855, chap. 310, every graduate of the Law School is entitled to a certificate to practice as an Attorney and Counsellor of the Supreme Court. The terms of tuition are \$20 per term, or \$30 per year, with a graduation fee of \$5.

Students who do not wish to graduate, can remain any number of terms which they may choose, or study any one of the subjects embraced in the course. The order of studies in the principle subjects is: the Law of Contracts in the Fall term; of Real Estate, in the Winter term; of Real Estate completed, Evidence, etc., in the Spring term.

Text-books are furnished by the Institution, and loaned to the student without charge, with the exception of Blackstone and Kent.

5. The Orations will be delivered and the Medal and Prizes awarded on Commencement day.
6. The successful Orations will be retained for preservation in the College Library.

REGULATIONS

For the Nineteenth Curran Prize Examination,

WEDNESDAY, MARCH 25, 1874.

1. The Competition for the Curran and Hawley medals is open to members of the Junior Class.

2. The examination will be held in the Examination Hall, commencing at nine o'clock, and closing at two o'clock.

3. Each competitor is required to bring with him pens and ink, and a quire of "legal cap" paper.

4. Competitors are not allowed to bring with them any written or printed matter, any engravings or models for drawings, or to hold any communication with each other. A violation of this rule will vitiate the work of the one so doing.

5. Only one face of each half sheet is to be written upon, the other being left blank. There should also be an inch of margin on the left edge of each sheet.

6. The pages should be numbered at the top, with the student's name repeated beneath each number.

7. The several portions of the work should likewise be numbered according to the numbers of the printed questions.

8. At half-past one, notice will be given that competitors may review, correct, and finish their work. At two o'clock the papers are to be given up.

9. In estimating the merit of the student's work, two points will be especially considered :—

(1.) Exactness in rendering; fullness and accuracy of information on the subjects proposed.

(2.) Neatness, elegance, and logical arrangement in the exhibition and utterance of knowledge.

10. The kind of work to be done may be as follows, viz :

(1.) Translation from and into Greek, Latin and French.

(2.) Analysis of words, including derivation, synonymes, inflection and dialectic changes.

(3.) Analysis of sentences, with rules of construction, illustrative maps and drawings, and the answering of questions in history, geography and mythology.

(4.) Analysis of metres, including quantity, rhythms, and nomenclature.

(5.) Rules and practice of Greek accentuation.

(6.) Criticism on the style, spirit, and subject-matter of the authors quoted from.

REGULATIONS FOR THE EIGHTH
Tompkins Mathematical Prize Examination,

 2. The examination will be held in the Lecture Room of the Cabinet, beginning at nine o'clock, and closing at one.
 3. The work to be done will be the solution of ten problems, founded upon the mathematics of Sophomore year, and First term Junior.
 4. Each competitor must bring with him materials for writing, but no written or printed matter.
 5. Copies of the successful Prize Papers will be kept in the College Library.
-

REGULATIONS
For the Eighth Kingsley Prize Debate,
TUESDAY, JUNE 30, 1874.

1. The Eighth Kingsley Prize Debate will be held on the afternoon of the Tuesday preceding Commencement, under the direction of the Kingsley Professor of Rhetoric.
2. From the members of the Senior Class who have gained the highest average standing in extemporaneous speaking, during their Junior and Senior years, not more than six Prize Debaters will be appointed by the Faculty. Their names, with the question for debate, will be announced at the last session of the final Senior Examination. At the same time, the position of the debaters on the affirmative or negative, will be determined by lot.
3. At the Debate, the order in which the competitors on the affirmative and those on the negative are to be called, will each be determined by lot, publicly drawn at the time. Each competitor will be called twice; and will be allowed to speak from ten to fifteen minutes on the first call, and ten minutes on the second call.
4. A first prize of \$70.00, and a second prize of \$30.00, will be awarded by a committee of three gentlemen, not members of the Faculty; and the award will be announced at the close of the Kingsley Prize Declaration.

SOCIETY OF ALUMNI.

This Society is composed of graduates from the College, and those upon whom it has conferred honorary or *ad eundem* degrees. Among its objects is the encouragement of Science and Letters, more especially in their connection with Hamilton College. It has the use of an alcove in the College Library, to which donations are solicited of books, pamphlets and papers, whose authors are Alumni of Hamilton. It seeks also the promotion of friendly feeling and sympathy among its living members, and the rendering of fit honor to the departed. Its annual meeting is held on the evening preceding Commencement. Persons who can supply information appropriate to the Triennial Catalogue or the Obituary Record, are requested to communicate the same to the Necrologist.

General Information.

Admission.

It is required that the candidates for admission to the Freshman Class should not be less than fifteen years of age, with a corresponding increase for an advanced standing; that they furnish evidence of good moral character, and if from another College, a regular dismissal; and that they sustain a satisfactory examination on the PREPARATORY STUDIES, or, for an advanced class, on the several studies to which the class they propose to enter has attended. None can be admitted into the Senior Class after the winter vacation.

Preparatory Studies.

IN GREEK: Xenophon's *Anabasis*, two books; Homer's *Iliad*, two books; with the Greek Grammar, including prosody and the rules for pronunciation according to the Continental method.

IN LATIN: Cæsar's *Commentaries*, four books; Virgil's *Æneid*, six books with prosody; Cicero's *Select Orations*; Sallust's *Catiline*; and either Sallust's *Jugurthine War* or the *Eclogues* of Virgil; with the Latin Grammar and Arnold's *Latin Prose Composition*, twelve chapters.

IN MATHEMATICS: Arithmetic, Algebra to Equations of the second degree; Plane Geometry complete.

Candidates will also be examined in English Grammar, Ancient and Modern Geography, History of the United States, and in Greek and Roman Antiquities. A Regents' Certificate of Academic Scholarship will be excepted in lieu of an examination in English Studies.

ENTRANCE EXAMINATIONS are held at 9 o'clock, A. M., on Monday and Tuesday preceding Commencement, and on the last day of the ensuing vacation.

Candidates for admission to College should bring with them, to the Senior Class Room, pencils for writing, and a copy of each Greek and Latin Author in which they propose to be examined.

Course of Instruction.

The whole Course of Instruction occupies four years, and the Students, in all the classes, are usually required to attend three exercises on each day. The degree of BACHELOR OF ARTS is conferred upon Students who complete this Course.

The object of the course is to form the mind to habits of accurate discrimination, close reasoning, and vigorous application ; and, at the same time, furnish it with the leading facts and principles in Literature, Science, and the Arts.

The Following is a General View of the Studies of each Term.

FRESHMAN CLASS.

FIRST TERM, . . .	{	Homer's Odyssey— <i>Owen's</i> . Livy's History— <i>Lincoln's</i> . Latin Grammar reviewed. Algebra— <i>Robinson's New University</i> . Rhetoric : Elocution— <i>Mandeville's Elements of Reading and Oratory</i> . Bible : Acts of the Apostles— <i>Barnes' Notes</i> . English Composition and Declamation.

Lectures.

Lectures are delivered on those subjects, in the College Course, which are not more advantageously taught by the use of approved text-books, viz.:

TO THE SENIOR CLASS—on

Modern History, in the, First Term.
Geology and Mineralogy, Second Term.
Æsthetics, Second Term.
Political Economy, First Term.
History of the British Constitution, Second Term.
Experimental Chemistry, First Term.
Mental Philosophy, Second Term.
Moral Philosophy, Second Term.
History of Philosophy, Second Term.
Evidences of Christianity, Third Term.
Constitutional Law, Third Term.
International Law, Third Term.
Agricultural Chemistry, Third Term.

TO THE JUNIOR CLASS—on

American History, Legislative, Diplomatic and Political,
..... First Term.
Classical Literature, First Term.
Natural Philosophy, Second and Third Terms.
Greek Drama, Second Term.
Roman Drama, Second Term.
Astronomy, Third Term.
Biblical Literature, Second and Third Terms.
German Language and Literature, Third Term.

Greek Orators,	Second Term.
English Literature,	Second Term.
French Language and Literature,	Second Term.

TO THE FRESHMAN CLASS—on

Elocution,	First Term.
Methods of Study,	First Term.
Greek Poets,	Third Term.
Study of Latin, ..	First Term.

Rhetorical Exercises.

Weekly exercises in Composition and Extemporaneous Debate take place in the several classes. Besides these, on Wednesday and Saturday of each week, all the Students are required to attend public exhibitions in the Chapel, of Declamation, and of Original Essays, Disputes and Orations, under the direction and criticism of the Kingsley Professor of Rhetoric.

Chemistry.

Through the munificence of the late Mr. SILAS D. CHILDS, of Utica, the Chemical Laboratory has recently undergone extensive alterations, and is supplied with new and valuable apparatus.

The Senior Class, besides receiving instruction, both by lectures and recitations, in general Chemistry, will in accordance with the will of Mr. CHILDS, receive a thorough course of instruction in Chemistry as applied in Agriculture.

During a portion of the year, instruction in qualitative chemical analysis, or in other special branches of Chemistry, will be given to those members of the Senior Class who may choose to pursue such studies.

Apparatus and chemicals will be furnished to students at reasonable prices.

The facilities of the Laboratory are such, that those who may desire to continue the study of Chemistry, after their graduation, will have an opportunity.

Instruction may also be obtained in technical Chemistry by those not pursuing the regular College Course. The tuition for such students will be, \$20 per term.

The Laboratory is furnished with facilities for conducting Chemical investigations and analyses.

Natural Philosophy.

The department of Natural Philosophy has recently been established upon an independent footing, and is being supplied with the most approved apparatus as rapidly as possible. Members of the Class of '66

have presented, at an expense of about \$500, an induction coil, which with associated apparatus serves to illustrate the subject of induced electricity.

Astronomy.

As a means of giving more complete instruction in this Department, and also for the purpose of original observation, an Astronomical Observatory has been erected on the College grounds. The Astronomical Department and the Observatory have been very liberally endowed by the Hon. EDWIN C. LITCHFIELD, LL. D., of Brooklyn.

The Observatory consists of a central building, with wings on the east and west side. The central building, is twenty-seven feet square, and two stories high, surmounted by a revolving tower, twenty feet in diameter.

The great Equatorial in the tower, constructed by Spencer and Eaton, has an object-glass of 13.5 inches in diameter, and focal length of nearly sixteen feet; it is provided with six positive and six negative eye pieces, with a ring and a filar micrometer. For solar observations it has a prismatic polarizing eye-piece of original construction by Mr. Robert B. Tolles, of Boston, Mass. The declination circle of twenty-four inches, by means of four verniers, reads to four seconds of arc; the hour circle of fourteen inches, by means of two verniers, reads to two seconds of time. The instrument is mounted upon a granite shaft, nine feet in height, resting upon a pier of solid masonry. A clock work with *Bond's* isodynamic escapement and spring governor, causes the telescope to follow the daily motion of the stars, by acting upon long arms attached to the equatorial axis.

The wings are each eighteen feet square; the east room is used as an office for the Director. In the west room is mounted a portable Transit Instrument, of 2½ inches aperture, the gift of Hon. ANSON S. MILLER, LL. D., of Rockford, Ill., and constructed by W. Wurdemann, of Washington, D. C. It has a cast iron folding stand invented by the maker.

Near the Transit is an Astronomical Clock, constructed by William Bond & Son, Boston, and presented by the late Hon. WM. CURTIS NOYES, of New York. It is regulated for mean time, and provided with the break-circuit for telegraphic operations. By the side of the Clock is a Chronograph of Bond's most recent construction, and regulated by the spring governor, presented by MICHAEL MOORE, Esq., of Trenton Falls. These instruments have been connected by a telegraphic wire with the nearest station; and the longitude of the Observatory has thus been accurately determined by exchanging star signals with the Harvard College Observatory, at Cambridge, Mass.

In its turn, the Litchfield Observatory already has become the basis of several longitudes in the State, determined under the auspices of the Regents of the University, at Buffalo, Syracuse, Elmira, Ogdensburg, and of the longitude of the Detroit Observatory at Ann Arbor, Mich., which latter forms the fundamental point for the longitudes of the Lake

HAMILTON COLLEGE.

Survey. The latest work of this kind has been to determine the longitude of the western boundary of the State of New York.

Besides, the Observatory possesses a Sidereal Chronometer, constructed by the same makers, with Hartnup's improved compensation balance; this instrument was the gift of the late Hon. GEORGE UNDERWOOD, of Auburn.

A Morse Telegraph Apparatus also has been presented by Mr. S. W. CHUBBUCK, of Utica, and an Aneroid Barometer, by the late SIMEON BENJAMIN, Esq., of Elmira.

In order to observe the total eclipse of the sun August 7, 1869, Mr. EDWIN C. LITCHFIELD presented a fine portable telescope, so that an expedition could be organized, and proceed from this Observatory to Des Moines, Iowa. The cost of the expedition was likewise defrayed by the liberality of Mr. LITCHFIELD. The telescope, the make of Messrs. STEINHEIL SONS, of Munich, has 4 (French) inches aperture, 5 feet focal length, and is mounted parallaxically on a solid iron tripod, with setting circles for right ascension and declination, and has also a tangent screw for following the daily motion of a star. It has two terrestrial and six astronomical eye-pieces, (varying in power from 40 to 360,) a ring and a scale micrometer, and a sliding wedge for moderating the light. There is, moreover, fitted to the eye tube a direct vision spectroscope, with five prisms, for analyzing the light of the sun and its protuberances. The telescope, when established in a proper location, it is thought, will be particularly useful for the exercises of students, who may make astronomy a special study.

The following twenty Asteroids were first discovered at the Litchfield Observatory.

- 72, FERONIA, May 29, 1861,
- 75, EURYDICE, September 22, 1862,

The Cabinets.

Geological and Mineralogical Cabinets, and Collections in Natural History, are also connected with the College, embracing the following, viz.:

1. 9,000 Specimens of Ores and Simple minerals.
2. 2,500 Specimens of Fossils and Rocks to illustrate the Geology of New York.
3. 1,000 Specimens to illustrate the Geology of the United States.
4. 600 Specimens of Fossils, mostly from the Silurian Formations of Europe.
5. 500 Specimens from the Coal Formations of the United States.
6. 250 Specimens from the New Red Sandstone Formation.
7. 600 Specimens of Crystalized Minerals from New York localities.
8. 2,000 Specimens of Land, Fresh Water, and Marine Shells.
9. 300 Specimens in Ornithology from China.
10. 13 Cases of Specimens in Entomology.

Sartwell Herbarium.

Through the liberality of the late HAMILTON WHITE, Esq., of Syracuse, the College Collections in Natural History have been enriched by the HERBARIUM, collected by the late Dr. H. P. SARTWELL, of Penn Yan, and well known in scientific circles as a very extensive and valuable exhibition of our North American Flora. This HERBARIUM is the result of fifty years of botanical study, research and correspondence. It contains eight thousand samples of plants, skillfully cured, accurately labeled, and conveniently classified in sixty-two handsome volumes. Among the more unique or useful specimens are 451 *Mosses*, 226 *Lichens*, 341 *Sea-Weeds*, 600 *Fungi*, 575 *Ferns*, 314 *Grasses*, 200 *Ericaceæ*.

Religious Instruction.

Morning Prayers, with reading of the Scriptures are attended daily in the College Chapel. Public services are attended in the Chapel on the Sabbath, when all the students are required to be present, except such as have permission to attend at other places of worship. On Sabbath and Tuesday evenings there are religious services which all the students are invited to attend. A Church has been organized on such principles as to embrace members from various Evangelical Denominations. For the promotion of their spiritual good and highest usefulness, it is desirable that all professors of religion coming to the Institution should bring letters and connect themselves with the College Church.

A systematic course of Biblical Instruction is arranged for the several classes, a statement of which may be found in the General View of the Studies of the Year.

The Society of Christian Research holds its meetings monthly, when reports are read on the condition of Christian Missions in various parts of the world, and questions of religious interest are discussed.

Prizes.

1. The interest of a Prize Fund of \$1,500, founded by CHARLES C. KINGSLEY, Esq., of Utica, will be given, in two Prizes, to members of the Senior Class who excel in *Extemporaneous Speaking*.

2. The interest of a Prize Fund of \$700, founded by CHARLES C. KELLOGG, Esq., of Utica, will be given, in one Prize, to any student of the Senior Class, except the successful competitors for the Clark Prize, the Pruyn Medal, the Head Prize and the Kirkland Prize, who shall excel in the composition and delivery of his *Commencement Oration*.

3. The interest of a Prize Fund of \$500, founded by the late Hon. AARON CLARK, of New York, will be given, in one Prize, to the student of the Senior Class who excels in *Oratory*.

4. The interest of a Prize Fund of \$500, founded by Hon. J. V. L. PRUYN, LL. D., of Albany, Chancellor of the University of the State of New York, will be given in a Gold Medal, to any student of the Senior Class, except the successful competitors for the Head Prize, and the Kirkland Prize, who shall write the best Oration on "English and American Statesmanship."

5. The interest of a Prize Fund of \$500 founded by Hon. FRANKLIN H. HEAD, of Elk Rapids, Mich., will be given to any student of the Senior Class, except the successful competitors for the Pruyn Medal, and the Kirkland Prize, who shall write the best Oration on "Alexander Hamilton and Thomas Jefferson." "The French Revolution and the Political Views of Alexander Hamilton."

6. The interest of a Prize Fund of \$500, bequeathed by the late Mrs. ABIGAIL R. KIRKLAND, of Clinton, will be given to any student of the Senior Class, except the successful competitors for the Pruyn Medal, and the Head Prize, who shall write the best Oration on "The Bible of Supernatural Origin."

7. The interest of a Prize Fund of \$500 founded by the late Hon. GEORGE UNDERWOOD, of Auburn, will be given, in two Prizes, to members of the Senior Class who excel in *Chemistry*.

8. The interest of a Prize Fund of \$700 founded by CHARLES C. KINGSLEY, Esq., of Utica, will be awarded, in the form of valuable books, to the two students in each of the three lower classes who excel in Elocution; valuable books will also be given to the two in each class who excel in *English Composition*.

9. The interest of a Prize Fund of \$700 founded by relatives of the late Col. HENRY H. CURRAN, of Utica, will be given, in two Medals, to members of the Junior Class who excel in *Classical Studies*.

10. The interest of a Prize Fund of \$500, founded by MARTIN HAWLEY, Esq., of Baltimore, Md., will be given, in Silver Medals to members, of the Junior Class who excel in *Classical Studies*.

11. The interest of a Prize Fund of \$500, founded by the late Rev. TERTIUS D. SOUTHWORTH, of Bridgewater, will be given, in two Prizes, to members of the Junior Class who excel in *Natural Philosophy*.

12. The interest of a Prize Fund of \$600, founded by HAMILTON B. TOMPKINS, Esq., of New York City, will be given, in two Prizes, to members of the Junior Class who excel in *Mathematics*.

The Libraries.

The College and Society Libraries, amounting to 12,000 volumes, are accessible to students.

A few gentlemen in the city of New York a few years since presented to the College the private library of the late EDWARD ROBINSON, D. D., LL. D., of Union Theological Seminary. It consists of 1,420 volumes, and about 100 valuable maps; and furnishes rare facilities for the study of Biblical Exegesis and Scriptural Geography.

Hon. WILLIAM CURTIS NOYES, LL. D., a native of Oneida county; and an honorary alumnus of the College, after a life of eminent service, professional and political, bequeathed to Hamilton College his Law Library. The collection numbers about five thousand volumes. The books had been collected during a practice of over twenty-five years, at a cost of not less than sixty thousand dollars. "The collection consists of all the American Reports, with scarcely an exception, down to the present time; of all the English Reports in the Courts of Law and Chancery, and in the Exchequer, down to the beginning of the year 1860; and all the Scotch decisions, in the Judiciary, Senior Courts and House of Lords; and the Irish Reports in Law and Equity.

In Elementary Law, it contains all the principle treatises in England and America, among which is the 'Law Library,' in all the series, in upwards of ninety volumes.

It contains a complete set, in upwards of seventy volumes, of the printed statutes of the Colony and State of New York, including the Session laws from the earliest period, commencing with a copy of Bradford's printed in London, in 1719, which formerly belonged to Lord De la Warr, and seems to have come from the plantation office in the colony."

The NOYES LIBRARY is at all times accessible to Members of the Bar.

A new building for the Library is completed. In honor of the principal contributor to the fund for its erection, Hon. PERRY H. SMITH, of Chicago, of the Class of 1843, the building is named the "*Perry H. Smith Library Hall*." The alumni of the College in Illinois, Wisconsin, and Iowa, have also been filial and generous in their gifts.

The building is two stories high above the basement: 75 feet long and 50 broad. The first floor above the basement is divided into the vestibule and hall, two rooms for the librarian, and the library proper. The alcoves in the library room are arranged in three tiers, one above another, and with the adjacent walls and the Librarian's rooms will furnish a place for 60,000 volumes. The library is lighted by windows in the side walls and by skylights.

Over the entrance hall and Librarian's rooms, there is an apartment for a Memorial Hall and Art Gallery, to contain tablets and portraits of

HAMILTON COLLEGE.

the alumni and students of the College who have served their country; also portraits and other memorials of the founders of the College, its officers and benefactors.

The College has received a legacy of Five Thousand Dollars from the late Hon. PETER B. PORTER, of the Class of 1826, as an endowment for the care and increase of the Library. Acknowledgment is due to the brothers of the deceased for making this bequest immediately available.

Examinations.

1. Of all the Classes, at the close of the First Term.
2. Of all the Classes, at the close of the Second Term.
3. Of the Senior Class, four weeks previous to Commencement.
4. Of the other three Classes, the week previous to Commencement.
5. Of Delinquents, at the beginning of each Term.
6. Of Curran Prize Competitors, on the last Thursday in March.
7. Of Candidates for admission at each Commencement and at the opening of each Term.

Public Exhibitions.

1. Junior Exhibition, at the close of the Second Term.
2. Clark Prize Exhibition, on the First Wednesday in June.
3. Kingsley Prize Debate, Tuesday preceding Commencement.
4. Kingsley Prize Declamation, on the Monday evening preceding Commencement.
5. Commencement, on the Thursday after the last Tuesday in June.

Terms.

1. From the first Thursday in September, fourteen weeks.
2. From the second Thursday in January, twelve weeks.
3. From the third Thursday in April to Commencement.

Expenses.

Board, from \$3.00 to \$5.00 per week	\$114 00	to	\$190 00
Fuel and Lights	10 00	"	15 00
Rent for Rooms unfurnished, from \$2 to \$12 per term	6 00	"	36 00
Ordinary repairs: sweeping and heating the public rooms, \$5 per term	15 00	"	15 00
Tuition, \$20 per term	60 00	"	60 00
Amount	\$205 00		\$316 00

Special repairs according to damage committed.

In addition to the preceding, any damages voluntarily committed in the community of students, are charged to the individuals or classes committing them, when known; to the whole body of students when not known, under the name of Extra Contingent Expenses.

A student admitted to an advanced standing, unless from another College, is charged with a matriculation fee: to the Sophomore Class, \$7; to the Junior, \$10; to the Senior, \$12.

Payment of Bills.

It is provided by a resolution of the Board of Trustees:

1. THAT ALL STUDENTS BE REQUIRED TO PAY THEIR TERM BILLS IN ADVANCE, and that no student be admitted to the recitation room after the first week of the term, unless his bills have been paid or arranged to the satisfaction of the Treasurer.

2. That no student have an honorable dismissal from the College or certificate of his previous attendance in it, until all his bills are paid or satisfactorily secured.

3. That in extreme cases, a student whose circumstances render it necessary, and who shall present satisfactory testimonials of the fact to the Executive Committee, if he is a worthy member of College, and his undergraduate course is completed in this Institution, can have his bills for tuition remitted.

Second Degrees.

Graduates of three years' standing, are entitled to the degree of Master of Arts, on application to the President. The fee for the Degree and Diploma is \$5, payable in advance.

Absence from College.

The portion of the year allotted to vacations is so great as to render it quite unnecessary for students to visit their friends during the term, except for urgent and unforeseen reasons. The occasional loss of a day can not fail to have an unfavorable bearing on the intellectual habits and standing of the student. It is hoped that parents and guardians will concur with the Faculty in their opinion of the inexpediency of granting leave of absence in ordinary cases. During vacations, the College buildings are closed; and it is not thought desirable that students from abroad should remain in Clinton.

No deduction for absence will be made in the Term bills, where the student returns to the same class which he left.

Members of the Senior Class can not be graduated, unless they have been in attendance during two terms of the Senior year. No student is permitted to take part in the exercises of Commencement day, who has not spent the Third Term of his Senior year in College, and made his preparations also in College.

Teaching.

The Faculty keep a Registry of Graduates and Undergraduates wishing engagements to teach, and will aim to nominate suitable candidates in reply to applications for teachers. Applicants for teachers should state definitely what service will be required, and what compensation will be paid.

Beneficiaries.

The interest of beneficiary funds, amounting to about \$3,000 per year will be annually distributed to needy students; preference being given to those of Christian character and good scholarship.

During the past year, the College has received a memorial gift of \$5,000, from Mrs. SARAH E. BEARD, Fayetteville, N. Y.

This has been invested as one of the beneficiary funds for the aid of deserving students, and named "THE CHARLES E. HALE FUND," in memory of a deceased son of Mrs. BEARD.

Students who are candidates for the Christian Ministry, may receive aid, if their circumstances require it, to the amount of from one hundred to one hundred and twenty dollars a year, by placing themselves under the care of the Presbyterian Church, or under that of the American Education Society.

Scholarships.

Sixteen permanent Scholarships, of \$1,000 each, have been recently established, and will be hereafter occupied by deserving students.

Hungerford Hall.

Through the liberality of JOHN N. HUNGERFORD, Esq., of Corning, the South College has been thoroughly repaired, after plans furnished by W. J. HAMILTON, of Utica. The renovated building contains two large recitation rooms, eighteen feet in height, with convenient keepers' rooms on the first floor. Each of the new dormitories has the best arrangements for lightning and ventilation. Outwardly the entire building has been restuccoed, and the chimnies and roof rebuilt in modern style. The cost of these improvements was about \$15,000.

Determination of Standing.

1. Each Instructor keeps a record of all College exercises in his department, according to a scale of merit ranging from *ten* to *zero*.

2. If a student who is present and prepared to recite, is not called at any exercise, he receives a credit equal to the average of his actual performance for that term.

3. For each exercise from which a student is absent and not excused, he is marked zero.

4. In estimating the value of class exercises, promptness and regularity are regarded as a merit; and all exercises, performed out of their regular time are liable to a discount, if the circumstances seem to require it.

Law Department.

REV. SAMUEL GILMAN BROWN, D. D., LL. D.,

PRESIDENT.

ELLICOTT EVANS, LL. D.,

Maynard PROFESSOR OF LAW, HISTORY, CIVIL POLITY,
AND POLITICAL ECONOMY.

The course of instruction in Law includes the thorough and careful study of the most approved text-books. Among these are Blackstone's and Kent's Commentaries, Parsons on Contracts, Washburn's Law of Real Estate, Greenleaf on Evidence, vol. 1st, and the Code of Precedure.

The great object aimed at is to store the mind of the student with the fundamental principles of the Law. This is to be accomplished in such a way that he can give, at any time, a full and accurate expression of legal rules. The text-books are to be so mastered that any question may be answered readily and with exactness. Reviews of previous exercises are often repeated, until the student becomes as familiar with the rudiments of Law as with the rudiments of a language. At each exercise every student is examined on the subject studied, and expected to give the result of the text in his own words.

The Professor connects oral and familiar lectures with each recitation, putting cases to the class, involving the principles of the text, and requiring a solution; and endeavoring in every manner which may suggest itself to quicken and interest the student by exciting his mind to continued action. Instead of the fitful and intermittent studies of the law office, pursued often in confusion and amidst other circumstances tending to distract the mind, the student studies law as he does any other science, with a systematic purpose and plan. Experience has proved by its unfailing tests, that on such a basis, underlying the superstructure of a careful practice, sound and accurate lawyers will be formed.

Any person of good moral character, who complies with the rules of the department, may join the class. The prescribed course of study for College graduates is one year; for those not graduated, one year and one-

third. After having passed the regular course of study, and the examination prescribed by the rules of the College, the student is entitled to the degree of Bachelor of Laws. No other examination is necessary for admission to the Bar. By the Laws of 1855, chap. 310, every graduate of the Law School is entitled to a certificate to practice as an Attorney and Counsellor of the Supreme Court. The terms of tuition are \$20 per term, or \$60 per year, with a graduation fee of \$5.

Students who do not wish to graduate, can remain any number of terms which they may choose, or study any one of the subjects embraced in the course. The order of studies in the principle subjects is: the Law of Contracts, in the Fall term; of Real Estate, in the Winter term; of Real Estate completed, Evidence, etc., in the Spring term.

Text-books are furnished by the Institution, and loaned to the student without charge, with the exception of Blackstone and Kent.

Memorial Hall and Art Gallery.

By the action of the Executive Committee, Rev. A. D. GRIDLEY and Prof. EDWARD NORTH have been appointed a Standing Committee, to have special charge of the Memorial Hall and Art Gallery.

It is proposed to enlarge the scope of the collections in Memorial Hall. Contributions are solicited of historical paintings, landscapes, plaster casts, figures in bronze, engravings, ancient coins, and other works of art, along with portraits of distinguished Alumni, and of Officers and Benefactors of the College. The following list of Portraits now in Memorial Hall, will indicate that a good beginning for an Art Gallery has been made, and that the way is auspiciously opened for additional gifts.

THE COLLEGE GROUNDS.

The Park in the midst of which the College buildings stand, embraces fifteen acres. The trees which adorn it were planted at different times. The Lombardy poplars were set out between the years of 1805 and 1812, by Rev. SAMUEL KIRKLAND and President BACKUS; the older elms in 1830, by OTNIEL WILLIAMS, Esq., then treasurer of the College; and the groups of maples and ashes directly in front of the dormitories, in 1836, by President PENNY.

In the year 1853, the grounds were enlarged and laid out anew according to the modern English method. It was the design of the committee having this matter in charge, to obtain specimens of every tree and shrub supposed to be hardy in the climate of central New York. A Pinetum was also begun, in which a large variety of conifers have been planted. Labels have recently been affixed to many of the rarer trees and shrubs, showing the scientific name of each, together with its popular name and habitat. In those portions of the grounds daily traversed by the students, plots have been devoted to the culture of shrubs and flowering plants. Within a few years past, the campus has been invested with a new interest, by the planting of memorial trees by the successive graduating classes, and the erection of memorial stones, sun-dials, classic vases and garden seats.

It is the design of the Trustees and Faculty, to render this Park increasingly attractive. New trees and plants will be added to the present collection, as fast as they can be obtained. And for the more speedy accomplishment of this end, contributions are invited from the friends of the Institution. The Curators of the College grounds are Prof. OREN ROOT, JOHN C. HASTINGS, Esq., and Rev. A. D. GRIDLEY. Communications on this subject may be addressed to either of these gentlemen.

Of the trees which have thus far proved tender in this climate, the following may be named among evergreens:—

Cypress, Lawson's	Cupressus Lawsoniana.
Pine, Lofty Bhotan	Pinus excelsa.
Silver Fir, Cephalonian	Picea Cephalonica.

REGULATIONS.

1. Any member of the Senior Class, in actual attendance during the First Term, may write upon the subjects assigned; but only one prize will be awarded to the same person.
2. Each Oration must contain not more than twelve folios; it must be signed with a fictitious name, and this name superscribed upon a sealed note containing the author's real name.
3. The Orations must be left with the President before 12 o'clock on Friday, the second day of the Second Term.
4. The best Oration on each subject will be selected by the Faculty and the names of the successful competitors announced before the close of the Second Term.
5. The Orations will be delivered and the Medal and Prizes awarded on Commencement day.
6. The successful Orations will be retained for preservation in the College Library.

REGULATIONS

For the Twentieth Curran Prize Examination,

THURSDAY, MARCH 25, 1875.

1. The Competition for the Curran and Hawley medals is open to members of the Junior Class.

2. The examination will be held in the Examination Hall, commencing at nine o'clock, and closing at two o'clock.

3. Each competitor is required to bring with him pens and ink, and a quire of "legal cap" paper.

4. Competitors are not allowed to bring with them any written or printed matter, any engravings or models for drawings, or to hold any communication with each other. A violation of this rule will vitiate the work of the one so doing.

5. Only one face of each half sheet is to be written upon, the other being left blank. There should also be one inch of margin on the left edge of each sheet.

6. The pages should be numbered at the top, with the student's name repeated beneath each number.

7. The several portions of the work should likewise be numbered according to the numbers of the printed questions.

8. At half-past one, notice will be given that competitors may review, correct, and finish their work. At two o'clock the papers are to be given up.

9. In estimating the merit of the student's work, two points will be especially considered :—

(1.) Exactness in rendering ; fullness and accuracy of information on the subjects proposed.

(2.) Neatness, elegance, and logical arrangement in the exhibition and utterance of knowledge.

10. The kind of work to be done may be as follows, viz :

(1.) Translation from and into Greek, Latin and French.

(2.) Analysis of words, including derivation, synonymes, inflection and dialectic changes.

(3.) Analysis of sentences, with rules of construction, illustrative maps and drawings, and the answering of questions in history, geography and mythology.

(4.) Analysis of metres, including quantity, rhythms, and nomenclature.

(5.) Rules and practice of Greek accentuation.

(6.) Criticism on the style, spirit, and subject-matter of the authors quoted from.

REGULATIONS FOR THE EIGHTH
Tompkins Mathematical Prize Examination,

SATURDAY, NOVEMBER 28, 1874.

1. Members of the Junior Class intending to compete at the Tompkins Mathematical Prize Examination, must make known their intention to the Professor of Mathematics, on or before the second Saturday of the First Term.

2. The examination will be held in the Lecture Room of the Cabinet, beginning at nine o'clock, and closing at one.

3. The work to be done will be the solution of ten problems, founded upon the mathematics of Sophomore year, and first term Junior.

4. Each competitor must bring with him materials for writing, but no written or printed matter.

5. Copies of the successful Prize Papers will be kept in the College Library.

REGULATIONS

For the Ninth Kingsley Prize Debate,

TUESDAY, JUNE 29, 1875.

1. The Ninth Kingsley Prize Debate will be held on the afternoon of the Tuesday preceding Commencement, under the direction of the Kingsley Professor of Rhetoric.

2. From the members of the Senior Class who have gained the highest average standing in extemporaneous speaking, during their Junior and Senior years, not more than six Prize Debaters will be appointed by the Faculty. Their names, with the question for debate, will be announced at the last session of the final Senior Examination. At the same time, the position of the debaters on the affirmative or negative, will be determined by lot.

3. At the Debate, the order in which the competitors on the affirmative and those on the negative are to be called, will each be determined by lot, publicly drawn at the time. Each competitor will be called twice; and will be allowed to speak from ten to fifteen minutes on the first call, and ten minutes on the second call.

4. A first prize of \$70.00, and a second prize of \$30.00, will be awarded by a committee of three gentlemen, not members of the Faculty; and the award will be announced at the close of the debate.

SOCIETY OF ALUMNI.

— • • —

This Society is composed of graduates from the College, and those upon whom it has conferred honorary or *ad eundem* degrees. Among its objects is the encouragement of Science and Letters, more especially in their connection with Hamilton College. It has the use of an alcove in the College Library, to which donations are solicited of books, pamphlets and papers, whose authors are Alumni of Hamilton. It seeks also the promotion of friendly feeling and sympathy among its living members, and the rendering of fit honor to the departed. Its annual meeting is held on the day preceding Commencement. Persons who can supply information appropriate to the Triennial Catalogue or the Obituary Record, are requested to communicate the same to the Necrologist.

At the last meeting of the Board of Trustees, Rev. Dr. KENDALL, in behalf of a committee previously appointed, reported a plan for the election of a number of the trustees by the alumni. After debate and some modification, the following plan was adopted, and will go into effect when approved by the Regents of the University of the State of New York.

PROPOSED AMENDMENT TO THE CHARTER OF HAMILTON COLLEGE.

Section 1. On the day preceding the next annual commencement of Hamilton College, at twelve o'clock, noon, an election shall be held in the Presbyterian church, in the village of Clinton, to choose four additional trustees of said college. Such election shall be by ballot, either in person or by proxy, and every graduate of the college of three or more years' standing shall be entitled to vote at such election. All graduates of the college of not less than ten years' standing and resident in the United States shall be eligible to this office, and the four persons elected by a majority of votes cast, shall possess the same powers and perform the same duties as the other trustees of said college. Immediately after the election, the trustees so chosen shall be so classified that the term of office of one of them shall expire with the close of Commencement day, the next year after an election, another the second, another the third, the other the fourth.

In case of a failure to elect at the first casting of the votes, further balloting shall forthwith take place, until an election shall be secured.

Section 2. On the day preceding each subsequent Commencement, an election shall be held to choose one trustee to fill the place of the person whose term of service is about to expire. The person so chosen by a majority of votes cast, shall hold his office for the term of four years, and all of the provisions of the first section of this ordinance relating to the qualifications of voters and the eligibility of candidates shall be applicable to all such elections, and whenever a vacancy shall occur from death, resignation, or any other cause, another person may be elected in like manner, to fill the office of trustee for the remainder of the term in which a vacancy has occurred.

HAMILTON COLLEGE.

Section 3. The trustees of the College shall appoint inspectors of all such elections, and may prescribe rules and regulations for conducting and the time and place of holding such elections, and canvassing the votes and declaring the result, as they may deem proper. They shall also provide for the classification of the trustees to be elected in pursuance of the first section of this ordinance.

Section 4. Thirteen trustees shall hereafter constitute a sufficient number for the transaction of business.

General Information.

Admission.

It is required that candidates for admission to the Freshmen Class should not be less than fifteen years of age, with a corresponding increase for an advanced standing; that they furnish evidence of good moral character, and if from another College, a regular dismissal; and that they sustain a satisfactory examination on the PREPARATORY STUDIES, or, for an advanced class, on the several studies to which the class they propose to enter has attended. None can be admitted into the Senior Class after the winter vacation.

Preparatory Studies.

IN GREEK: Xenophon's *Anabasis*, two books; Homer's *Iliad*, two books; with the Greek Grammar, including prosody and the rules for pronunciation according to the Continental method.

IN LATIN: Cæsar's *Commentaries*, four books; Virgil's *Æneid*, six books with prosody; Cicero's *Select Orations*; Sallust's *Catiline*; and either Sallust's *Jugurthine War* or the *Eclogues* of Virgil; with the Latin Grammar and Arnold's *Latin Prose Composition*, twelve chapters.

IN MATHEMATICS: Arithmetic, Algebra to Equations of the second degree; Plane Geometry complete.

Candidates will also be examined in English Grammar, Ancient and Modern Geography, History of the United States, and in Greek and Roman Antiquities. A Regents' Certificate of Academic Scholarship will be accepted in lieu of an examination in English Studies.

ENTRANCE EXAMINATIONS are held at 9 o'clock, A. M., on Monday and Tuesday preceding Commencement, and on the last day of the ensuing vacation.

Candidates for admission to College should bring with them, to the Senior Class Room, pencils for writing, and a copy of each Greek and Latin Author in which they propose to be examined.

Course of Instruction.

The whole Course of Instruction occupies four years, and the Students, in all the classes, are usually required to attend three exercises on each day. The degree of BACHELOR OF ARTS is conferred upon Students who complete this Course.

The object of the course is to form the mind to habits of accurate discrimination, close reasoning, and vigorous application; and, at the same time, furnish it with the leading facts and principles in Literature, Science and the Arts.

Rhetorical Exercises.

Weekly exercises in Composition and Extemporaneous Debate take place in the several classes. Besides these, on Wednesday and Saturday of each week, all the Students are required to attend public exhibitions in the Chapel, of Declamation, and of Original Essays, Disputes and Orations, under the direction and criticism of the Kingsley Professor of Rhetoric.

Chemistry.

Through the munificence of the late Mr. SILAS D. CHILDS, of Utica, the Chemical Laboratory has recently undergone extensive alterations, and is supplied with new and valuable apparatus.

The Senior Class, besides receiving instruction, both by lectures and recitations, in general Chemistry, will in accordance with the will of Mr. CHILDS, receive a thorough course of instruction in Chemistry as applied in Agriculture.

During a portion of the year, instruction in qualitative chemical analysis, or in other special branches of Chemistry, will be given to those members of the Senior Class who may choose to pursue such studies.

Apparatus and chemicals will be furnished to students at reasonable prices. The facilities of the Laboratory are such, that those who may desire to continue the study of Chemistry, after their graduation, will have an opportunity. Instruction may also be obtained in technical Chemistry by those not pursuing the regular College Course. The tuition for such students will be \$20 per term. The Laboratory is furnished with facilities for conducting Chemical investigations and analyses.

Natural Philosophy.

The department of Natural Philosophy has recently been established upon an independent footing, and is being supplied with the most approved apparatus as rapidly as possible. Members of the Class of '66 have presented at an expense of about \$500, an induction coil, which with associated apparatus serves to illustrate the subject of induced electricity.

Astronomy.

As a means of giving more complete instruction in this Department, and also for the purpose of original observation, an Astronomical Observatory has been erected on the College grounds. The Astronomical Professorship and the Observatory have been very liberally endowed by the Hon. EDWIN C. LITCHFIELD, LL. D., of Brooklyn. The generosity of Dr. WILLIAM V. V. ROSA, of Watertown, enables the Trustees to secure valuable aid to the Litchfield Director, by the appointment of Mr. JERMAIN G. PORTER, A. B., of the class of 1873.

The Observatory consists of a central building, with wings on the east and west side. The central building, is twenty-seven feet square, and two stories high, surmounted by a revolving tower, twenty feet in diameter. The great Equatorial in the tower, constructed by Spencer and Eaton, has an object-glass of 13.5 inches in diameter, and focal length of nearly sixteen feet; it is provided with six positive and six negative eye pieces, with a ring and a filiar micrometer. For solar observations it has a prismatic polarizing eye-piece of original construction by Mr. Robert B. Tolles, of Boston, Mass. The declination circle of twenty-four inches, by means of four verniers, reads to four seconds of arc; the hour circle of fourteen inches, by means of two verniers, reads to two seconds of time. The instrument is mounted upon a granite shaft, nine feet in height, resting upon a pier of solid masonry. A clock work with *Bond's* isodynamic escapement and spring governor, causes the telescope to follow the daily motion of the stars, by acting upon long arms attached to the equatorial axis. The wings are each eighteen feet square; the east room is used as an office for the Director. In the west room is mounted a portable Transit Instrument, of $2\frac{1}{2}$ inches aperture, the gift of Hon. ANSON S. MILLER, LL. D., of Rockford, Ill., and constructed by W. Wurdeman of Washington, D. C. It has a cast iron folding stand invented by the maker.

Near the Transit is an Astronomical Clock, constructed by William Bond & Son, Boston, and presented by the late Hon. WM. CURTIS NOYES, of New York. It is regulated for mean time, and provided with the break-circuit for telegraphic operations. By the side of the Clock is a Chronograph of Bond's most recent construction, and regulated by the spring governor, presented by MICHAEL MOORE, Esq., of Trenton Falls. These instruments have been connected by a telegraphic wire with the nearest station; and the longitude of the Observatory has thus been accurately determined by exchanging star signals with the Harvard College Observatory, at Cambridge, Mass.

In its turn, the Litchfield Observatory already has become the basis of several longitudes in the State, determined under the auspices of the Regents of the University at Buffalo, Syracuse, Elmira, Ogdensburgh, and of the longitude of the Detroit Observatory at Ann Harbor, Mich., which latter forms the fundamental point for the longitudes of the Lake Survey. The latest work of this kind has been to determine the longitude of the western boundary of the State of New York.

HAMILTON COLLEGE.

Besides, the Observatory has a Sidereal Chronometer, constructed by the same makers, with Hartnup's improved compensation balance; this instrument was the gift of the late Hon. GEORGE UNDERWOOD, of Auburn.

A Morse Telegraph Apparatus also has been presented by Mr. S. W. CHUBBUCK, of Utica, and an Aneroid Barometer, by the late SIMEON BENJAMIN, Esq., of Elmira.

In order to observe the total eclipse of the sun August 7, 1869, Mr. EDWIN C. LITCHFIELD, presented a fine portable telescope, so that an expedition could be organized, and proceed from this Observatory to Des Moines, Iowa. The cost of the expedition was likewise defrayed by the liberality of Mr. LITCHFIELD. The telescope, the make of Messrs. STEINHEIL SONS, of Munich, has 4 (French) inches aperture, 5 feet focal length, and is mounted parallaxically on a solid iron tripod, with setting circles for right ascension and declination, and has also a tangent screw for following the daily motion of a star. It has two terrestrial and six astronomical eye-pieces, (varying in power from 40 to 360,) a ring and a scale micrometer, and a sliding wedge for moderating the light. There is, moreover, fitted to the eye tube a direct vision spectroscope, with five prisms, for analyzing the light of the sun and its protuberances. The telescope, when properly located, will be particularly useful for the exercises of students, who may make astronomy a special study.

The following twenty-two Asteroids were first discovered at the Litchfield Observatory.

The Transit of Venus.

During about ten months of the academic year 1874-5, the Director of the Litchfield Observatory was absent from College, under an appointment from Washington, D. C., as fully explained in the following letter:

QUEENSTOWN, OTAGA, N. Z., December 11, 1874.

Rear Admiral C. H. DAVIS, U. S. Navy, President of Commission on Transit of Venus:

Dear Sir:—I am very happy to report that our work, the observation of the transit of Venus, has been successfully accomplished. Our success I would call complete, if a steady cloud had not interfered toward the close, so that egress could not be observed. As it is, our record stands thus: With the equatorial I observed the first external and first internal contacts, the former (as of course) uncertain, the latter with great precision, as I believe, none of the much talked of physical phenomena presenting themselves to my eye. I took 14 measures of chords and cusps while Venus was on the limb, further 21 measures of distances of the planet from limb, and determined its apparent diameter by 10 good measures. Of photographs I find, after a careful revision and examination of the plates, made on yesterday afternoon, in all 237—viz: 178 contact pictures and 59 pictures taken while the planet was on the disk. These are not uniformly distributed over the time. The sun was out almost uninterruptedly during the first $1\frac{1}{2}$ hours. Thereafter came clouds, with but small intervals of sunshine, so that the system of observing was changed, and pictures were taken whenever there was a chance, sometimes therefore in quicker succession. The last picture was taken at 16 minutes before beginning of egress. And from that time on the sun was under a dense cloud, until I caught the first glimpse of it again 33 seconds after the computed time of last contact when Venus had gone.

The American party at New Zealand may be said to have been particularly favored by heaven. None of the other observers on this island have seen the least of the transit, clouds seeming to have overhung the whole area. I received telegrams in the forenoon such as these: "Rain at the Bluff;" "Rain at Clyde;" "Overcast at Dunedin;" "Overcast at Christchurch," &c. It seems that we escaped disappointment from being in a greater elevation above the sea. I must add, beside, that our instruments worked admirably, especially the mirror and the heliostat clockwork. No sooner did the sun show a beam through a gap in the clouds than it was caught on the plate by a touch of the spring, and recorded by the chronograph. Also, our other precautions (against wind, &c.) proved of the greatest usefulness, and the operations did not suffer interruption from sudden gusts of wind, nor from heating of the soil, &c. I may well make these remarks, because the greater merit of these arrangements does not belong to me, but to my assistant astronomer, Lieutenant Bass.

I am, dear sir, yours very respectfully,

C. H. F. PETERS, Chief of Party.

HAMILTON COLLEGE.

Knox Hall of Natural History.

The Department of Natural History has the benefit of an endowment, given by Hon. JAMES KNOX, LL. D., of Knoxville, Knox County, Illinois.

The Geological and Mineralogical Cabinets and Collections in Natural History, embrace the following, viz:

1. 9,000 Specimens of Ores and Simple minerals.
2. 2,500 Specimens of Fossils and Rocks to illustrate the Geology of New York.
3. 1,000 Specimens to illustrate the Geology of the United States.
4. 600 Specimens of Fossils, mostly from the Silurian Formations of Europe.
5. 500 Specimens from the Coal Formations of the United States.
6. 250 Specimens from the New Red Sandstone Formation.
7. 600 Specimens of Crystallized Minerals from New York localities.
8. 2,000 Specimens of Land, Fresh Water and Marine Shells.
9. 300 Specimens in Ornithology from China.
10. 13 Cases of Specimens in Entomology.
11. Collection of Plants from China, presented by Dr. S. WELLS WILLIAMS.

Sartwell Herbarium.

Through the liberality of the late HAMILTON WHITE, of Syracuse, the College Collections in Natural History have been enriched by the HERBARIUM, collected by the late Dr. H. P. SARTWELL, of Penn Yan, and well known in scientific circles as a very extensive and valuable exhibition of our North American Flora. This HERBARIUM is the result of fifty years of botanical study, research and correspondence. It contains eight thousand samples of plants, skillfully cured, accurately labeled, and conveniently classified in sixty-two handsome volumes. Among the more unique or useful specimens are 451 *Mosses*, 226 *Lichens*, 341 *Sea-Weeds*, 600 *Fungi*, 575 *Ferns*, 314 *Grasses*, 200 *Ericaceæ*.

Religious Instruction.

Morning Prayers, with reading of the Scriptures are attended daily in the College Chapel. Public services are attended in the Chapel on the Sabbath, when all the students are required to be present, except such as have permission to attend at other places of worship. On Sabbath and Tuesday evenings there are religious services which all the students are invited to attend. A Church has been organized on such principles as to embrace members from various Evangelical Denominations. For the promotion of their spiritual good and highest usefulness, it is desirable that all professors of religion coming to the Institution should bring letters and connect themselves with the College Church.

HAMILTON COLLEGE.

A systematic course of Biblical Instruction is arranged for the several classes, a statement of which may be found in the General View of the Studies of the Year.

The Society of Christian Research holds its meetings monthly, when reports are read on the condition of Christian Missions in various parts of the world, and questions of religious interest are discussed.

Prizes.

1. The interest of a Prize Fund of \$1,500, founded by CHARLES C. KINGSLEY, A. M., of Utica, will be given, in two Prizes, to members of the Senior Class who excel in *Extemporaneous Speaking*.

2. The interest of a Prize Fund of \$700, founded by CHARLES C. KELLOGG, A. M., of Utica, will be given, in one Prize, to any student of the Senior Class, except the successful competitors for the Clark Prize, the Pruyn Medal, the Head Prize and the Kirkland Prize, who shall excel in the composition and delivery of his *Commencement Oration*.

3. The interest of a Prize Fund of \$500, founded by the late Hon. AARON CLARK, of New York, will be given, in one Prize, to the student of the Senior Class who excels in *Oratory*.

4. The interest of a Prize Fund, of \$500, founded by Hon. J. V. L. PRUYN, LL. D., of Albany, Chancellor of the University of the State of New York, will be given in a Gold Medal, to any student of the Senior Class, except the successful competitors for the Head Prize and the Kirkland Prize, who shall write the best Oration on *The Political Duties of Educated Young Men*.

5. The interest of a Prize Fund of \$500 founded by Hon. FRANKLIN H. HEAD, A. M., of Elk Rapids, Mich., will be given to any student of the Senior Class, except the successful competitors for the Pruyn Medal and the Kirkland Prize, who shall write the best Oration on *Alexander Hamilton*.

6. The interest of a Prize Fund of \$500, bequeathed by the late Mrs. ABIGAIL R. KIRKLAND, of Clinton, will be given to any student of the Senior Class, except the successful competitors for the Pruyn Medal and the Head Prize, who shall write the best Oration on *Biblical Science*.

7. The interest of a Prize Fund of \$500, founded by the late Hon. GEORGE UNDERWOOD, of Auburn, will be given in two Prizes, to members of the Senior Class who excel in *Chemistry*.

8. The interest of a Prize Fund of \$700, founded by CHARLES C. KINGSLEY, A. M., of Utica, will be awarded, in the form of valuable books, to the two students in each of the three lower classes who excel in Elocution; valuable books will also be given to the two in each class who excel in *English Composition*.

9. The interest of a Prize Fund of \$700, founded by relatives of the late Col. HENRY H. CURRAN, of Utica, will be given, in two medals, to members of the Junior Class, who excel in *Classical Studies*.

10. The interest of a Prize Fund of \$500, founded by MARTIN HAWLEY, A. M., of Baltimore, Md., will be given, in Silver Medals to members of the Junior Class who excel in *Classical Studies*.

11. The interest of a Prize Fund of \$500, founded by the late Rev. TERTIUS D. SOUTHWORTH, of Bridgewater, will be given, in two Prizes, to members of the Junior Class who excel in *Natural Philosophy*.

12. The interest of a Prize Fund of \$600, founded by HAMILTON B. TOMPKINS, Esq., of New York City, will be given, in two prizes, to members or the Junior Class who excel in *Mathematics*.

The Libraries.

The College and Society Libraries, amounting to 12,000 volumes, are accessible to students.

A few gentlemen in the city of New York, a few years since, presented to the College the private library of the late EDWARD ROBINSON, D. D., LL. D., of Union Theological Seminary. It consists of 1,420 volumes, and about 100 valuable maps, and furnishes rare facilities for the study of Biblical Exegesis and Scriptural Geography.

Hon. WILLIAM CURTIS NOYES, LL. D., a native of Oneida County and an honorary alumnus of the College, after a life of eminent service, professional and political, bequeathed to Hamilton College his Law Library. The collection numbers about five thousand volumes. The books had been collected during a practice of over twenty-five years, at a cost of not less than sixty thousand dollars. "The collection consists of all the American Reports, with scarcely an exception, down to the present time; of all the English Reports in the Courts of Law and Chancery, and in the Exchequer, down to the beginning of the year 1860; and all the Scotch decisions, in the Judiciary, Senior Courts and House of Lords; and the Irish Reports in Law and Equity.

In Elementary Law, it contains all the principal treatises in England and America, among which is the 'Law Library,' in upwards of ninety volumes.

It contains a complete set, in upwards of seventy volumes, of the printed Statutes of the Colony and State of New York, including the Session laws from the earliest period, commencing with a copy of Bradford's printed in London, in 1719, which formerly belonged to Lord De la Warr, and seems to have come from the plantation office in the colony."

The NOYES LIBRARY is at all times accessible to Members of the Bar.

The new building for the Library in honor of the principle contributor to the fund for its erection, Hon. PERRY H. SMITH, of Chicago, of the Class of 1846, is named the "*Perry H. Smith Library Hall*." The alumni of the College in Illinois, Wisconsin, and Iowa, have also been filial and generous in their gifts.

The building is two stories high above the basement: 75 feet long and 50 broad. The first floor above the basement is divided into the vestibule and hall, two rooms for the librarian, and the library proper. The alcoves in the library room are arranged in three tiers, one above another,

HAMILTON COLLEGE.

and with the adjacent walls and the Librarian's rooms will furnish a place for 60,000 volumes. The library is lighted by windows in the side walls and by skylights.

Over the entrance hall and Librarian's rooms, there is an apartment for a Memorial Hall and Art Gallery, to contain tablets and portraits of the alumni and students of the College who have served their country; also portraits and other memorials of the founders of the College, its officers and benefactors.

The College has received a legacy of Five Thousand Dollars from the late Hon. PETER B. PORTER, of the Class of 1826, as an endowment for the care and increase of the Library.

Examinations.

1. Of all the Classes, at the close of the First Term.
2. Of all the Classes, at the close of the Second Term.
3. Of the Senior Class, four weeks previous to Commencement.
4. Of the other three Classes, the week previous to Commencement.
5. Of Delinquents, at the beginning of each Term.
6. Of Tompkins Prize Competitors, on last Saturday in November.
7. Of Curran Prize Competitors, on the fourth Thursday in March.
8. Of Underwood Prize Competitors, on last Friday in May.
9. Of Candidates for admission at each Commencement and at the opening of each Term.

Public Exhibitions.

1. Junior Exhibition, at the close of the Second Term.
2. Clark Prize Exhibition, on the First Wednesday in June.
3. Kingsley Prize Debate, Tuesday preceding Commencement.
4. Kingsley Prize Declamation, on the Monday evening preceding Commencement.
5. Commencement, on the Thursday after the last Tuesday in June.

Terms.

1. From the first Thursday in September, fourteen weeks.
2. From the first Thursday in January, twelve weeks.
3. From the third Thursday in April to Commencement.

Expenses.

Board, from \$3.00 to \$4.50 per week,.....	\$114 00	to	\$171 00
Fuel and Lights,.....	10 00	"	15 00
Rent for Rooms, unfurnished, from \$2 to \$12 per term,.....	6 00	"	36 00
Ordinary repairs: sweeping and heating the public rooms, \$5 per term,	15 00	"	15 00
Tuition, \$20 per term,.....	60 00	"	60 00
Amount,	\$205 00		\$297 00
Special repairs according to damage committed.			

HAMILTON COLLEGE.

In addition to the preceding, any damages voluntarily committed in the community of students, are charged to the individuals or classes committing them, when known; to the whole body of students when not known, under the name of Extra Contingent Expenses.

A student admitted to an advanced standing, unless from another College, is charged with a matriculation fee: to the Sophomore Class, \$7; to the Junior, \$10; to the Senior, \$12.

Payment of Bills.

It is provided by a resolution of the Board of Trustees

1. THAT ALL STUDENTS BE REQUIRED TO PAY THEIR TERM BILLS IN ADVANCE, and that no student be admitted to the recitation room after the first week of the term, unless his bills have been paid or arranged to the satisfaction of the Treasurer.

2. That no student can have an honorable dismissal from the College or certificate of his previous attendance in it, until all his bills are paid or satisfactorily secured.

3. That in extreme cases, a student whose circumstances render it necessary, and who shall present satisfactory testimonials of the fact to the Executive Committee, if he is a worthy member of College, and his undergraduate course is completed in this Institution, can have his bills for tuition remitted.

Second Degrees.

Graduates of three years' standing, are entitled to the degree of Master of Arts, on application to the President. The fee for the Degree and Diploma is \$5, payable in advance.

Absence from College.

The portion of the year allotted to vacations is so great as to render it quite unnecessary for students to visit their friends during the term, except for urgent and unforeseen reasons. The occasional loss of a day can not fail to have an unfavorable bearing on the intellectual habits and standing of the student. It is hoped that parents and guardians will concur with the Faculty in their opinion of the inexpediency of granting leave of absence in ordinary cases. During vacations, the College buildings are closed; and it is not thought desirable that students from abroad should remain in Clinton.

No deduction for absence will be made in the Term bills, where the student returns to the same class which he left.

Members of the Senior Class can not be graduated, unless they have been in attendance during two terms of the Senior year. No student is permitted to take part in the exercises of Commencement day, who has not spent the Third Term of his Senior year in College, and made his preparation also in College.

Teaching.

The Faculty keep a Register of Graduates and Undergraduates wishing engagements to teach, and will aim to nominate suitable candidates in reply to applications for teachers. Applicants for teachers should state definitely what service will be required, and what compensation will be paid.

Pecuniary Aid.

The interest of beneficiary funds, amounting to about \$3,000 per year will be annually distributed to needy students, preference being given to those of Christain character and good scholarship.

The College has received a memorial gift of \$5,000, from Mrs. SARAH E. BEARD, Fayetteville, N. Y., which has been invested as one of the beneficiary funds for the aid of deserving students, and named "THE CHARLES E. HALE FUND," in memory of a deceased son of Mrs. BEARD.

Students who are candidates for the Christain Ministry, may receive aid, if their circumstances require it, to the amount of from one hundred to one hundred and twenty dollars a year, by placing themselves under the care of the Presbyterian Church, or under that of the American Education Society.

Scholarships.

Twenty permanent Scholarships have been established, varying in their annual income from sixty dollars to one hundred. Applications for Scholarships, or for any pecuniary aid, must be made to the President in writing, and students most needy and most deserving will have the preference. The assignment of some of the Scholarships is affected by special provisions. In any case, if the student is habitually negligent of college duties, or incurs a serious college censure, he will be liable to have the aid granted him summarily withdrawn.

Hungerford Hall.

Through the liberality of JOHN N. HUNGERFORD, Esq., of Corning, the South College has been thoroughly repaired, after plans furnished by W. J. HAMILTON, of Utica. The renovated building contains two large recitation rooms, eighteen feet in height, with convenient keepers' rooms on the first floor. Each of the new dormitories has the best arrangements for lightning and ventilation. Outwardly the entire building has been restuccoed, and the chimnies and roof rebuilt in modern style. The cost of these improvements was about \$15,000.

Determination of Standing.

1. Each Instructor keeps a record of all College exercises in his department, according to a scale of merit ranging from *ten* to *zero*.

If a student who is present and prepared to recite, is not called at any exercise, he receives a credit equal to the average of his actual performance for that term.

3. For each exercise from which a student is absent and not excused, he is marked *zero*.

4. In estimating the value of class exercises, promptness and regularity are regarded as a merit; and all exercises, performed out of their regular time are liable to a discount, if the circumstances seem to require it.

Law Department.

REV. SAMUEL GILMAN BROWN, D. D., LL. D.

PRESIDENT.

ELLICOTT EVANS, LL. D.

Maynard PROFESSOR OF LAW, HISTORY, CIVIL POLITY,
AND POLITICAL ECONOMY.

The course of instruction in Law includes the thorough and careful study of the most approved text-books. Among these are Blackstone's and Kent's Commentaries, Parsons on Contracts, Washburn's Law of Real Estate, Greenleaf on Evidence, vol. 1st, and the Code of Procedure.

The great object aimed at is to store the mind of the student with the fundamental principles of the Law. This is to be accomplished in such a way that he can give, at any time, a full and accurate expression of legal rules. The text-books are to be so mastered that any question may be answered readily and with exactness. Reviews of previous exercises are often repeated, until the student becomes as familiar with the rudiments of Law as with the rudiments of a language. At each exercise every student is examined on the subject studied, and expected to give the result of the text in his own words.

The Professor connects oral and familiar lectures with each recitation putting cases to the class, involving the principles of the text, and requiring a solution; and endeavoring in every manner which may suggest itself to quicken and interest the student by exciting his mind to continued action. Instead of the fitful and intermittent studies of the law office, pursued often in confusion and amidst other circumstances tending to distract the mind, the student studies law as he does any other science, with a systematic purpose and plan. Experience has proved by its unfailing tests, that on such a basis, underlying the superstructure of a careful practice, sound and accurate lawyers will be formed.

Any person of good moral character, who complies with the rules of the department, may join the class. The prescribed course of study for College graduates is one year; for those not graduated, one year and one-

third. After having passed the regular course of study, and the examination prescribed by the rules of the College, the student is entitled to the degree of Bachelor of Laws. No other examination is necessary for admission to the Bar. By the Laws of 1855, chap. 310, every graduate of the Law School is entitled to a certificate to practice as an Attorney and Counsellor of the Supreme Court. The terms of tuition are \$20 per term, or \$60 per year, with a graduation fee of \$5.

Students who do not wish to graduate, can remain any number of terms which they may choose, or study any one of the subjects embraced in the course. The order of studies in the principle subjects is: the Law of Contracts, in the Fall term; of Real Estate, in the Winter term; of Real Estate completed, Evidence, etc., in the Spring term.

Text-books are furnished by the Institution, and loaned to the student without charge, with the exception of Blackstone and Kent.

Admission of Attorneys.

The following rule adopted September 22, 1875, by the Judges of the Court of Appeals of the State of New York, provides that an allowance of one year will be made to graduates who are candidates for admission to the bar.

“An allowance of one year shall be made to applicants who are graduates of any College or University, and who in their course of study shall have been instructed in the theory and general principles of jurisprudence, and in the historical development of the constitutional law of the United States and Great Britain, the proof of which shall be the certificate of the President of the College where such applicant graduated, to the satisfaction of the Supreme Court, that he has been taught and sustained a satisfactory examination in such studies, specifying the same, and no other allowances shall be made to such applicant for study, prior to the time of graduation, which time shall be made to appear.”

Memorial Hall and Art Gallery.

By the action of the Executive Committee, Rev. A. D. GRIDLEY and Prof. EDWARD NORTH have been appointed a Standing Committee, to have special charge of the Memorial Hall and Art Gallery.

It is proposed to enlarge the scope of the collections in Memorial Hall. Contributions are solicited of historical paintings, landscapes, plaster casts, figures in bronze and marble, engravings, ancient coins, and other works of art, along with portraits of distinguished Alumni, and of Officers and Benefactors of the College. The following list of Portraits now in Memorial Hall, will indicate that a good beginning for an Art Gallery has been made, and that the way is auspiciously opened for additional gifts.

HAMILTON COLLEGE.

REGULATIONS FOR THE NINTH
Tompkins Mathematical Prize Examination,
SATURDAY, NOVEMBER 27, 1875.

• • •

1. Members of the Junior Class intending to compete at the Tompkins Mathematical Prize Examination, must make known their intention to the Professor of Mathematics, on or before the second Saturday of the First Term.

2. The examination will be held in the Lecture Room of the Cabinet, beginning at nine o'clock, and closing at one.

3. The work to be done will be the solution of ten problems, founded upon the mathematics of Sophomore year, and first term Junior.

4. Each competitor must bring with him materials for writing, but no written or printed matter.

5. Copies of the successful Prize Papers will be kept in the College Library.

• • •

REGULATIONS
For the Tenth Kingsley Prize Debate,
TUESDAY, JUNE 27, 1876.

• • •

1. The Tenth Kingsley Prize Debate will be held on the afternoon of the Tuesday preceding Commencement, under the direction of the Kingsley Professor of Rhetoric.

2. From the members of the Senior Class who have gained the highest average standing in extemporaneous speaking, during their Junior and Senior years, not more than six Prize Debaters will be appointed by the Faculty. Their names, with the question for debate, will be announced at the last session of the final Senior Examination. At the same time, the position of the debaters on the affirmative or negative, will be determined by lot.

3. At the Debate, the order in which the competitors on the affirmative and those on the negative are to be called, will each be determined by lot, publicly drawn at the time. Each competitor will be called twice; and will be allowed to speak from ten to fifteen minutes on the first call, and ten minutes on the second call.

4. A first prize of \$70.00, and a second prize of \$30.00, will be awarded by a committee of three gentlemen, not members of the Faculty; and the award will be announced at the close of the debate.

REGULATIONS

For the Twenty-First Curran Prize Examination,

THURSDAY, MARCH 23, 1876.

• • •

1. The Competition for the Curran and Hawley medals is open to members of the Junior Class.

2. The examination will be held in the Examination Hall, commencing at nine o'clock, and closing at two o'clock.

3. Each competitor is required to bring with him pens and ink, and a quire of "legal cap" paper.

4. Competitors are not allowed to bring with them any written or printed matter, any engravings or models for drawings, or to hold any communication with each other. A violation of this rule will vitiate the work of the one so doing.

5. Only one face of each half sheet is to be written upon, the other being left blank. There should also be one inch of margin on the left edge of the sheet.

6. The pages should be numbered at the top, with the student's name repeated beneath each number.

7. The several portions of the work should likewise be numbered according to the numbers of the printed questions.

8. At half-past one, notice will be given that competitors may review, correct, and finish their work. At two o'clock the papers are to be given up.

9. In estimating the merit of the student's work, two points will be especially considered:—

(1.) Exactness in rendering; fullness and accuracy of information on the subjects proposed.

(2.) Neatness, elegance and logical arrangement in the exhibition and utterance of knowledge.

10. The kind of work to be done may be as follows, viz:

(1.) Translation from and into Greek, Latin and French.

(2.) Analysis of words, including derivation, synonymes, inflection and dialectic changes.

(3.) Analysis of sentences, with rules of construction, illustrative maps and drawings, and the answering of questions in history, geography and mythology.

(4.) Analysis of metres, including quantity, rhythms, and nomenclature.

(5.) Rules and practice of Greek accentuation.

(6.) Criticism on the style, spirit, and subject-matter of the authors quoted from.

CURRAN PRIZE EXAMINATION FOR 1874--5.

I.

Translate the following sentences, after revising the punctuation; then, criticise the notes copied from Renier's edition of the Idyls of Theocritus.

§ 1. πολλά τοι ὦ Πτολεμαῖε, πεποίηται καλὰ ἔργα,
ἐξ ὧ ἐν ἀθανάτοις ὁ τεκῶν οὐδεὶς κακοεργὸς
δαλεῖται τὸν ἰόντα παρέρπων Αἰγυπτιστί.

§ 2. μὴ φύγῃ, Μελιτῶδες, ὅς ἀμῶν καρτερὸς εἴῃ.
πλὰν ἐνός, οὐκ ἀλέγω. μή μοι κενεὴν ἀπομάξῃς.

§ 3. “πλὰν ἐνός οὐκ ἀλέγω; *mais je ne m'inquiète pas d'un seul.* C'était, suivant M. Ahrens, dont l'explication a été adoptée par M. Ameis, une locution proverbiale équivalente, pour la sens, à celle-ci: εἰς ἀνὴρ οὐδεὶς ἀνὴρ. J' avoue que cette explication ne me satisfait pas entièrement.

Les anciens éditeurs, qui ponctuaient ainsi ce passage: μὴ φύγῃ ὅς ἀμῶν καρτερὸς εἴῃ πλὰν ἐνός, *ne oriatur qui nobis imperet, praeter unum*, voyaient dans πλὰν ἐνός une allusion à Ptolémée.

M. Ahrens a critiqué, à bon droit, cette explication, et j'ajouterai même à la raison qui, suivant lui, doit la faire rejeter, que Praxinoé, que ne devoit pas être moins fière que sa compagne, de sa qualité de syracusaine et de son origine corinthienne, ne pouvoit reconnaître, même à Pétolmée, le droit de lui commander. Ne pourroit-on pas faire rapporter πλὰν ἐνός à *Dinon*, son mari, en conservant la ponctuation proposée par M. Ahrens?”

§ 4. “μὴ μοι κενεὴν ἀπομάξῃς, *noli mihi inanem modium abstergere*; ne va pas vouloir râcler pour moi un boisseau vide (car il faut sous-entendre *χοίνικα*) c'est-à-dire, ne pas vouloir *me traiter en esclave*. C'est encore un proverbe tiré de la parodie des intendants, qui, chargés de distribuer le blé aux esclaves pour leur nourriture journalière, avaient soin de bien râcler la mesure, afin de leur en donner le moins possible.”

II.

Translate the following extracts, and explain the different signification of the words underseored in each triplet of sentences.

§ 1.

Διδς δέ τοι

πτηνὸς κύων, δαφεινὸς ἀετὸς, λάβρως
διαρταμήσει σώματος μέγα ῥάκος

§ 2.

ὦ ἔβενος, ὦ χρυσὸς, ὦ ἐκ λευκῷ ἐλέφαντος
αἰετῷ, οἰνοχόον Κρονίδα Διὶ παῖδα φέροντες.

§ 3.

ἔκ Διδς αἰγιδόχῳ τιμὴν ἔχει αἰετὸς οὗτος·
εὐσεβέων παίδεσσι τὰ λωῖα, δυσέβειων δ' οὐ.

§ 4.

χοὶ μὲν ἀμὰ βόσκειντο καὶ ἐν φύλλοισι πλανῶντο.

§ 5.

ἐξ ἐνέρων περὶ κυναγετεῖ,
πλανᾷ τε νῆστιν ἀνὰ τὰν παραλίαν ψάμμον.

§ 6.

ἀποφαλεῖς φρενῶν

πλανᾷ, κακὸς δ' ἱατρὸς ὧς τις ἐς νόσον
πεσὼν ἀθυμεῖς.

§ 7.

οὐκ ἔστιν ἀλύξαι

ἀνθρώποις ὅτι Μοῖρα κατὰ κλωστήρως ἐπείγει.

§ 8.

ἰὼ ἰὼ μοῖρα μοῖρα,
πέφρικ' εἰσιδοῦσα πρᾶξιν Ἰοῦς.

§ 9.

χωρὶς τε γένους οὐκ ἔστιν ὄψ
μείζονα μοῖραν νείμαιμ' ἢ σοί.

§ 10.

τυίδε γὰρ πλόον εὐάνεμον αἰτήμεθα παρ Διδς,
ὅππως ξεῖνον ἐμόν τέρψομι' ἰδών.

§ 11.

φοβερά δ' ἐμοῖσιν ὕσσοις ὁμίχλα
προσῆξε πλήρης δακρύων,
σὸν δέμας εἰσιδοῦσα.

§ 12.

μὴ γάρ σε θρηῆνος οὐμός εἰς ἔχθραν βάλη.

§ 13.

Formulate the rhythm of § 5, § 8, § 9, § 10, § 11.

§ 14.

Select proclitics and enclitics from the foregoing sentences, and in each case state the law that determines the treatment of its accent.

III.

Translate the following sentences; write out and translate the different readings proposed or formerly received for each; select Doric forms, and give the corresponding Attic forms; add to § 1 an explanation of the phrase “τὸ δὲ λύχνιον ἐν πρυτανείῳ.”

§ 1. ἄλλως καὶ σχολά ἐντι· τί γὰρ ποιεῖν ἂν ἔχοι τις κείμενος ἐν φύλλοις ποτὶ κύματι, μηδὲ καθεύδων; ἀλλ’ ὄνος ἐν ῥᾶμῳ, τὸ δὲ λύχνιον ἐν πρυτανείῳ· φαντὶ γὰρ αἰὲν ἄγραν τόδ’ ἔχειν.

§ 2. ψενδωνύμως σε δαίμονες Προμηθέα χαλοῦσιν· αὐτὸν γὰρ σε δεῖ προμηθέως, ὅτῳ τρόπῳ τῇσδ’ ἐκκυλισθήσει τέχνης.

§ 3. καὶ μὴν ἀριθμὸν, ἔξοχον σοφισμάτων, ἐξηῦρον αὐτοῖς, γραμμμάτων τε συνθέσεις, μνήμην θ’ ἀπάντων μουσομήτορ’ ἐργάτιν. κᾶξευξα πρῶτος ἐν ζυγοῖσι κνώδαλα ζεύγλαισι δουλεύοντα· σώμασιν θ’ ὅπως θνητοῖς μεγίστων διάδοχοι μοχθημάτων γένωνθ’, ὑφ’ ἄρματ’ ἤγαγον φιληνίους ἵππους, ἄγαλμα τῆς ὑπερπλούτου χλιδῆς.

IV.

Translate the following sentences into Greek, not omitting the accents.

§ 1. Never may I place my words in opposition to Jove’s power, who rules all things.

§ 2. Being afraid of Jove, Io rushed to the retreat of Hades, unsanded, having gained, with much ado, the consent of Oceanus.

§ 3. Prometheus, not falsely so named, first discovered for mortals, the arts of computation and writing.

§ 4. The sound of the driving of steel rushed through the restless current of Father Oceanus, and banished Io’s coy reserve.

V.

§ 1. Select words from any of the foregoing extracts that furnish roots for English derivatives, and give the English words so derived.

§ 2. Give some examples of English verse that seem to follow a Greek model.

VI.

Write out your opinion of (1) the good influences, and (2) the evil influences of the Theatre of the Ancient Athenians.

VII.

Translate the following lines : add an analysis of the scanning and give the syntax of the words italicized.

- § 1. Hæc *hauscitis* mei parentes mé nunc miseram ita ésse uti sum ;
Neque quícquam umquam is id prófuit, qui mé sibi eduxérunt.
- § 2. *Hisce* hámi atque *hæc* harúndines sunt nóbis *quaestu* et *cúltu*.
- § 3. TR. quid tú agis? AM. *Aetatem* háu malam *male*. TR. melius omináre.
- § 4. Quia léno ademit cistulam *ei*, quam habébat *ubique* habébat.
Qui súos parentis nóscere *potéssset* : eam verétur ne periret.
- § 5. Néque *eam* usquam inveniό neque quo *eam* néque *qua* quaeram
cám consultumst.

§ 6. State briefly the views of the Gods and Providence which appear in the Rudens.

(e.)	Stella	Sidus	Signum	

VIII.

Translate the following : parse the words in italics and mention the different readings which may be given.

- § 1. Quist imperator divom atque hominum Juppiter
Is nos per gentis hic *alium alia* disparat,
Hominum qui facta, mores, pietatem et fidem
Noscamus, ut quemque adjuvet opulentia.
- § 2. Nunc Venerem hanc veneremur bonam ut nos lepide adiverit hodie.

§ 3. Write out the lines beginning "nunc id est," &c., and add a formula for the scanning, together with a translation.

§ 4. Show the error of the following notes from Harrington's Plautus: and add a translation of each passage.

(a.) Argentum ego pro istisce ambabus, quojae erant, domino dedi.
"Quojae is a predicate genitive."

THE COLLEGE GROUNDS.

The Park in the midst of which the College buildings stand, embraces fifteen acres. The trees which adorn it were planted at different times. The Lombardy poplars were set out between the years of 1805 and 1812, by Rev. SAMUEL KIRKLAND and President BACKUS; the older elms in 1830, by OTHNIEL WILLIAMS, Esq., then treasurer of the College; and the groups of maples and ashes directly in front of the dormitories, in 1836, by President PENNY.

In the year 1853, the grounds were enlarged and laid out anew according to the modern English method. It was the design of the committee having this matter in charge, to obtain specimens of every tree and shrub supposed to be hardy in the climate of central New York. A Pinetum was also begun, in which a large variety of conifers have been planted. Labels have recently been affixed to many of the rarer trees and shrubs, showing the scientific name of each, together with its popular name and habitat. In those portions of the grounds daily traversed by the students, plots have been devoted to the culture of shrubs and flowering plants. Within a few years past, the campus has been invested with a new interest, by the planting of memorial trees by the successive graduating classes, and the erection of memorial stones, sun-dials, classic vases and garden seats.

It is the design of the Trustees and Faculty, to render this Park increasingly attractive. New trees and plants will be added to the present collection, as fast as they can be obtained. And for the more speedy accomplishment of this end, contributions are invited from the friends of the Institution. The Curators of the College grounds are Prof. OREN ROOT, JOHN C. HASTINGS, Esq., and Rev. A. D. GRIDLEY. Communications on this subject may be addressed to either of these gentlemen.

An Ordinance to Amend the Charter of Hamilton College.

By the Regents of the University of the State of New York :

An application having been made to the said regents, by the trustees of Hamilton College, for an amendment of the charter of the said college, in order to provide for the election of four additional trustees by the alumni thereof and it appearing that due public notice of the said application has been given as required by the ordinance of the said regents in that behalf, and no objection thereto having been presented:

Now, therefore, be it known that the said Regents of the University, by virtue of the authority in them by law vested, do ordain, determine and declare that the charter of Hamilton College be, and the same is, hereby amended as follows, subject, however, to the power of the said regents. at any time hereafter, on cause satisfactory to them, to alter, amend or repeal this ordinance :

SECTION I. On the day preceding the next annual commencement of Hamilton College, at 12 o'clock noon, an election shall be held in the chapel of the college, or at such place in the village of Clinton as the trustees of the college may designate, to choose four additional trustees of said college, which trustees, when duly chosen, shall possess the same power and perform the same duties as the other trustees of the college. Such election shall be by ballot, and every graduate of the college of at least three years' standing shall be entitled to vote at such election. No person shall be elected as one of the said additional trustees unless he be a graduate of the college of at least ten years' standing. Immediately after the election, the trustees so chosen shall be so classified by lot that the term of office of one of them shall expire with the close of commencement day of the year after such election, the second in two years, the third in three years, the fourth in four years after such first-named commencement day.

SECTION II. On the day preceding each subsequent commencement day an election shall be held to choose one trustee to fill the place of the person whose term of office is about to expire. The person so chosen shall hold his office for the term of four years, and all the provisions of the first section of this ordinance relating to the qualifications of voters and the eligibility of candidates, and the time, place and manner of holding the election shall be applicable to all such elections.

SECTION III. The trustees of the College shall appoint inspectors of all elections, and may prescribe such rules and regulations as they may deem proper for conducting the same, and for canvassing the votes and declaring the result. They shall also provide for the classification of the trustees to be elected in pursuance of the first section of this ordinance.

SECTION IV. Thirteen trustees regularly convened, shall hereafter constitute a quorum of the board.

In witness whereof, the said regents have caused their common seal to be hereunto affixed, and their chancellor and secretary to subscribe their names, this fourteenth day of January, in the year one thousand eight hundred and seventy-five.

JOHN V. L. PRUYN,

Chancellor of the University.

S. B. WOOLWORTH, *Secretary.*

Regulations for the Election of Trustees.

1. This election shall be held at the chapel of the Stone Church in Clinton, on the day preceding the annual commencement, and the polls shall open at 12 M., and close at 2 P. M.

2. The president and secretaries of the Society of the Alumni shall act as the president and secretaries of the meeting, unless others are chosen in their places.

3. Three inspectors of election shall be appointed by the Board of Trustees of the College, with the usual powers, who shall receive and canvass the votes, and declare the result, and shall communicate the same in writing to the Board of Trustees.

4. Graduates not intending to be present at the election, may forward their ballots to any officer of the Society of the Alumni residing in Clinton, who shall indorse his own name upon the ballot before depositing the same, it being required in every case that the name of the voter and of the person voted for, shall be in the handwriting of the voter.

5. A majority of all the ballots cast shall be necessary to the election of a trustee.

6. If no person receives a majority on the first balloting, a second or other balloting may be taken until an election is made.

7. An absent voter may send a second ballot to be deposited in his name, in case there is no choice on the first balloting. If no second ballot is sent, then the ballot used on the first balloting may be used or withheld on the second or any subsequent balloting, at the option of the agent holding the same.

8. Whenever a vacancy shall occur from death, resignation or any other cause, the graduates shall elect a trustee to fill the office for the remainder of the term, in which a vacancy has occurred, in the usual manner as above provided.

SOCIETY OF ALUMNI.

This Society is composed of graduates from the College, and those upon whom it has conferred honorary or *ad eundem* degrees. Among its objects is the encouragement of Science and Letters, more especially in their connection with Hamilton College. It has the use of an alcove in the College Library, to which donations are solicited of books, pamphlets and papers, whose authors are Alumni of Hamilton. It seeks also the promotion of friendly feeling and sympathy among its living members, and the rendering of fit honor to the departed. Its annual meeting is held on the day preceding Commencement. Persons who can supply information appropriate to the Triennial Catalogue or the Obituary Record, are requested to communicate the same to the Necrologist.

General Information.

Admission.

It is required that candidates for admission to the Freshmen Class should not be less than fifteen years of age, with a corresponding increase for an advanced standing; that they furnish evidence of good moral character, and if from another College, a regular dismissal; and that they sustain a satisfactory examination on the PREPARATORY STUDIES, or, for an advanced class, on the several studies to which the class they propose to enter has attended. None can be admitted into the Senior Class after the winter vacation.

Preparatory Studies.

IN GREEK: Xenophon's *Anabasis*, two books; Homer's *Iliad*, two books; with the Greek Grammar, including prosody and the rules for pronunciation according to the Continental method.

IN LATIN: Cæsar's *Commentaries*, four books; Virgil's *Æneid*, six books with prosody; Cicero's *Select Orations*; Sallust's *Catiline*; and either Sallust's *Jugurthine War* or the *Eclogues* of Virgil; with the Latin Grammar and Arnold's *Latin Prose Composition*, twelve chapters.

IN MATHEMATICS: Arithmetic, Algebra to Equations of the second degree; Plane Geometry complete.

Candidates will also be examined in English Grammar, Ancient and Modern Geography, History of the United States, and in Greek and Roman Antiquities. A Regents' Certificate of Academic Scholarship will be accepted in lieu of an examination in English Studies.

ENTRANCE EXAMINATIONS are held at 9 o'clock, A. M., on Monday and Tuesday preceding Commencement, and on the last day of the ensuing vacation.

Candidates for admission to College should bring with them, to the Senior Class Room, pencils for writing, and a copy of each Greek and Latin Author in which they propose to be examined.

Course of Instruction.

The whole Course of Instruction occupies four years, and the Students, in all the classes, are usually required to attend three exercises on each day. The degree of BACHELOR OF ARTS is conferred upon Students who complete this Course.

The object of the course is to form the mind to habits of accurate discrimination, close reasoning, and vigorous application; and, at the same time, furnish it with the leading facts and principles in Literature, Science and the Arts.

Rhetorical Exercises.

Weekly exercises in Composition and Extemporaneous Debate take place in the several classes. Besides these, on Wednesday and Saturday of each week, all the Students are required to attend public exhibitions in the Chapel, of Declamation, and of Original Essays, Disputes and Orations, under the direction and criticism of the Kingsley Professor of Rhetoric.

Chemistry.

Through the munificence of the late Mr. SILAS D, CHILDS, of Utica, the Chemical Laboratory has recently undergone extensive alterations, and is supplied with new and valuable apparatus.

The Senior Class, besides receiving instruction, both by lectures and recitations, in general Chemistry, will in accordance with the will of Mr. CHILDS, receive a thorough course of instruction in Chemistry as applied in Agriculture.

During a portion of the year, instruction in qualitative chemical analysis, or in other special branches of Chemistry, will be given to those members of the Senior Class who may choose to pursue such studies.

Apparatus and chemicals will be furnished to students at reasonable prices. The facilities of the Laboratory are such, that those who may desire to continue the study of Chemistry, after their graduation, will have an opportunity. Instruction may also be obtained in technical Chemistry by those not pursuing the regular College Course. The tuition for such students will be \$20 per term. The Laboratory is furnished with facilities for conducting Chemical investigations and analyses..

Astronomy.

As a means of giving more complete instruction in this Department, and also for the purpose of original observation, an Astronomical Observatory has been erected on the College grounds. The Astronomical Professorship and the Observatory have been very liberally endowed by the HON. EDWIN C. LITCHFIELD, LL. D., of Brooklyn.

The Observatory consists of a central building, with wings on the east and west sides. The central building, is twenty-seven feet square, and two stories high, surmounted by a revolving tower, twenty feet in diameter. The great Equatorial in the tower, constructed by Spencer and Eaton, has an object-glass of 13.5 inches in diameter, and focal length of nearly sixteen feet; it is provided with six positive and six negative eye pieces, with a ring and a filar micrometer. For solar observations it has a prismatic polarizing eye-piece of original construction by Mr. Robert B. Tolles, of Boston, Mass. The declination circle of twenty-four inches, by means of four verniers, reads to four seconds of arc; the hour circle of fourteen inches, by means of two verniers, reads to two seconds of time. The instrument is mounted upon a granite shaft, nine feet in height, resting upon a pier of solid masonry. A clock work with *Bond's* isodynamic escapement and spring governor, causes the telescope to follow the daily motions of the stars, by acting upon long arms attached to the equatorial axis. The wings are each eighteen feet square; the east room is used as an office for the Director. In the west room is mounted a portable Transit Instrument, of $2\frac{1}{2}$ inches aperture, the gift of Hon. ANSON S. MILLER, LL. D., of Rockford, Ill., and constructed by W. Wurdeman of Washington, D. C. It has a cast iron folding stand invented by the maker.

Near the Transit is an Astronomical Clock, constructed by William Bond & Son, Boston, and presented by the late Hon. WM. CURTIS NOYES, of New York. It is regulated for mean time, and provided with the break-circuit for telegraphic operations. By the side of the Clock is a Chronograph of Bond's most recent construction, and regulated by the spring governor, presented by MICHAEL MOORE, Esq., of Trenton Falls. These instruments have been connected by a telegraphic wire with the nearest station; and the longitude of the Observatory has thus been accurately determined by exchanging star signals with the Harvard College Observatory, at Cambridge, Mass.

In its turn, the Litchfield Observatory already has become the basis of several longitudes in the State, determined under the auspices of the Regents of the University at Buffalo, Syracuse, Elmira, Ogdensburgh, and of the longitude of the Detroit Observatory at Ann Harbor, Mich., which latter forms the fundamental point for the longitudes of the Lake Survey. The latest work of this kind has been to determine the longitude of the western boundary of the State of New York.

Besides, the Observatory has a Sidereal Chronometer, constructed by the same makers, with Hartnup's improved compensation balance; this instrument was the gift of the late Hon. GEORGE UNDERWOOD, of Auburn.

A Morse Telegraph Apparatus also has been presented by the late S. W. CHUBBUCK, of Utica, and an Aneroid Barometer, by the late SIMEON BENJAMIN, of Elmira.

In order to observe the total eclipse of the sun, August 7, 1869, Mr. EDWIN C. LITCHFIELD, presented a fine portable telescope, so that an expedition could be organized, and proceed from this Observatory to Des Moines, Iowa. The cost of the expedition was likewise defrayed by the

HAMILTON COLLEGE.

liberality of Mr. LITCHFIELD. The Telescope, the make of Messrs. STEINHEIL SONS, of Munich, has 4 (French) inches aperture, 5 feet focal length, and is mounted parallactically on a solid iron tripod, with setting circles for right ascension and declination, and has also a tangent screw for following the daily motion of a star. It has two terrestrial and six astronomical eye-pieces, (varying in power from 40 to 360,) a ring and a scale micrometer, and a sliding wedge for moderating the light. There is, moreover, fitted to the eye tube a direct vision spectroscope, with five prisms, for analyzing the light of the sun and its protuberances. This instrument will be particularly useful for the exercises of students, who may make astronomy a special study.

Another portable telescope, of the comet-seeker construction, was brought from Europe by the Director four years ago. It is the make of Mr. HUGO SCHROEDER of Hamburg, and its object-glass has 5 inches aperture. There are 5 eye-pieces, varying in power from 25 to 275, with a ringmicrometer, and a prism for more convenient observation. The telescope is mounted on a firm wooden tripod, with circles for altitude and azimuth, divided into degrees.

In order to make full use of the two last mentioned telescopes, an addition has now been built on the west side of the Observatory, connecting by a door with the transit room. It consists of an entrance or study room, and two movable domes, ten feet in diameter, the northern conical, the southern a hemisphere. Solid piers of masonry secure the stability of the instruments.

The following twenty-six Asteroids were first discovered at the Litchfield Observatory.

Knox Hall of Natural History.

The Department of Natural History has the benefit of an endowment, given by Hon. JAMES KNOX, LL. D., of Knoxville, Knox County, Illinois.

The Geological and Mineralogical Cabinets and Collections in Natural History, embrace the following, viz :

1. 9,000 Specimens of Ores and Simple minerals.
2. 2,500 Specimens of Fossils and Rocks to illustrate the Geology of New York.
3. 1,000 Specimens to illustrate the Geology of the United States.
4. 600 Fossils, mostly from the Silurian Formations of Europe.
5. 500 Specimens from the Coal Formations of the United States.
6. 250 Specimens from the New Red Sandstone Formation.
7. 600 Specimens of Crystallized Minerals from New York localities.
8. 2,000 Specimens of Land, Fresh Water and Marine Shells.
9. 300 Specimens in Ornithology from China.
10. 13 Cases of Specimens of Entomology.
11. Plants from China, presented by Dr. S. WELLS WILLIAMS.
12. One Case of Birds from the Transit of Venus Expedition.

Sartwell Herbarium.

Through the liberality of the late HAMILTON WHITE, of Syracuse, the College Collections in Natural History have been enriched by the HERBARIUM, collected by the late Dr. H. P. SARTWELL, of Penn Yan, and well known in scientific circles as a very extensive and valuable exhibition of our North American Flora. This HERBARIUM is the result of fifty years of botanical study, research and correspondence. It contains eight thousand samples of plants, skillfully cured, accurately labeled, and conveniently classified in sixty-two handsome volumes. Among the more unique or useful specimens are 451 *Mosses*, 223 *Lichens*, 341 *Sea-Weeds*, 600 *Fungi*, 575 *Ferns*, 314 *Grasses*, 200 *Ericaceæ*.

Religious Instruction.

Morning Prayers, with reading of the Scriptures are attended daily in the College Chapel. Public services are attended in the Chapel on the Sabbath, when all the students are required to be present, except such as have permission to attend at other places of worship. On Sabbath and Tuesday evenings there are religious services which all the students are invited to attend. A Church has been organized on such principles as to embrace members from various Evangelical Denominations. For the promotion of their spiritual good and highest usefulness, it is desirable that all professors of religion coming to the Institution should bring letters and connect themselves with the College Church.

HAMILTON COLLEGE.

A systematic course of Biblical Instruction is arranged for the several classes, a statement of which may be found in the General View of the Studies of the Year.

The Society of Christian Research holds its meetings monthly, when reports are read on the condition of Christian Missions in various parts of the world, and questions of religious interest are discussed.

Prizes.

1. A Fund of \$1,500, founded by CHARLES C. KINGSLEY, A. M., of Utica, furnishes two Prizes for members of the Senior Class who excel in *Extemporaneous Speaking*.

2. A Fund of \$700, founded by CHARLES C. KELLOGG, A. M., Utica, furnishes a Prize for any student of the Senior Class, except the successful competitors for the Clark Prize, the Pruyn Medal, the Head Prize and the Kirkland Prize, who shall excel in the composition and delivery of his *Commencement Oration*.

3. A Fund of \$500, founded by the late Hon. AARON CLARK, of New York, furnishes a Prize for the student of the Senior Class who excels in *Oration*.

4. A Fund of \$500, founded by Hon. J. V. L. PRUYN, LL. D., of Albany, Chancellor of the University of the State of New York, furnishes a Gold Medal for any student of the Senior Class, except the successful competitors for the Head Prize and the Kirkland Prize, who shall write the best Oration on *The Political Duties of Educated Young Men*.

5. A Fund of \$500 founded by Hon. FRANKLIN H. HEAD, A. M., of Elk Rapids, Mich., furnishes a Prize for any student of the Senior Class, except the successful competitors for the Pruyn Medal and the Kirkland Prize, who shall write the best Oration on *Alexander Hamilton*.

6. A Fund of \$500, bequeathed by the late Mrs. ABIGAIL R. KIRKLAND, of Clinton, furnishes a Prize for any student of the Senior Class, except the succeeding competitors for the Pruyn Medal and the Head Prize, who shall write the best Oration on *Biblical Science*.

7. A Fund of \$500, founded by the late Hon. GEORGE UNDERWOOD, of Auburn, furnishes two Prizes for members of the Senior Class who excel in *Chemistry*.

8. A Fund of \$700, founded by CHARLES C. KINGSLEY, A. M., of Utica, furnishes two Prizes, in the form of valuable books, for the two students in each of the three lower classes who excel in Elocution; valuable books will also be given to the two in each class who excel in *English Composition*.

9. A Fund of \$700, founded by relatives of the late Col. HENRY H. CURRAN, of Utica, furnishes a Gold Medal, and a Silver Medal, for members of the Junior Class, who excel in *Classical Studies*.

10. A Fund of \$500, founded by MARTIN HAWLEY, A. M., of Baltimore, Md., furnishes four Silver Medals for members of the Junior Class who excel in *Classical Studies*.

11. A Fund of \$500, founded by the late Rev. TERTIUS D. SOUTHWORTH, of Bridgewater, furnishes two Prizes, for members of the Junior Class who excel in *Natural Philosophy*.

12. A Fund of \$700, founded by HAMILTON B. TOMPKINS, Esq., of New York City, furnishes two prizes for members of the Junior Class who excel in *Mathematics*.

The Libraries.

The College and Society Libraries, amounting to 12,000 volumes, are accessible to students.

A few gentlemen in the City of New York, a few years since, presented to the College the private library of the late EDWARD ROBINSON, D. D., LL. D., of Union Theological Seminary. It consists of 1,420 volumes, and about 100 valuable maps, and furnishes rare facilities for the study of Biblical Exegesis and Scriptural Geography.

Hon. WILLIAM CURTIS NOYES, LL. D., a native of Oneida County and an honorary alumnus of the College, after a life of eminent service, professional and political, bequeathed to Hamilton College his Law Library. The collection numbers about five thousand volumes. The books had been collected during a practice of over twenty-five years, at a cost of not less than sixty thousand dollars. "The collection consists of all the American Reports, with scarcely an exception, down to the present time; of all the English Reports in the Courts of Law and Chancery, and in the Exchequer, down to the beginning of the year 1860; and all the Scotch decisions, in the Judiciary, Senior Courts and House of Lords; and the Irish Reports in Law and Equity.

In Elementary Law, it contains all the principal treatises in England and America, among which is the 'Law Library,' in upwards of ninety volumes.

It contains a complete set, in upwards of seventy volumes, of the printed Statutes of the Colony and State of New York, including the Session laws from the earliest period, commencing with a copy of Bradford's printed in London, in 1719, which formerly belonged to Lord De la Warr, and seems to have come from the plantation office in the colony."

The NOYES LIBRARY is at all times accessible to Members of the Bar.

The new building for the Library in honor of the principal contributor to the fund for its erection, is named the "PERRY H. SMITH LIBRARY HALL." The alumni of the College in Illinois, Wisconsin, and Iowa, have also been filial and generous in their gifts.

The building is two stories high above the basement: 75 feet long and 50 broad. The first floor above the basement is divided into the vestibule and hall, two rooms for the Librarian, and the library proper. The alcoves in the library room are arranged in three tiers, one above another, and with the adjacent walls and the Librarian's rooms will furnish a place for 60,000 volumes. The library is lighted by windows in the side walls and by skylights.

HAMILTON COLLEGE.

Over the entrance hall and Librarian's rooms, there is an apartment for a Memorial Hall and Art Gallery, to contain tablets and portraits of the alumni and students of the College who have served their country ; also portraits and other memorials of the founders of the College, its officers and benefactors.

Valuable additions have been made to the Library, chiefly in the Department of Metaphysics, by Professor Mears, whose friends have contributed in sums previously acknowledged, \$370 for this purpose, to which the sum of \$22 from an anonymous source is to be added, making \$392 in all.

In addition to the preceding, any damages voluntarily committed in the community of students, are charged to the individuals or classes committing them, when known ; to the whole body of students when not known, under the name of Extra Contingent Expenses.

A student admitted to an advanced standing, unless from another College, is charged with a matriculation fee : to the Sophomore Class, \$7 ; to the Junior, \$10 ; to the Senior, \$12.

Payment of Bills.

It is provided by a resolution of the Board of Trustees

1. THAT ALL STUDENTS BE REQUIRED TO PAY THEIR TERM BILLS IN ADVANCE, and that no student be admitted to the recitation room after the first week of the term, unless his bills have been paid or arranged to the satisfaction of the Treasurer.

2. That no student can have an honorable dismissal from the College or certificate of his previous attendance in it, until all his bills are paid or satisfactorily secured.

3. That in extreme cases, a student whose circumstances render it necessary, and who shall present satisfactory testimonials of the fact to the Executive Committee, if he is a worthy member of College, and his undergraduate course is completed in this Institution, can have his bills for tuition remitted.

Second Degrees.

Graduates of three years' standing, who have continued their studies are entitled to the degree of Master of Arts, on application to the President. The fee for the Degree and Diploma is \$5, payable in advance.

Absence from College.

The portion of the year allotted to vacations is so great as to render it quite unnecessary for students to visit their friends during the term, except for urgent and unforeseen reasons. The occasional loss of a day can not fail to have an unfavorable bearing on the intellectual habits and standing of the student. It is hoped that parents and guardians will concur with the Faculty in their opinion of the inexpediency of granting leave of absence in ordinary cases. During vacations, the College buildings are closed; and it is not thought desirable that students from abroad should remain in Clinton.

No deduction for absence will be made in the Term bills, where the student returns to the same class which he left.

Members of the Senior Class can not be graduated, unless they have been in attendance during two terms of the Senior year. No student is permitted to take part in the exercises of Commencement day, who has not spent the Third Term of his Senior year in College, and made his preparation also in College.

Teaching.

The Faculty keep a Register of Graduates and Undergraduates wishing engagements to teach, and will aim to nominate suitable candidates in reply to applications for teachers. Applicants for teachers should state definitely what service will be required, and what compensation will be paid.

Pecuniary Aid.

The interest of beneficiary funds, amounting to about \$3,000 per year will be annually distributed to needy students, preference being given to those of Christian character and good scholarship.

During the past year the College has received a gift of \$4,000 from SAMUEL H. JARDEN, Esq., of Philadelphia, Pa., as a permanent investment, to be known as the JARDEN FUND for the aid of worthy and loyal students.

Students who are candidates for the Christain Ministry, may receive aid, if their circumstances require it, to the amount of from one hundred to one hundred and twenty dollars a year, by placing themselves under the care of the Presbyterian Church, or under that of the American Education Society.

Scholarships.

Twenty permanent Scholarships have been established, varying in their annual income from sixty dollars to one hundred. Applications for Scholarships, or for any pecuniary aid, must be made to the President in writing, and students most needy and most deserving will have the preference. The assignment of some of the Scholarships is affected by special provisions. In any case, if the student is habitually negligent of college duties, or incurs a serious college censure, he will be liable to have the aid granted him summarily withdrawn.

Hungerford Hall.

Through the liberality of JOHN N. HUNGERFORD, Esq., of Corning, the South College has been thoroughly repaired, after plans furnished by W. J. HAMILTON, of Utica. The renovated building contains two large recitation rooms, eighteen feet in height, with convenient keepers' rooms on the first floor. Each of the new dormitories has the best arrangements for lighting and ventilation. Outwardly the entire building has been restuccoed, and the chimnies and roof rebuilt in modern style. The cost of these improvements was about \$15,000.

Determination of Standing.

1. Each Instructor keeps a record of all College exercises in his department, according to a scale of merit ranging from *ten* to *zero*.

If a student who is present and prepared to recite, is not called at any exercise, he receives a credit equal to the average of his actual performance for that term.

3. For each exercise from which a student is absent and not excused, he is marked zero

4. In estimating the value of class exercises, promptness and regularity are regarded as a merit; and all exercises, performed out of their regular time are liable to a discount, if the circumstances seem to require it.

Law Department.

REV. SAMUEL GILMAN BROWN, D. D., LL. D.,
PRESIDENT.

ELLICOTT EVANS, LL. D.,
Maynard and Knox PROFESSOR OF LAW, HISTORY, CIVIL POLITY,
AND POLITICAL ECONOMY.

The course of instruction in Law includes the thorough and careful study of the most approved text-books. Among these are Blackstone's and Kent's Commentaries, Parsons on Contracts, Washburn's Law of Real Estate, Greenleaf on Evidence, vol. 1st, and the Code of Procedure.

The great object aimed at is to store the mind of the student with the fundamental principles of the Law. This is to be accomplished in such a way that he can give, at any time, a full and accurate expression of legal rules. The text-books are to be so mastered that any question may be answered readily and with exactness. Reviews of previous exercises are often repeated, until the student becomes as familiar with the rudiments of Law as with the rudiments of a language. At each exercise every student is examined on the subject studied, and expected to give the result of the text in his own words.

The Professor connects oral and familiar lectures with each recitation putting cases to the class, involving the principles of the text, and requiring a solution; and endeavoring in every manner which may suggest itself to quicken and interest the student by exciting his mind to continued action. Instead of the fitful and intermittent studies of the law office, pursued often in confusion and amidst other circumstances tending to distract the mind, the student studies law as he does any other science, with a systematic purpose and plan. Experience has proved by its unfailing tests, that on such a basis, underlying the superstructure of a careful practice, sound and accurate lawyers will be formed.

Any person of good moral character who complies with the rules of the department, may join the class. The prescribed course of study for College graduates is one year; for those not graduated, one year and one-

third. After having passed the regular course of study, and the examination prescribed by the rules of the College, the student is entitled to the degree of Bachelor of Laws. No other examination is necessary for admission to the Bar. By the Laws of 1855, chap. 310, every graduate of the Law School is entitled to a certificate to practice as an Attorney and Counsellor of the Supreme Court. The terms of tuition are \$20 per term, or \$60 per year, with a graduation fee of \$5.

Students who do not wish to graduate, can remain any number of terms which they may choose, or study any one of the subjects embraced in the course. The order of studies in the principal subjects is: the Law of Contracts, in the Fall term; of Real Estate, in the Winter term; of Real Estate completed, Evidence, etc., in the Spring term.

Text-books are furnished by the Institution, and loaned to the student without charge, with the exception of Blackstone and Kent.

Admission of Attorneys.

The following rule, adopted September 22, 1875, by the Judges of the Court of Appeals of the State of New York, provides that an allowance of one year will be made to graduates who are candidates for admission to the bar.

"An allowance of one year shall be made to applicants who are graduates of any College or University, and who in their course of study shall have been instructed in the theory and general principles of jurisprudence, and in the historical development of the constitutional law of the United States and Great Britain, the proof of which shall be the certificate of the President of the College where such applicant graduated, to the satisfaction of the Supreme Court, that he has been taught and sustained a satisfactory examination in such studies, specifying the same, and no other allowances shall be made to such applicant for study, prior to the time of graduation, which time shall be made to appear."

Memorial Hall and Art Gallery.

By the action of the Executive Committee, Rev. A. D. GRIDLEY and Prof. EDWARD NORTH have been appointed a Standing Committee, to have special charge of the Memorial Hall and Art Gallery.

It is proposed to enlarge the scope of the collections in Memorial Hall. Contributions are solicited of historical paintings, landscapes, plaster casts, figures in bronze and marble, engravings, ancient coins, and other works of art, along with portraits of distinguished Alumni, and of Officers and Benefactors of the College. The following list of Portraits and other works of art, now in Memorial Hall, will indicate that a good beginning for a Gallery has been made, and that the way is auspiciously opened for additional gifts.

3. The work to be done will be the solution of ten problems, founded upon the mathematics of Sophomore year, and first term Junior.

4. Each competitor must bring with him materials for writing, but no written or printed matter.

5. Copies of the successful Prize Papers will be kept in the College Library.

• • •

REGULATIONS
For the Eleventh Kingsley Prize Debate.

MONDAY, JUNE 25, 1877.

• • •

1. The Eleventh Kingsley Prize Debate will be held on the afternoon of the Tuesday preceding Commencement, under the direction of the Kingsley Professor of Rhetoric.

2. From the members of the Senior Class who have gained the highest average standing in extemporaneous speaking, during their Junior and Senior years, not more than six Prize Debaters will be appointed by the Faculty. Their names, with the question for debate, will be announced at the last session of the final Senior Examination. At the same time, the position of the debaters on the affirmative or negative, will be determined by lot.

3. At the Debate, the order in which the competitors on the affirmative and those on the negative are to be called, will each be determined by lot, publicly drawn at the time. Each competitor will be called twice; and will be allowed to speak from ten to fifteen minutes on the first call, and ten minutes on the second call.

4. A first prize of \$70.00, and a second prize of \$30.00, will be awarded by a committee of three gentlemen, not members of the Faculty; and the award will be announced at the close of the debate.

REGULATIONS

For the Twenty-Second Curran Prize Examination,

THURSDAY, MARCH 22, 1877.

1. The competition for the Curran and Hawley medals is open to members of the Junior Class.

2. The examination will be held in the Examination Hall, commencing at nine o'clock, and closing at two o'clock.

3. Each competitor is required to bring with him pens and ink, and a quire of "legal cap" paper.

4. Competitors are not allowed to bring with them any written or printed matter, any engravings or models for drawing, or to hold any communication with each other. A violation of this rule will vitiate the work of one so doing.

5. Only one face of each half sheet is to be written upon, the other being left blank. There should also be an inch of margin on the left edge of each sheet.

6. The pages should be numbered at the top, with the student's name repeated beneath each number.

7. The several portions of the work should likewise be numbered according to the numbers of the printed questions.

8. At half past one, notice will be given that competitors may review, correct, and finish their work. At two o'clock the papers are to be given up.

9. In estimating the merit of competitive work, two points will be especially considered:

(1.) Exactness in rendering; fullness and accuracy of information on the subjects proposed.

(2.) Neatness, elegance, and logical arrangement in the exhibition and utterance of knowledge.

10. The kind of work to be done may be as follows, viz:

(1.) Translation from and into Greek and Latin.

(2.) Analysis of words, including derivation, synonyms, inflection and dialectic changes.

(3.) Analysis of sentences, with rules of construction, illustrative maps and drawings, and the answering of questions in History, Geography and Mythology.

(4.) Analysis of Metres, including quantity, rhythms and nomenclature.

(5.) Rules and practice of Greek accentuation.

(6.) Criticism on the style and subject-matter of the authors quoted from.

MATHEMATICAL PROBLEMS FOR 1875-6.

1. Two tangents are drawn to the same Parabola, one cuts the axis of an x at an angle of sixty degrees, the other at an angle of forty-five degrees. Required the cöordinates of the point of intersection of the tangents in terms of the parameter of the parabola.

2. A straight line is drawn through the middle points of the semi-major and semi-minor axes of a given Ellipse. Where will the line intersect the Ellipse?

3. The pole of a spiral of Archimedes is taken at the corner A of a given square, A, B, C, D. The curve passes through the middle of the diagonal of the square, and also through the corner D of the same square. Where will the spiral cut the diagonal a second time?

4. Required the equation of that tangent to the Cycloid which will cut the axis of x at an angle of forty-five degrees.

5. A tangent to a given Ellipse is so drawn, that the part intercepted by the axes of x and y shall be a minimum. Required the position of the tangent, and the length of the part intercepted.

6. Required the integral of $\frac{6dx}{9-4x^2}$ between the limits $x=0$ and $x=\infty$.

7. The subtangent of a curve is equal to

$$\frac{a}{(a^2-y^2)^{\frac{1}{2}}}$$

Required the area of the curve between the limits $y=0$ and $y=a$.

8. The curve whose equation is $y^{\frac{2}{3}}-x^{\frac{2}{3}}=r^{\frac{2}{3}}$ revolves around axis of x . Required the surface of the solid described.

9. The curve whose equation is $xy^2-ax^2=a^3$ revolves around the axis of x . Required the volume of the solid described.

10. The curve whose equation is $(y-x)^2=a^2-x^2$ revolves around the axis of x . Required the volume of the solid described, between the limits $y=0$ and $y=a$.

THE COLLEGE GROUNDS.

The Park in the midst of which the College buildings stand, embraces fifteen acres. The trees which adorn it were planted at different times. The Lombardy poplars were set out between the years of 1805 and 1812, by Rev. SAMUEL KIRKLAND and President BACKUS; the older elms in 1830, by OTHNIEL WILLIAMS, Esq., then treasurer of the College; and the groups of maples and ashes directly in front of the dormitories, in 1836, by President PENNY.

In the year 1853, the grounds were enlarged and laid out anew according to the modern English method. It was the design of the committee having the matter in charge, to obtain specimens of every tree and shrub supposed to be hardy in the climate of Central New York. A Pinetum was also begun, in which a large variety of conifers have been planted. Labels have been affixed to many of the rarer trees and shrubs, showing the scientific name of each, together with its popular name and habitat. In those portions of the grounds daily traversed by the students, plots have been devoted to the culture of shrubs and flowering plants. Within a few years, the campus has been invested with a new interest, by the planting of memorial trees by the successive graduating classes, and the erection of memorial stones, sun-dials, classic vases and garden seats.

It is the design of the Trustees and Faculty, to render this Park increasingly attractive. New trees and plants will be added to the present collection, as fast as they can be obtained. And for the more speedy accomplishment of this end, contributions are invited from the friends of the Institution. The Curators of the College grounds are Prof. OREN ROOT, JOHN C. HASTINGS, Esq., and Rev. Dr. A. D. GRIDLEY. Communications on this subject may be addressed to either of the Curators.

An Ordinance to Amend the Charter of Hamilton College.

By the Regents of the University of the State of New York :

An application having been made to the said Regents, by the trustees of Hamilton College, for an amendment of the charter of the said college, in order to provide for the election of four additional trustees by the alumni thereof, and it appearing that due public notice of the said application has been given as required by the ordinance of the said Regents in that behalf, and no objection thereto having been presented :

Now, therefore, be it known that the said Regents of the University, by virtue of the authority in them by law vested, do ordain, determine and declare that the charter of Hamilton College be, and the same is, hereby amended as follows, subject however, to the power of the said Regents, at any time hereafter, on cause satisfactory to them, to alter, amend or repeal this ordinance :

SECTION 1. On the day preceding the next annual commencement of Hamilton College, at 12 o'clock noon, an election shall be held in the chapel of the college, or at such place in the village of Clinton as the trustees of the college may designate, to choose four additional trustees of said college, which trustees, when duly chosen, shall possess the same power and perform the same duties as the other trustees of the college. Such election shall be by ballot, and every graduate of the college of at least three years' standing shall be entitled to vote at such election, No person shall be elected as one of the said additional trustees unless he be a graduate of the college of at least ten years' standing. Immediately after the election, the trustees so chosen shall be so classified by lot that the term of office of one of them shall expire with the close of commencement day of the year after such election, the second in two years, the third in three years, the fourth in four years after such first-named commencement day.

SECTION II. On the day preceding each subsequent commencement day an election shall be held to choose one trustee to fill the place of the person whose term of office is about to expire. The person so chosen shall hold his office for the term of four years, and all the provisions of the first section of this ordinance relating to the qualifications of voters and the eligibility of candidates, and time, place and manner of holding the election shall be applicable to all such elections.

SECTION III. The trustees of the College shall appoint inspectors of all elections, and may prescribe such rules and regulations as they may deem proper for conducting the same, and for canvassing the votes and declaring the result. They shall also provide for the classification of the trustees to be elected in pursuance of the first section of this ordinance.

SECTION IV. Thirteen trustees regularly convened, shall hereafter constitute a quorum of the board.

In witness whereof, the said regents have caused their common seal to be hereunto affixed, and their Chancellor and Secretary to subscribe their names, this fourteenth day of January, in the year one thousand eight hundred and seventy-five.

JOHN V. L. PRUYN,

Chancellor of the University.

S. B. WOOLWORTH, *Secretary.*

Regulations for the Election of Trustees.

1. The election shall be held at the chapel of the Stone Church in Clinton, on the day preceding the annual commencement, and the polls shall open at 12 M., and close at one P. M.

2. The president and secretaries of the Society of Alumni shall act as the president and secretaries of the meeting, unless others are chosen in their places.

3. Three inspectors of election shall be appointed by the Board of Trustees of the College, with the usual powers, who shall receive and canvass the votes, and declare the result, and shall communicate the same in writing to the Board of Trustees.

4. Every graduate of the college of at least three years' standing shall be entitled to vote at such election. No person shall be elected as one of the trustees unless he be a graduate of the college of at least ten years' standing.

5. Graduates not intending to be present at the election, may forward their ballots to any officer of the Society of the Alumni residing in Clinton, who shall indorse his own name upon the ballot before depositing the same, it being required in every case that the name of the voter and of the candidate voted for, shall be in the handwriting of the voter.

6. A majority of all the ballots cast shall be necessary to the election of a trustee.

7. If no person receives a majority on the first balloting, a second or other balloting may be taken until an election is made.

8. An absent voter may send a second ballot to be deposited in his name, in case there is no choice on the first balloting. If no second ballot is sent, then the ballot used on the first balloting may be used or withheld on the second or any subsequent balloting, at the option of the agent holding the same.

9. Whenever a vacancy shall occur from death, resignation or any other cause, the graduates shall elect a trustee to fill the office for the remainder of the term, in which a vacancy has occurred, in the usual manner as above provided.

SOCIETY OF ALUMNI.

This Society is composed of graduates from the College, and those upon whom it has conferred honorary or *ad eundem* degrees. Among its objects is the encouragement of Science and Letters, more especially in their connection with Hamilton College. It has the use of an alcove in the College Library, to which donations are solicited of books, pamphlets and papers, whose authors are Alumni of Hamilton. It seeks also the promotion of friendly feeling and sympathy among its living members, and the rendering of fit honor to the departed. Its annual meeting is held on the day preceding Commencement. Persons who can supply information appropriate to the Triennial Catalogue or the Obituary Record, are requested to communicate the same to the Necrologist. Catalogues and Schemes printed during the presidency of Rev. Dr. Davis would be especially welcome, for filling imperfect files.
